Subject CCW Resolution Mtg.

Hello Mr. Nutting,

I received word on your efforts to remove some of the limitations on CCW permits . I am the fifth generation in this county and coming from a ranching family I am well acquainted with firearms and their uses and the safeties that go with them. My dad got his CCW over twenty years ago and continues to renew his permit every year. My brother also received his CCW permit a few years back and now I am old enough, I would like to get mine as well. We all have, or want to have CCW permits for the same reason , personal protection. The second amendment is about defense of self and our country. I believe our law enforcement in this county is doing a fine job, but they can't be with us all the time and protect us. I believe that law abiding citizens like myself and many others should have the right to carry concealed weapons for the purpose of defending ourselves and others in life threatening situations. I know of several law abiding citizens who have been denied that right, and some like myself who feel there is no point in trying because our current authorities have taken that right away and made it too difficult to accomplish. I would like to thank you for your efforts and we greatly appreciate the action you have taken to allow us our freedoms again that our forefathers established for us. I understand that there is a meeting tomorrow morning about this issue. Unfortunately I am unable to be there to voice my opinion. I hope that this letter will suffice and you can inform those who need to know that this is what we stand for and we will not allow our constitutional rights to be abolished. Thank you.

Sincerely,

Jacob Varozza

Subject Attn: Ray Nutting re. CCW Permits

Cannot manage to be at the meeting tomorrow, so ...

To let you know that THIS voter supports REASONABLE CCW requirents as outlined in your proposal.

Our right to bear arms directly relates to Colonial Militias, intended originally for local defense but eventually an essential part of Washington's victory over the British.

Hitler outlawed gun ownership - he had a "free ride", didn't he!

It will be a sad day if we need our firearms to defend ourselves against our own government, but stranger things have happened in history. We must reserve that RIGHT.

Regards,  
M.Steward
