EXHIBIT A SCOPE OF WORK

The El Dorado County Planning and Building Department (ELDC) will provide project management services to construct a Meyers Aquatic Invasive Species (AIS) station in Meyers, CA. The project proponent and project funder is the Tahoe Regional Planning Agency (TRPA).

The inspection station is planned to occupy four (4) undeveloped parcels on the southwest corner of State Route 89 and U.S. Route 50, which are owned by the California Tahoe Conservancy (CTC). These parcels are identified as Asset Lands by the CTC and therefore are higher capability land and can support a recreation type of land use. The parcels are zoned Recreation in the County's Meyers Area Plan. Currently, a temporary AIS station is established by TRPA across State Route 89. This station will replace that station.

This scope of work is for Phase 1 of the project, which includes a 30% project design, an environmental document phase including a TRPA Initial Environmental Checklist (IEC), a California Environmental Quality Act (CEQA) Mitigated Negative Declaration (MND), a National Environmental Policy Act (NEPA) Environmental Assessment/Finding of No Significant Impact (EA/FONSI), and a public engagement process. The County will release a Request for Proposals (RFP) to hire a consultant to complete this phase of the project. The contract with the selected consultant shall be provided to TRPA staff for review and approval to ensure the contract provides for TRPA's input and direction, particularly with respect to the IEC portion of the analysis. County staff time will be required to administer and manage the project.

The project will consist of a boat inspection and decontamination area, associated mechanical and storage sheds, an open space/public access area with signage, a public restroom, a public service bicycle station, a workforce housing building and required vehicle queuing and parking areas. TRPA staff will provide guidance on inspection station specifications as needed/requested.

ELDC will conduct the following tasks and produce associated deliverables:

Task 1- Project Management

ELDC staff will serve as the project manager, overseeing contractors developing the 30% design plans for the project, and preparing the necessary environmental documentation. ELDC staff will also oversee the public engagement process associated with environmental review and host two (2) public meetings: one (1) prior to receiving 30% design plans, and one (1) after the start of the environmental documentation process. ELDC staff will prepare an updated schedule that includes regular coordination meetings. ELDC staff will prepare and submit invoices with the necessary backup for reimbursement.

Task 1 Deliverables:

- *Revised Project Schedule*
- *Coordination Meeting Notes*
- *Host public meetings*

#24C00042 #24C00051

Page 12 of 13

Task 2- Consultant Services

ELDC staff will draft an RFP for review by TRPA staff. ELDC will subsequently release the RFP seeking qualified entities to prepare 30% design plans and develop the necessary environmental review documentation required for CEQA, TRPA, and NEPA. ELDC will coordinate review of proposals with TRPA staff, and collaboratively select the appropriate entities. ELDC staff will enter into a contract(s) with selected entities to produce the items described above.

ELDC will provide draft 30% design plans and any interim drafts produced by the contractor for TRPA review and feedback.

ELDC will provide any draft products developed for the environmental review process to TRPA staff as necessary.

ELDC will provide Final 30% design plans and completed CEQA, TRPA, and NEPA documentation.

Task 2 Deliverables:

- *Draft RFP*
- *Released Final RFP*
- *Copy of Contract(s) with selected contractor(s)*
- *Draft 30% design plans (and interim drafts if applicable)*
- *Final 30% design plans and completed environmental documentation*

* The number of hours required for project management and the cost of Consultant Services are estimates. Project Management costs are estimated using an 18% overhead to forecast costs. If Consultant Services bids come in lower than the forecasted amounts above, that reflects a reduction in complexity of Project Management, which will result in fewer hours necessary to complete that work. A budget amendment will be needed after bids are received from the RFP process.
