3. Provide psychiatric treatment and rehabilitation services including but not limited to:
 - a. A treatment plan designed specifically for each resident, focusing on medication, behavioral and psychiatric needs;
 - b. A daily agenda to assist Clients with elementary functions including activities of daily living, interactive groups, both cognitive and rudimentary, as well as group outings and associated work programs; and
 - c. A highly structured program that caters to a wide spectrum of the mental health community, with a goal to allow Clients to develop into self-reliant human beings and thus allow their return to a less restrictive setting in the community.

B. Programs

1. **MHRC Main Program** employs a highly structured daily program that allows both developmental growth and self-reliance. The daily program assists Clients with rudimentary skills including activities of daily living and interactive groups.
 - a. *Cognitive sessions* focus on such topics as; anger management, medication awareness, and impulse control, provide necessary tools for each resident to realize their potential.
 - b. *Group therapy sessions* provided on a weekly schedule, conducted by the Staff Psychiatrist, the Director of Nursing, Team Leader(s) and staff. These sessions help identify and isolate resident concerns, progress, and reoccurring issues and gauge the overall progress of the unit.
 - c. *One-on-one sessions* also referred to as "Resident Staffing," are designed to delve further into the root causes of behavior as well as the specific needs of the individual resident, addressing behavioral issues, medication changes and program compliance. One-on-one supervisions shall be provided on an "as needed" basis as determined by medical order of the Contractor's staff psychiatrist and with approval within twenty-four (24) hours of the Health and Human Services Agency Director or Director's designee. The purpose of one-on-one supervision is to maintain placement and reduce the possibility of injury to self or others.
 - d. The program examines the progress of each resident as it pertains to their needs and gauges their individual success.
2. The **Diversion Program** is designed to serve court ordered diversion and Incompetent to Stand Trial – Penal Code 1370 (IST 1370) individuals. The individuals in this program have been incarcerated facing charges of either misdemeanor or felony and are unable to stand trial due to a mental illness or a mental illness with a co-occurring developmental disability.

- a. The program goal is to use a structured daily program to allow for competency restoration and diversionary programs. By treating these individuals, the Contractor can assess whether or not an individual is competent to stand trial or is in need of further psychiatric evaluation and treatment.
- b. The daily program assists Clients with rudimentary skills including activities of daily living and interactive/cognitive groups as well as comprehensive treatment plans designed to address their individual mental health needs.
- c. Specific training sessions addressing competency restoration focus on such topics as; an understanding of courtroom proceedings; penalties, charges and defenses; legal terminology, and various tests used to determine levels of competency.

 - f. The program examines the progress of each resident as it pertains to their needs and gauges their varying levels of competency and individual successes. Once competency is determined, the individual may be remanded back to the county of jurisdiction for further proceedings, or, if applicable, further treatment may be ordered.
3. The **Disruptive Behavioral Unit** provides individuals an intensive therapeutic program that will focus directly on disruptive behaviors. These behaviors inhibit treatment and have the potential to affect other resident’s progress. Placing individuals that are disruptive in one common area allows the Contractor to

formulate and implement specific types of treatment plans designed to identify the stressors that may be causing the disruptive behaviors.

- a. This highly structured program creates an atmosphere that minimizes distraction and focuses on recovery. Behaviors that are deemed severely disruptive and counterproductive to treatment include but are not limited to the following:

- d. DBU Staffing:
 - i. The unit at full capacity has a ratio of three (3) Clients to one (1) staff member. This ratio provides the attention and rehabilitative skills necessary for a quicker recovery.
 - ii. In addition to the 3:1 staffing ratio, a twenty-four (24) hour nursing staff provides medications necessary to reduce agitation levels as needed, as well as activity personnel to provide group and leisure activities.
 - iii. A Team Leader and Program Clerk are also assigned to the unit for treatment plan implementation, progress reviews, and quarterly reporting.
