Occupation/Title Vice President		Employer WSA Compliance	
List all County boards, commissions or committees to which you are/were appointed. Please include dates of service. I have not yet served on any boards, commissions or committees.			
Summary of qualifications I studied political science at Sacramento State University, and achieved a Bachelor's Degree. I learned a great deal about how the government works, and that understanding has been reinforced through my work in the regulatory industry. During my studies, I interned for State Senator Deborah Ortiz, so I have direct experience in government as well. In my current role as Vice President of a local compliance firm, I work almost exclusively on construction projects, so I am familiar with the particular issues related to building codes and associated regulations. The affiliations and certifications listed below also qualify me in the sense that I frequently deal with a wide variety of government agencies for purposes of acquiring, and complying with permits for construction of residential, commercial, and infrastructure projects. I work frequently with various Federal, State, County and City agencies on a daily basis.			
Affiliations with professional and/or community groups I am not formally affiliated with any professional or community groups, except insofar as I am certified by several professional organizations and Sac State's Office of Water Programs. I am a CPESC, QSD, QSP, and ATS Trainer. These designations are primarily related to environmental regulations for construction projects.			
Why do you seek appointment? I seek appointment because I believe that I can provide value in service of my local community. I feel that public service is an important part of civic duty, and I believe that this committee is important.
