Please support Marshall Hospital's request regarding the tobacco settlement funds. The point of the settlement was to support health related issues caused by tobacco. Funding the cancer center of the only healthcare institution in El Dorado county is the right choice for these funds. In these times of significant cuts from state and federal payments to hospitals, these fund can make the difference of having cutting edge treatment locally or not. If the Board chooses to fund other areas, I would hope there would be an explanation to the public as to the HEALTH RELATED rationale for such as decision.

To Whom it May Concern:

Please consider Marshall Medical Center in Placerville, CA request for tobacco settlement funds. They are opening a new cancer center to help treat and support patients with cancer. Many of these patients have been or are smokers. As a rural hospital, treatment of the uninsured and indigent imposes a strain on this institution and funding from the tobacco settlement would surely be put to good use. Thank you.

Dear El Dorado County Supervisors --

A second request is going before the board next week to provide \$800,000 out of the Tobacco Settlement Fund to Marshall Medical Center's efforts to build out a comprehensive Cancer Center for the County.

Marshall is the largest health care provider in the county and has not requested significant funds from the Tobacco Settlement Funds that are **earmarked for health care** related costs.

For all intents and purposes, **Marshall is acting in the capacity of the county hospital** -- the County is not paying for care provided by Marshall to the indigent in the area.

Marshall also **subsidizes many community health initiatives** for the benefit of all of our county residents.

Would you show your support and show you value the good work Marshall is doing on behalf of your constituents -- your family, your friends and your neighbors?

Vote YES to Marshall's request for cancer services funding.

Lourdes Edralin

, El Dorado Hills

Dear Supervisor:

This facility would accomplish several important things for our county: Provide high-quality and convenient healthcare to cancer patients; would bring in revenue and jobs; would attract skilled healthcare providers to our area. We would all benefit from the funding of this center.

I urge you to support the Tobacco Settlement Fund request from Marshall Medical Center and Marshall Foundation on next Tuesday's agenda. This funding will send a clear message to the community that our county supports those who are suffering from cancer. I appreciate your support!
