

MARSHALL FOUNDATION
for community health

March 20, 2008

El Dorado County Auditor-Controller's Office
Joe Harn, Auditor-Controller
360 Fair Lane
Placerville, CA 95667

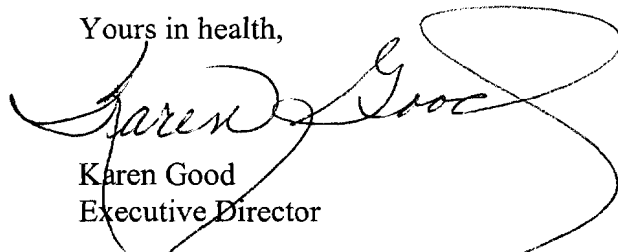

Dear Joe:

Marshall Foundation for Community Health continues to raise funds for the expansion of emergency services on the Western Slope of El Dorado County. It has come to our attention that firefighters in our community who are paid by the County of El Dorado would like to pledge payroll dollars in support of this campaign; however, presently there is no vehicle to accommodate this request.

The Marshall Medical Center Board of Directors and the Marshall Foundation Board of Trustees respectfully request that this payroll deduction option be made available to county employees who wish to support the expansion of emergency services. We had hoped that United Way might allow us to partner in this regard, but at this time no such agreement is possible.

We appreciate your assistance in this regard. We are available to discuss the facilitation of this agreement, and I look forward to talking with you soon.

Yours in health,

Karen Good
Executive Director

P.S. The campaign goal is \$4,000,000 and to date we have raised \$3,264,500 in support of our community and access to critical emergency services.
