Rescue, CA 95672

Dear Mrs. Sanford,

On Tuesday 12/17/02 Patrick Evans, Soil Conservationist, and Brook Murphy, Range Management Specialist, visited your property at your request to provide assistance on erosion control. I wish to apologize for any miscommunications and the personality conflicts that arose during this visit.

In the future, I will schedule an appointment with our Cluster or Area Engineer to revisit your property to again review and provide information on the road cut erosion problems. If you wish another appointment, please contact me and I will try to schedule the engineer for the latter portion of January.

Again, please accept my apologies for the inappropriate visit of 12/17
