Jon Mijat, County Planner,

Good morning. My name is Fredrick Pifer. I have lived in El Dorado Hills for 29 years right around the corner from from the Bowman Archery Club. I have used the course many times. I am also a retired Construction-Engineering Director/General Manager for AT&T. During my career my personnel designed and provisioned facilities to cell sites routinely.

I know that there are AT&T cell antennas in the St Stephen's Lutheran Church Tower. It's coverage has been limited and spotty. I like the proposed water tank solution versus the standard disguised tower with cosmetic tree apertures attached. I do not support the 110' height proposed. Water towers of this design do not sit 110' in the air 55' above the exist oak tree canopy.

This tank (18'x22') will be an eyesore, a beacon for anyone driving down El Dorado Hills Blvd. Please deny the request as proposed.

Most respectfully,

Fredrick L. Pifer
