### I. Preamble

- A. This Intergovernmental Agreement (hereinafter referred to as Agreement) is entered into by and between the Department of Health Care Services (hereinafter referred to as DHCS, The Department, or the state) and the Contractor for the purpose of identifying and providing covered Drug Medi-Cal Organized Delivery System (DMC-ODS) services for substance use disorder (SUD) treatment in the Contractor's service area pursuant to Sections 11848.5(a) and (b) of the Health and Safety Code (hereinafter referred to as HSC), Sections 14021.51–14021.53 and 14124.20–14124.25 of the Welfare and Institutions Code (hereinafter referred to as WIC), Part 438 of the Code of Federal Regulations (hereinafter referred to as 42 CFR 438), and the Special Terms and Conditions (STCs) of the DMC-ODS waiver.
- B. It is further agreed this Agreement is controlled by applicable provisions of: (a) the WIC, Chapter 7, Sections 14000, et seq., in particular, but not limited to, Sections 14100.2, 14021, 14021.5, 14021.6, 14043, et seq. and (b) Division 4 of Title 9 of the California Code of Regulations (hereinafter referred to as Title 9).
- C. It is understood and agreed that nothing contained in this Agreement shall be construed to impair the single state agency authority of DHCS.
- D. The objective of this Agreement is to make SUD treatment services available to Medi-Cal beneficiaries through utilization of federal and state funds available pursuant to Title XIX or Title XXI of the Social Security Act (hereinafter referred to as the Act) for reimbursable covered services rendered by certified DMC providers.
- E. These services shall be provided through a Prepaid Inpatient Health Plan (PIHP) as defined in 42 CFR §438.2.
- F. This Agreement requires the Contractor to ensure the availability and accessibility of adequate numbers of facilities, service locations, service sites, and professional, allied, and supportive personnel to provide medically necessary services, and ensure the authorization of services for urgent conditions. The DMC-ODS provides for automatic mandatory enrollment of all Medi-Cal beneficiaries in the single PIHP operating in the county in which the beneficiary resides. PIHPs in a very small county or in any one geographic area may have a limited number of providers for a particular service. If additional providers are not needed to meet general access requirements, the Contractor is not obligated to subcontract with additional providers to provide more choices for an individual beneficiary.

##### B. Use of State General Funds

##### C. Funding Authorization

Contractor shall bear the financial risk in providing any substance use disorder (SUD) services covered by this Agreement.

##### D. Availability of Funds

It is understood that, for the mutual benefit of both parties, this Intergovernmental Agreement may have been written before ascertaining the availability of congressional appropriation of funds in order to avoid program and fiscal delays that would occur if this Agreement were not executed until after that determination. In this event, DHCS may amend the amount of funding provided for in this Agreement based on the actual congressional appropriation.

##### E. Subcontractor Funding Limitations

Contractor shall reimburse its subcontractors that receive a combination of Drug Medi-Cal Organized Delivery System (DMC-ODS) funding and other federal or county realignment funding for the same service element and location based on the subcontractor's actual costs in accordance with Medicaid reimbursement requirements as specified in Title XIX or of the Social Security Act, DMC-ODS Special Terms and Conditions (STCs), and STCs' Attachments. Payments at interim rates shall be settled to lower of actual cost or customary charge at year-end.

2. Contractor shall maintain for review and audit and supply to DHCS upon request, adequate documentation of all expenses claimed pursuant to this Agreement to permit a determination of expense allowability.
3. If the allowability or appropriateness of an expense cannot be determined by DHCS because invoice detail, fiscal records, or backup documentation is nonexistent or inadequate according to generally accepted accounting principles, and generally accepted governmental audit standards, all questionable costs may be disallowed and payment may be withheld by DHCS. Upon receipt of adequate documentation supporting a disallowed or questionable expense, reimbursement may resume for the amount substantiated and deemed allowable.
4. Costs and/or expenses deemed unallowable shall not be reimbursed or, if mistakenly reimbursed, those costs and/or expenses shall be subject to recovery by DHCS pursuant to Article III.DD of Exhibit A, Attachment I, the DMC-ODS STCs, and the STCs' Attachments.

### Section 2 - DMC-ODS Financial Audits

- A. In addition to the audit requirements set forth in Exhibit D(F), DHCS may also conduct financial audits of DMC-ODS programs, exclusive of NTP services, to accomplish any of, but not limited to, the following audit objectives:
1. To review reported costs for validity, appropriate allocation methodology, and compliance with Medicaid laws and regulations.
  2. To ensure that only the cost of allowable DMC-ODS activities are included in reported costs.
  3. To determine the provider's usual and customary charge to the general public in accordance with CMS (The Medicare Provider Reimbursement Manual) (CMS-Pub.15), which can be obtained from the Centers for Medicare & Medicaid Services, Baltimore, Maryland, or [www.cms.hhs.gov](http://www.cms.hhs.gov), for comparison to the DMC-ODS cost per unit.
  4. To review documentation of units of service and determine the final number of approved units of service.
  5. To determine the amount of clients' third-party revenue and Medi-Cal share of cost to offset allowable DMC-ODS reimbursement.
  6. To compute final settlement based on the lower of actual allowable cost or the usual and customary charge, in accordance with the DMC-ODS STCs and the STCs' Attachments.
- B. In addition to the audit requirements set forth in Exhibit D(F), DHCS may conduct financial audits of NTP programs. For NTP services, the audits will address items A(3) through A(5) above, except that the comparison of the provider's usual and customary charge in A(3) will be to the DMC USDR rate in lieu of DMC-ODS cost per unit. In addition, these audits will include, but not be limited to:
1. For those NTP providers required to submit a cost report pursuant to W&I Code Section 14124.24, a review of cost allocation methodology between NTP and other service modalities, and between DMC-ODS and other funding sources.
  2. A review of actual costs incurred for comparison to services claimed.
  3. A review of counseling claims to ensure that the appropriate group or individual counseling rate has been used and that counseling sessions have been billed appropriately.

Contractor shall not use funds administered by DHCS to repay one federal funding source with funds provided by another federal funding source, or to repay federal funds with state funds, or to repay state funds with federal funds.
- D. Contractor agrees to promptly develop and implement any corrective action plans in a manner acceptable to DHCS in order to comply with recommendations contained in any audit report. Such corrective action plans shall include time-specific objectives to allow for measurement of progress and are subject to verification by DHCS within six months from the date of the plan.
- E. Contractor, in coordination with DHCS, shall provide follow-up on all significant findings in the audit report, including findings relating to a subcontractor, and submit the results to DHCS.
- If differences cannot be resolved between DHCS and the Contractor regarding the terms of the final financial audit settlements for funds expended under Exhibit B, Contractor may request an appeal in accordance with the appeal process described in the Exhibit A, Attachment I and Division 9, Part 3, Chapter 7, Article 5.3 of the W&I Code. Contractor shall include a provision in its subcontracts regarding the process by which a subcontractor may file an audit appeal via the Contractor.
- F. Providers of DMC-ODS services shall, upon request, make available to DHCS their fiscal and other records to assure that such providers have adequate recordkeeping capability and to assure that reimbursement for covered DMC-ODS services are made in accordance with Exhibit A, Attachment I, the DMC-ODS STCs, and the STCs' Attachments. ### Part IV - Records

#### Section 1 - General Provisions

##### A. Maintenance of Records

Contractor shall maintain sufficient books, records, documents, and other evidence necessary for DHCS to audit Agreement performance and compliance. Contractor shall make these records available to DHCS, upon request, to evaluate the quality and quantity of services, accessibility and appropriateness of services, and to ensure fiscal accountability. Regardless of the location or ownership of such records, they shall be sufficient to determine if costs incurred by Contractor are reasonable, allowable and allocated appropriately. All records must be capable of verification by qualified auditors.

1. Contractor and subcontractors shall include in any contract with an audit firm a clause to permit access by DHCS to the working papers of the external independent auditor, and require that copies of the working papers shall be made for DHCS at its request.
2. Contractor and subcontractors shall keep adequate and sufficient financial records and statistical data to support the year-end documents filed with DHCS. All records must be capable of verification by qualified auditors.
3. Accounting records and supporting documents shall be retained for ten years. When an audit by the Federal Government, DHCS, or the California State Auditor has been started, the records shall be retained until completion of the audit and final resolution of all issues that arise in the audit. Final settlement shall be made at the end of the audit and appeal process.
4. Financial records shall be kept so that they clearly reflect the source of funding for each type of service for which reimbursement is claimed. These documents include, but are not limited to, all ledgers, books, vouchers, time sheets, payrolls, appointment schedules, client data cards, and schedules for allocating costs. All records must be capable of verification by qualified auditors.
5. Contractor's subcontracts shall require that all subcontractors comply with the requirements of Exhibit A, Attachment I, Article II and Article III.
6. Should a subcontractor discontinue its contractual agreement with the Contractor, or cease to conduct business in its entirety, Contractor shall be responsible for retaining the subcontractor's fiscal and program records for the required retention period. DHCS Administrative Manual (SAM) contains statutory requirements governing the retention, storage, and disposal of records pertaining to state funds. Contractor shall follow SAM requirements located at <http://sam.dgs.ca.gov/TOC/1600.aspx>.

## **Exhibit B Budget Detail and Payment Provisions**

The Contractor shall retain all records required by W&I Code section 14124.1, 42 CFR 433.32, Exhibit A, Attachment I, the DMC-ODS STCs and STCs' Attachments for reimbursement of services and financial audit purposes.

7. In the expenditure of funds hereunder, Contractor shall comply with the requirements of SAM and the laws and procedures applicable to the obligation and expenditure of federal and state funds.

### **B. Dispute Resolution Process**

1. In the event of a dispute under Exhibit A, Attachment I, Article III other than an audit dispute, Contractor shall provide written notice of the particulars of the dispute to DHCS before exercising any other available remedy. Written notice shall include the Agreement number. The Director (or designee) of DHCS and the County Drug or Alcohol Program Administrator (or designee) shall meet to discuss the means by which they can effect an equitable resolution to the dispute. Contractor shall receive a written response from DHCS within 60 days of the notice of dispute. The written response shall reflect the issues discussed at the meeting and state how the dispute will be resolved.
2. As stated in Part III, Section 2, of this Exhibit, in the event of a dispute over financial audit findings between DHCS and the Contractor, Contractor may appeal the audit in accordance with Exhibit A, Attachment I and Division 9, Part 3, Chapter 7, Article 5.3 of the W&I Code. Contractor shall include a provision in its subcontracts regarding the process by which a subcontractor may file an audit appeal via the Contractor.
3. Contractors that conduct financial audits of subcontractors, other than a subcontractor whose funding consists entirely of non-Department funds, shall develop a process to resolve disputed financial findings and notify subcontractors of their appeal rights pursuant to that process. This section shall not apply to those grievances or compliances arising from the financial findings of an audit or examination made by or on behalf of DHCS pursuant to Part III of this Exhibit.
4. To ensure that necessary corrective actions are taken, financial audit findings are either uncontested or upheld after appeal may be used by DHCS during prospective agreement negotiations.

Reimbursement for travel and per diem expenses from DHCS under this Agreement shall, unless otherwise specified in this Agreement, be at the rates currently in effect, as established by the California Department of Human Resources (CalHR), for nonrepresented state employees as stipulated in DHCS' Travel Reimbursement Information Exhibit. If the CalHR rates change during the term of the Agreement, the new rates shall apply upon their effective date and no amendment to this Agreement shall be necessary. Exceptions to CalHR rates may be approved by DHCS upon the submission of a statement by the Contractor indicating that such rates are not available to the Contractor. ## 3. Procurement Rules

(Applicable to agreements in which equipment/property, commodities and/or supplies are furnished by DHCS or expenses for said items are reimbursed by DHCS with state or federal funds provided under the Agreement.)

### a. Equipment/Property definitions

Wherever the term equipment and/or property is used, the following definitions shall apply:

(1) **Major equipment/property:** A tangible or intangible item having a base unit cost of **\$5,000 or more** with a life expectancy of one (1) year or more and is either furnished by DHCS or the cost is reimbursed through this Agreement. Software and videos are examples of intangible items that meet this definition.

(2) **Minor equipment/property:** A tangible item having a base unit cost of **less than \$5,000** with a life expectancy of one (1) year or more and is either furnished by DHCS or the cost is reimbursed through this Agreement.

b. **Government and public entities** (including state colleges/universities and auxiliary organizations), whether acting as a contractor and/or subcontractor, may secure all commodities, supplies, equipment and services related to such purchases that are required in performance of this Agreement. Said procurements are subject to Paragraphs d through h of Provision 3. Paragraph c of Provision 3 shall also apply, if equipment/property purchases are delegated to subcontractors that are nonprofit organizations or commercial businesses.

Page 3 of 26

# EXHIBIT 1

To secure equipment/property above the annual maximum limit of \$50,000, the Contractor shall make arrangements through the appropriate DHCS Program Contract Manager, to have all remaining equipment/property purchased through DHCS' Purchasing Unit. The cost of equipment/property purchased by or through DHCS shall be deducted from the funds available in this Agreement. Contractor shall submit to the DHCS Program Contract Manager a list of equipment/property specifications for those items that the State must procure. DHCS may pay the vendor directly for such arranged equipment/property purchases and title to the equipment/property will remain with DHCS. The equipment/property will be delivered to the Contractor's address, as stated on the face of the Agreement, unless the Contractor notifies the DHCS Program Contract Manager, in writing, of an alternate delivery address.

- (2) All equipment/property purchases are subject to Paragraphs d through h of Provision 3. Paragraph b of Provision 3 shall also apply, if equipment/property purchases are delegated to subcontractors that are either a government or public entity.
- (3) Nonprofit organizations and commercial businesses shall use a procurement system that meets the following standards:
  - (a) Maintain a code or standard of conduct that shall govern the performance of its officers, employees, or agents engaged in awarding procurement contracts. - e. In special circumstances, determined by DHCS (e.g., when DHCS has a need to monitor certain purchases, etc.), DHCS may require prior written authorization and/or the submission of paid vendor receipts for any purchase, regardless of dollar amount. DHCS reserves the right to either deny claims for reimbursement or to request repayment for any Contractor and/or subcontractor purchase that DHCS determines to be unnecessary in carrying out performance under this Agreement.
- f. The Contractor and/or subcontractor must maintain a copy or narrative description of the procurement system, guidelines, rules, or regulations that will be used to make purchases under this Agreement. The State reserves the right to request a copy of these documents and to inspect the purchasing practices of the Contractor and/or subcontractor at any time.

Unless otherwise stipulated in this Agreement, all equipment and/or property that is purchased/reimbursed with agreement funds or furnished by DHCS under the terms of this Agreement shall be considered state equipment and the property of DHCS.

- (1) **Reporting of Equipment/Property Receipt** - DHCS requires the reporting, tagging and annual inventorying of all equipment and/or property that is furnished by DHCS or purchased/reimbursed with funds provided through this Agreement.

Upon receipt of equipment and/or property, the Contractor shall report the receipt to the DHCS Program Contract Manager. To report the receipt of said items and to receive property tags, Contractor shall use a form or format designated by DHCS' Asset Management Unit. **f. Warranties**

- (1) Contractor represents and warrants that:
  - (a) It is free to enter into and fully perform this Agreement.

- (1) Contractor shall indemnify, defend and hold harmless DHCS and its licensees and assignees, and its officers, directors, employees, agents, representatives, successors, and users of its products, ("Indemnitees") from and against all claims, actions, damages, losses, liabilities (or actions or proceedings with respect to any thereof), whether or not rightful, arising from any and all actions or claims by any third party or expenses related thereto (including, but not limited to, all legal expenses, court costs, and attorney's fees incurred in investigating, preparing, serving as a witness in, or defending against, any such claim, action, or proceeding, commenced or threatened) to which any of the Indemnitees may be subject, whether or not Contractor is a party to any pending or threatened litigation, which arise out of or are related to (i) the incorrectness or breach of any of the representations, warranties, covenants or agreements of Contractor pertaining to Intellectual Property; or (ii) any Intellectual Property infringement, or any other type of actual or alleged infringement claim, arising out of DHCS' use, reproduction, manufacture, sale, offer to sell, distribution, import, export, modification, public and private performance/display, license, and disposition of the Intellectual Property made, conceived, derived from, or reduced to practice by Contractor or DHCS and which result directly or indirectly from this Agreement. This indemnity obligation shall apply irrespective of whether the infringement claim is based on a patent, trademark or copyright registration that issued after the effective date of this Agreement. DHCS reserves the right to participate in and/or control, at Contractor's expense, any such infringement action brought against DHCS.
- (2) Should any Intellectual Property licensed by the Contractor to DHCS under this Agreement become the subject of an Intellectual Property infringement claim, Contractor will exercise its authority reasonably and in good faith to preserve DHCS' right to use the licensed Intellectual Property in accordance with this Agreement at no expense to DHCS. DHCS shall have the right to monitor and appear through its own counsel (at Contractor's expense) in any such claim or action. In the defense or settlement of the claim, Contractor may obtain the right for DHCS to continue using the licensed Intellectual Property; or, replace or modify the licensed Intellectual Property so that the replaced or modified Intellectual Property becomes non-infringing provided that such replacement or modification is functionally equivalent to the original licensed Intellectual Property. If such remedies are not reasonably available, DHCS shall be entitled to a refund of all monies paid under this Agreement, without restriction or limitation of any other rights and remedies available at law or in equity.
- (3) Contractor agrees that damages alone would be inadequate to compensate DHCS for breach of any term of this Intellectual Property Exhibit by Contractor. Contractor acknowledges DHCS would suffer irreparable harm in the event of such breach and agrees DHCS shall be entitled to obtain equitable relief, including without limitation an injunction, from a court of competent jurisdiction, without restriction or limitation of any other rights and remedies available at law or in equity.

The Branch Chief shall render a decision within ten (10) working days after receipt of the written grievance from the Contractor. The Branch Chief shall respond in writing to the Contractor indicating the decision and reasons therefore. If the Contractor disagrees with the Branch Chief's decision, the Contractor may appeal to the second level.
  - (2) When appealing to the second level, the Contractor must prepare an appeal indicating the reasons for disagreement with Branch Chief's decision. The Contractor shall include with the appeal a copy of the Contractor's original statement of dispute along with any supporting evidence and a copy of the Branch Chief's decision. The appeal shall be addressed to the Deputy Director of the division in which the branch is organized within ten (10) working days from receipt of the Branch Chief's decision. The Deputy Director of the division in which the branch is organized or his/her designee shall meet with the Contractor to review the issues raised. A written decision signed by the Deputy Director of the division in which the branch is organized or his/her designee shall be directed to the Contractor within twenty (20) working days of receipt of the Contractor's second level appeal.
- b. If the Contractor wishes to appeal the decision of the Deputy Director of the division in which the branch is organized or his/her designee, the Contractor shall follow the procedures set forth in Health and Safety Code Section 100171.
- c. Unless otherwise stipulated in writing by DHCS, all dispute, grievance and/or appeal correspondence shall be directed to the DHCS Program Contract Manager.
- d. There are organizational differences within DHCS' funding programs and the management levels identified in this dispute resolution provision may not apply in every contractual situation. When a grievance is received and organizational differences exist, the Contractor shall be notified in writing by the DHCS Program Contract Manager of the level, name, and/or title of the appropriate management official that is responsible for issuing a decision at a given level.

## 16. Financial and Compliance Audit Requirements

- a. The definitions used in this provision are contained in Section 38040 of the Health and Safety Code, which by this reference is made a part hereof.
- b. Direct service contract means a contract or agreement for services contained in local assistance or subvention programs or both (see Health and Safety [H&S] Code Section 38020). Direct service contracts shall not include contracts, agreements, grants, or subventions to other governmental agencies or units of government nor contracts or agreements with regional centers or area agencies on aging (H&S Code Section 38030).
- c. The Contractor, as indicated below, agrees to obtain one of the following audits:
  - (1) ***If the Contractor is a nonprofit organization (as defined in H&S Code Section 38040) and receives \$25,000 or more from any State agency under a direct service contract or agreement;*** the Contractor agrees to obtain an annual single, organization wide, financial and compliance audit. Said audit shall be conducted according to Generally Accepted Auditing Standards. This audit does not fulfill the audit requirements of Paragraph c(3) below. The audit shall be completed by the 15th day of the fifth month following the end of the Contractor's fiscal year, **and/or**

# EXHIBIT 1

- (2) If the Contractor is a nonprofit organization (as defined in H&S Code Section 38040) and receives less than \$25,000 per year from any State agency under a direct service contract or agreement, the Contractor agrees to obtain a biennial single, organization wide financial and compliance audit, unless there is evidence of fraud or other violation of state law in connection with this Agreement. This audit does not fulfill the audit requirements of Paragraph c(3) below. The audit shall be completed by the 15th day of the fifth month following the end of the Contractor's fiscal year, **and/or**
- (3) If the Contractor is a State or Local Government entity or Nonprofit organization (as defined by the Federal Office of Management and Budget [OMB] Circular A-133) and expends \$750,000 or more in Federal awards, the Contractor agrees to obtain an annual single, organization wide, financial and compliance audit according to the requirements specified in OMB Circular A-133 entitled "Audits of States, Local Governments, and Non-Profit Organizations". An audit conducted pursuant to this provision will fulfill the audit requirements outlined in Paragraphs c(1) and c(2) above. The audit shall be completed by the end of the ninth month following the end of the audit period. The requirements of this provision apply if:
- (a) The Contractor is a recipient expending Federal awards received directly from Federal awarding agencies, or
  - (b) The Contractor is a subrecipient expending Federal awards received from a pass-through entity such as the State, County or community based organization.
- (4) If the Contractor submits to DHCS a report of an audit other than an OMB A-133 audit, the Contractor must also submit a certification indicating the Contractor has not expended \$500,000 or more in federal funds for the year covered by the audit report.
- d. Two copies of the audit report shall be delivered to the DHCS program funding this Agreement. The audit report must identify the Contractor's legal name and the number assigned to this Agreement. The audit report shall be due within 30 days after the completion of the audit. Upon receipt of said audit report, the DHCS Program Contract Manager shall forward the audit report to DHCS' Audits and Investigations Unit if the audit report was submitted under Section 16.c(3), unless the audit report is from a City, County, or Special District within the State of California whereby the report will be retained by the funding program.
  - e. The cost of the audits described herein may be included in the funding for this Agreement up to the proportionate amount this Agreement represents of the Contractor's total revenue. The DHCS program funding this Agreement must provide advance written approval of the specific amount allowed for said audit expenses.
  - f. The State or its authorized designee, including the Bureau of State Audits, is responsible for conducting agreement performance audits which are not financial and compliance audits. Performance audits are defined by Generally Accepted Government Auditing Standards.
  - g. Nothing in this Agreement limits the State's responsibility or authority to enforce State law or regulations, procedures, or reporting requirements arising thereto.
  - h. Nothing in this provision limits the authority of the State to make audits of this Agreement, provided however, that if independent audits arranged for by the Contractor meet Generally Accepted Governmental Auditing Standards, the State shall rely on those audits and any additional audit work and shall build upon the work already done.
  - i. The State may, at its option, direct its own auditors to perform either of the audits described above. The Contractor will be given advance written notification, if the State chooses to exercise its option to perform said audits.
  - j. The Contractor shall include a clause in any agreement the Contractor enters into with the audit firm doing the single organization wide audit to provide access by the State or Federal Government to the working papers of the independent auditor who prepares the single organization wide audit for the Contractor.

# EXHIBIT 1

- k. Federal or state auditors shall have "expanded scope auditing" authority to conduct specific program audits during the same period in which a single organization wide audit is being performed, but the audit report has not been issued. The federal or state auditors shall review and have access to the current audit work being conducted and will not apply any testing or review procedures which have not been satisfied by previous audit work that has been completed.

The term "expanded scope auditing" is applied and defined in the U.S. General Accounting Office (GAO) issued Standards for *Audit of Government Organizations, Programs, Activities and Functions*, better known as the "yellow book".

Section 263a (CLIA) and the regulations thereunder.

## 18. Novation Requirements

If the Contractor proposes any novation agreement, DHCS shall act upon the proposal within 60 days after receipt of the written proposal. DHCS may review and consider the proposal, consult and negotiate with the Contractor, and accept or reject all or part of the proposal. Acceptance or rejection of the proposal may be made orally within the 60-day period and confirmed in writing within five days of said decision. Upon written acceptance of the proposal, DHCS will initiate an amendment to this Agreement to formally implement the approved proposal.

## 19. Debarment and Suspension Certification

  - (7) Will include a clause entitled, "Debarment and Suspension Certification" that essentially sets forth the provisions herein, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
- c. If the Contractor is unable to certify to any of the statements in this certification, the Contractor shall submit an explanation to the DHCS Program Contract Manager.
  - d. The terms and definitions herein have the meanings set out in 2 CFR Part 180 as supplemented by 2 CFR Part 376.
  - e. If the Contractor knowingly violates this certification, in addition to other remedies available to the Federal Government, the DHCS may terminate this Agreement for cause or default.

## 20. Smoke-Free Workplace Certification

(Applicable to federally funded agreements/grants and subcontracts/subawards, that provide health, day care, early childhood development services, education or library services to children under 18 directly or through local governments.)

- a. Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, early childhood development services, education or library services to children under the age of 18, if the services are funded by federal programs either directly or through state or local governments, by federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such federal funds. The law does not apply to children's services provided in private residences; portions of facilities used for inpatient drug or alcohol treatment; service providers whose sole source of applicable federal funds is Medicare or Medicaid; or facilities where WIC coupons are redeemed.
- b. Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible party.
- c. By signing this Agreement, Contractor or Grantee certifies that it will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act. The prohibitions herein are effective December 26, 1994.
- d. Contractor or Grantee further agrees that it will insert this certification into any subawards (subcontracts or subgrants) entered into that provide for children's services as described in the Act.

## 21. Covenant Against Contingent Fees

(Applicable only to federally funded agreements.)

The Contractor warrants that no person or selling agency has been employed or retained to solicit/secure this Agreement upon an agreement of understanding for a commission, percentage, brokerage, or contingent fee, except *bona fide* employees or *bona fide* established commercial or selling agencies retained by the Contractor for the purpose of securing business. For breach or violation of this warranty, DHCS shall have the right to annul this Agreement without liability or in its discretion to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such commission, percentage, and brokerage or contingent fee.

Unless waived or otherwise stipulated in this Agreement, DHCS may, at its discretion, withhold 10 percent (10%) of the face amount of the Agreement, 50 percent (50%) of the final invoice, or \$3,000 whichever is greater, until DHCS receives a final report that meets the terms, conditions and/or scope of work requirements of this Agreement.

## 23. Performance Evaluation

(Not applicable to grant agreements.)

DHCS may, at its discretion, evaluate the performance of the Contractor at the conclusion of this Agreement. If performance is evaluated, the evaluation shall not be a public record and shall remain on file with DHCS. Negative performance evaluations may be considered by DHCS prior to making future contract awards.

## 24. Officials Not to Benefit

No members of or delegate of Congress or the State Legislature shall be admitted to any share or part of this Agreement, or to any benefit that may arise therefrom. This provision shall not be construed to extend to this Agreement if made with a corporation for its general benefits.

## 25. Four-Digit Date Compliance

(Applicable to agreements in which Information Technology (IT) services are provided to DHCS or if IT equipment is procured.)

Contractor warrants that it will provide only Four-Digit Date Compliant (as defined below) Deliverables and/or services to the State. "Four Digit Date compliant" Deliverables and services can accurately process, calculate, compare, and sequence date data, including without limitation date data arising out of or relating to leap years and changes in centuries. This warranty and representation is subject to the warranty terms and conditions of this Contract and does not limit the generality of warranty obligations set forth elsewhere herein.

## 26. Prohibited Use of State Funds for Software

(Applicable to agreements in which computer software is used in performance of the work.)

Contractor certifies that it has appropriate systems and controls in place to ensure that state funds will not be used in the performance of this Agreement for the acquisition, operation or maintenance of computer software in violation of copyright laws.

## 27. Use of Small, Minority Owned and Women's Businesses

(Applicable to that portion of an agreement that is federally funded and entered into with institutions of higher education, hospitals, nonprofit organizations or commercial businesses.)

Positive efforts shall be made to use small businesses, minority-owned firms and women's business enterprises, whenever possible (i.e., procurement of goods and/or services). Contractors shall take all of the following steps to further this goal.

- (1) Ensure that small businesses, minority-owned firms, and women's business enterprises are used to the fullest extent practicable.
- (2) Make information on forthcoming purchasing and contracting opportunities available and arrange time frames for purchases and contracts to encourage and facilitate participation by small businesses, minority-owned firms, and women's business enterprises.

# EXHIBIT 1

- (3) Consider in the contract process whether firms competing for larger contracts intend to subcontract with small businesses, minority-owned firms, and women's business enterprises.
- (4) Encourage contracting with consortiums of small businesses, minority-owned firms and women's business enterprises when a contract is too large for one of these firms to handle individually.
- (5) Use the services and assistance, as appropriate, of such organizations as the Federal Small Business Administration and the U.S. Department of Commerce's Minority Business Development Agency in the solicitation and utilization of small businesses, minority-owned firms and women's business enterprises.

## 28. Alien Ineligibility Certification

(Applicable to sole proprietors entering federally funded agreements.)

By signing this Agreement, the Contractor certifies that he/she is not an alien that is ineligible for state and local benefits, as defined in Subtitle B of the Personal Responsibility and Work Opportunity Act. (8 U.S.C. 1601, et seq.)

## 29. Union Organizing

(Applicable only to grant agreements.)

Grantee, by signing this Agreement, hereby acknowledges the applicability of Government Code Sections 16645 through 16649 to this Agreement. Furthermore, Grantee, by signing this Agreement, hereby certifies that:

- a. No state funds disbursed by this grant will be used to assist, promote or deter union organizing.
- b. Grantee shall account for state funds disbursed for a specific expenditure by this grant, to show those funds were allocated to that expenditure.
- c. Grantee shall, where state funds are not designated as described in b herein, allocate, on a pro-rata basis, all disbursements that support the grant program.
- d. If Grantee makes expenditures to assist, promote or deter union organizing, Grantee will maintain records sufficient to show that no state funds were used for those expenditures, and that Grantee shall provide those records to the Attorney General upon request.

## 30. Contract Uniformity (Fringe Benefit Allowability)

(Applicable only to nonprofit organizations.)

Pursuant to the provisions of Article 7 (commencing with Section 100525) of Chapter 3 of Part 1 of Division 101 of the Health and Safety Code, DHCS sets forth the following policies, procedures, and guidelines regarding the reimbursement of fringe benefits.

- a. As used herein fringe benefits shall mean an employment benefit given by one's employer to an employee in addition to one's regular or normal wages or salary.
- b. As used herein, fringe benefits do not include:
  - (1) Compensation for personal services paid currently or accrued by the Contractor for services of employees rendered during the term of this Agreement, which is identified as regular or normal salaries and wages, annual leave, vacation, sick leave, holidays, jury duty and/or military leave/training.
  - (2) Director's and executive committee member's fees.
  - (3) Incentive awards and/or bonus incentive pay.
  - (4) Allowances for off-site pay.
  - (5) Location allowances.
  - (6) Hardship pay.

Page 20 of 26

# EXHIBIT 1

(7) Cost-of-living differentials

c. Specific allowable fringe benefits include:

- (1) Fringe benefits in the form of employer contributions for the employer's portion of payroll taxes (i.e., FICA, SUI, SDI), employee health plans (i.e., health, dental and vision), unemployment insurance, worker's compensation insurance, and the employer's share of pension/retirement plans, provided they are granted in accordance with established written organization policies and meet all legal and Internal Revenue Service requirements.

d. To be an allowable fringe benefit, the cost must meet the following criteria:

- (1) Be necessary and reasonable for the performance of the Agreement.
- (2) Be determined in accordance with generally accepted accounting principles.
- (3) Be consistent with policies that apply uniformly to all activities of the Contractor.

e. Contractor agrees that all fringe benefits shall be at actual cost.

f. Earned/Accrued Compensation

- (1) Compensation for vacation, sick leave and holidays is limited to that amount earned/accrued within the agreement term. Unused vacation, sick leave and holidays earned from periods prior to the agreement term cannot be claimed as allowable costs. See Provision f (3)(a) for an example.
- (2) For multiple year agreements, vacation and sick leave compensation, which is earned/accrued but not paid, due to employee(s) not taking time off may be carried over and claimed within the overall term of the multiple years of the Agreement. Holidays cannot be carried over from one agreement year to the next. See Provision f (3)(b) for an example.
- (3) For single year agreements, vacation, sick leave and holiday compensation that is earned/accrued but not paid, due to employee(s) not taking time off within the term of the Agreement, cannot be claimed as an allowable cost. See Provision f (3)(c) for an example.

(a) **Example No. 1:**

If an employee, John Doe, earns/accrues three weeks of vacation and twelve days of sick leave each year, then that is the maximum amount that may be claimed during a one year agreement. If John Doe has five weeks of vacation and eighteen days of sick leave at the beginning of an agreement, the Contractor during a one-year budget period may only claim up to three weeks of vacation and twelve days of sick leave as actually used by the employee. Amounts earned/accrued in periods prior to the beginning of the Agreement are not an allowable cost.

(b) **Example No. 2:**

If during a three-year (multiple year) agreement, John Doe does not use his three weeks of vacation in year one, or his three weeks in year two, but he does actually use nine weeks in year three; the Contractor would be allowed to claim all nine weeks paid for in year three. The total compensation over the three-year period cannot exceed 156 weeks (3 x 52 weeks).

(c) **Example No. 3:**

If during a single year agreement, John Doe works fifty weeks and used one week of vacation and one week of sick leave and all fifty-two weeks have been billed to DHCS, the remaining unused two weeks of vacation and seven days of sick leave may not be claimed as an allowable cost.

**31. Suspension or Stop Work Notification**

- a. DHCS may, at any time, issue a notice to suspend performance or stop work under this Agreement. The initial notification may be a verbal or written directive issued by the funding Program's Contract

# EXHIBIT 1

Department of Health Care Services - Special Terms and Conditions

Manager. Upon receipt of said notice, the Contractor is to suspend and/or stop all, or any part, of the work called for by this Agreement.

- b. Written confirmation of the suspension or stop work notification with directions as to what work (if not all) is to be suspended and how to proceed will be provided within 30 working days of the verbal notification. The suspension or stop work notification shall remain in effect until further written notice is received from DHCS. The resumption of work (in whole or part) will be at DHCS' discretion and upon receipt of written confirmation.
  - (1) Upon receipt of a suspension or stop work notification, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize or halt the incurrence of costs allocable to the performance covered by the notification during the period of work suspension or stoppage.
  - (2) Within 90 days of the issuance of a suspension or stop work notification, DHCS shall either:
    - (a) Cancel, extend, or modify the suspension or stop work notification; or
    - (b) Terminate the Agreement as provided for in the Cancellation / Termination clause of the Agreement.
- c. If a suspension or stop work notification issued under this clause is canceled or the period of suspension or any extension thereof is modified or expires, the Contractor may resume work only upon written concurrence of funding Program's Contract Manager.
- d. If the suspension or stop work notification is cancelled and the Agreement resumes, changes to the services, deliverables, performance dates, and/or contract terms resulting from the suspension or stop work notification shall require an amendment to the Agreement.
- e. If a suspension or stop work notification is not canceled and the Agreement is cancelled or terminated pursuant to the provision entitled Cancellation / Termination, DHCS shall allow reasonable costs resulting from the suspension or stop work notification in arriving at the settlement costs.
- f. DHCS shall not be liable to the Contractor for loss of profits because of any suspension or stop work notification issued under this clause.

## 32. Public Communications

Electronic and printed documents developed and produced, for public communications shall follow the following requirements to comply with Section 508 of the Rehabilitation Act and the American with Disabilities Act:

A Contractor with a suspected conflict of interest will have five (5) working days from the date of notification of the conflict by DHCS to provide complete information regarding the suspected conflict. Upon either party's request, the other party agrees to promptly enter into negotiations concerning an amendment to this Exhibit F embodying written assurances consistent with the standards and requirements of HIPAA, the HITECH Act, and the HIPAA regulations, and other applicable state and Federal laws. - 6) **No Third-Party Beneficiaries.** Nothing expressed or implied in the terms and conditions of this Exhibit F is intended to confer, nor shall anything herein confer, upon any person other than the Department or Contractor and their respective successors or assignees, any rights, remedies, obligations or liabilities whatsoever.

Contractor shall promptly remedy any violation of any provision of this Exhibit F. The fact that the Department inspects, or fails to inspect, or has the right to inspect, Contractor's facilities, systems and procedures does not relieve Contractor of its responsibility to comply with this Exhibit F. The Department's failure to detect a non-compliant practice, or a failure to report a detected non-compliant practice to Contractor does not constitute acceptance of such practice or a waiver of the Department's enforcement rights under this Agreement, including this Exhibit F.

DHCS will approve or reject the CAP or request revisions to the CAP, which shall be resubmitted to the DHCS within 30 days.

### **Part I – General Fiscal Provisions**

#### **Section 1 – General Fiscal Provisions**

##### A. Fiscal Provisions

For services satisfactorily rendered, and upon receipt and approval of documentation as identified in Exhibit A, Attachment I, Part III, the Department of Health Care Services (DHCS) agrees to compensate the Contractor for actual expenditures incurred in accordance with the rates and/or allowable costs specified herein.

##### B. Funding Authorization

Contractor shall bear the financial risk in providing any substance use disorder services covered by this Contract.

##### C. Availability of Funds

It is understood that, for the mutual benefit of both parties, this Contract may have been written before ascertaining the availability of congressional appropriation of funds in order to avoid program and fiscal delays that would occur if this Contract were not executed until after that determination. If so, DHCS may amend the amount of funding provided for in this Contract based on the actual congressional appropriation.

##### D. Budget Contingency Clause

It is mutually agreed that if the Budget Act of the current year and/or any subsequent years covered under this Contract does not appropriate sufficient funds for the program, this Contract shall be of no further force and effect. In this event, DHCS shall have no liability to pay any funds whatsoever to Contractor or to furnish any other considerations under this Contract and Contractor shall not be obligated to perform any provisions of this Contract.

If the funding for any fiscal year is reduced or deleted by the Budget Act for purposes of this program, DHCS shall solely have the option to either cancel this Contract with no liability occurring to DHCS, or offer an amended agreement to Contractor to reflect the reduced amount.

##### E. Expense Allowability / Fiscal Documentation

1. Invoices, received from a Contractor and accepted and/or submitted for payment by DHCS, shall not be deemed evidence of allowable agreement costs.
2. Contractor shall maintain for review, audit, and supply to DHCS upon request, adequate documentation of all expenses claimed pursuant to this Contract to permit a determination of expense allowability.
3. If the allowability or appropriateness of an expense cannot be determined by DHCS because invoice detail, fiscal records, or backup documentation is nonexistent or inadequate according to generally accepted accounting principles, and generally accepted governmental audit standards, all questionable costs may be disallowed and payment may

## EXHIBIT 2

be withheld by DHCS. Upon receipt of adequate documentation supporting a disallowed or questionable expense, reimbursement may resume for the amount substantiated and deemed allowable.

4. Costs and/or expenses deemed unallowable shall not be reimbursed or, if mistakenly reimbursed, those costs and/or expenses shall be subject to recovery by DHCS pursuant to HSC Code 11817.8(e).

### F. Maintenance of Effort for the Substance Abuse Prevention and Treatment Block Grant

1. Notwithstanding any other provision in this Contract, the Director of DHCS may reduce federal funding allocations, on a dollar-for-dollar basis, to a county that has a reduced or anticipates reduced expenditures in a way that would result in a decrease in California's receipt of Federal Substance Abuse Prevention and Treatment Block Grant (SABG) funds (42 United States Code (U.S.C.) Sect 300x-30).
2. Prior to making any reductions pursuant to this subdivision, the Director shall notify all counties that county underspending will reduce the Federal SABG Maintenance Of Effort (MOE). Upon receipt of notification, a county may submit a revision to the county budget initially submitted pursuant to HSC Section 11798 subdivision(a) in an effort to maintain the statewide SABG MOE.
3. Pursuant to HSC Section 11814(d)(3), a county shall notify DHCS in writing of proposed local changes to the county's expenditure of funds. DHCS shall review and may approve the proposed local changes depending on the level of expenditures needed to maintain DHCS wide SABG MOE.

### G. SABG Primary Prevention Services Expenditure Requirement

Pursuant to Title 42, U.S.C. Section 300x-22(a), the Contractor shall expend a minimum of 20 percent of SABG funds for primary prevention services. The Contractor shall expend primary prevention funds for strategies, programs and services directed at individuals who have not been determined to require treatment for a substance use disorder. These programs shall educate and counsel individuals on substance abuse and provide for activities to reduce the risk of such abuse by the individuals. The Contractor shall give priority to programs for populations that are at risk of developing a pattern of substance abuse and ensure that those programs develop community-based prevention strategies.

### H. SABG Women Services Expenditure Requirement

Pursuant to Title 42, U.S.C. 5 Section 300x-22(b) and 45 Code of Federal Regulations (CFR) 96.124(c), for each state fiscal year (SFY) the Contractor shall expend an amount of SABG funds not less than the amount expended by the Contractor in fiscal year 1994 on perinatal services, pregnant women, and women with dependent children. The Contractor shall expend that percentage either by establishing new programs or expanding the capacity of existing programs in the manner described in Exhibit G of the annual SABG allocation, "County Share of SABG Women Services Expenditure Requirements" (found at [http://www.dhcs.ca.gov/formsandpubs/Documents/Info%20Notice%202015/11-Exhibit\\_G.pdf](http://www.dhcs.ca.gov/formsandpubs/Documents/Info%20Notice%202015/11-Exhibit_G.pdf)).

## EXHIBIT 2

### **Section 2 – General Fiscal Provisions – SABG**

#### A. Revenue Collection

Contractor shall conform to revenue collection requirements in HSC Sections 11841, by raising revenues in addition to the funds allocated by DHCS. These revenues include, but are not limited to, fees for services, private contributions, grants, or other governmental funds. These revenues shall be used in support of additional alcohol and other drug services or facilities. Each alcohol and drug program shall set and collect client fees based on the client's ability to pay. The fee requirement shall not apply to prevention and early intervention services. Contractor shall identify in its annual cost report the types and amounts of revenues collected.

#### B. Cost Efficiencies

It is intended that the cost to the Contractor in maintaining the dedicated capacity and units of service shall be met by the SABG funds allocated to the Contractor and other Contractor or subcontractor revenues. Amounts awarded pursuant to Exhibit A, Attachment I, Part I, shall not be used for services where payment has been made, or can reasonably be expected to be made under any other state or federal compensation or benefits program, or where services can be paid for from revenues.

## EXHIBIT 2

### **Part II – Reimbursements**

#### **Section 1 - General Reimbursement**

##### A. Prompt Payment Clause

Payment will be made in accordance with, and within the time specified in, Government Code Chapter 4.5, commencing with Section 927.

##### B. Amounts Payable

1. The amount payable under this Contract shall not exceed the amount identified on the State of California Standard Agreement form STD 213 DHCS.
2. Reimbursement shall be made for allowable expenses up to the amount annually encumbered commensurate with the state fiscal year in which services are performed and/or goods are received.
3. The funds identified for the fiscal years covered by this Section, within this Exhibit, are subject to change depending on the availability and amount of funds appropriated by the Legislature and the Federal Government. The amount of funds available for expenditure by the Contractor shall be limited to the amount identified in the final allocations issued by DHCS for that fiscal year or the SABG amount, whichever is less. Changes to allocated funds will require a written amendment to the Contract.
4. For each fiscal year, DHCS may settle costs for services based on the year-end cost settlement report. The year-end cost settlement shall be the final amendment for the state fiscal year.

#### **Section 2 - Substance Abuse Prevention and Treatment Block Grant (SABG)**

##### A. Amounts Payable for SABG

1. DHCS shall reimburse the Contractor monthly in arrears an amount equal to one-twelfth of the maximum amount allowed pursuant to Exhibit B of the Contract or the most recent allocation based on the Budget Act Allocation, whichever is less. Final allocations will reflect any increases or reductions in the appropriations as reflected in DHCS Budget Act allocation and any subsequent allocation revisions.
2. Quarterly Invoicing-Quarterly Federal Financial Management Report (QFFMR)
  - a) Chapter 8760 of the State Administrative Manual requires DHCS to establish control mechanisms to ensure that the Contractor does not spend beyond its allocation and that DHCS does not reimburse beyond the Contractor's allocation. The Contractor shall complete quarterly invoices as prescribed by DHCS that serve as expenditure reports during the fiscal year. The Contractor shall incur expenditures before receiving payment from its allocation. These expenditures are documented as totals in aggregate.

## EXHIBIT 2

Quarterly invoices are due:

- December 1-1<sup>st</sup> Quarter
- March 1-2<sup>nd</sup> Quarter
- June 1-3<sup>rd</sup> Quarter
- September 1-4<sup>th</sup> Quarter

These invoices serve as payment authorizations. Payment authorizations are analyzed by DHCS to ensure that costs are reasonable and do not exceed the Contractor's allocation. Inaccuracies in the report shall be resolved by the Contractor prior to receiving payment. These quarterly invoices serve as the Quarterly Federal Financial Management Report (QFFMR).

3. Monthly disbursements to the Contractor at the beginning of each fiscal year of the Contract shall be based on the preliminary allocation of funds, as detailed in Section 2 of this Exhibit.
4. Based on the expenditure information submitted by the counties in the QFFMR (Document 30), DHCS may adjust monthly payments of encumbered block grant federal funds to extend the length of time (not to exceed 21 months) over which payments of federal funds will be made.
5. Pursuant to 45 CFR Section 75.371 and HSC Section 11817.8, DHCS may withhold monthly SABG payments if the Contractor fails to:
  - a) Submit timely reports and data required by DHCS, including but not limited to, reports required pursuant to Exhibit A, Attachment I, Part III.
  - b) Submit a Contract amendment within 90 days from issuance from DHCS to the Contractor.
  - c) Submit monitoring reports and attest the completion of Corrective Action Plans (CAP) for services provided pursuant to this Contract.
  - d) Monitor its subcontractors annually pursuant to Exhibit A, Attachment I, Part I.
6. In the event DHCS withholds SABG payment, the Contractor's payment shall commence with the next scheduled monthly payment following DHCS' receipt and acceptance of complete and accurate reports, data, or executed Contract. The payment shall include any funds withheld pursuant to Section 2(A)(5).
7. Adjustments may be made to the total Contract amount and funds may be withheld from payments otherwise due to the Contractor hereunder, for nonperformance to the extent that nonperformance involves fraud, abuse, or failure to achieve the objectives of the provisions of Exhibit A, Attachment I, Part I.

### B. Payment Provisions

For each fiscal year, the total amount payable by DHCS to the Contractor for services provided under Exhibit A, Attachment I, Part I, shall not exceed the encumbered amount. The funds

## EXHIBIT 2

identified for the fiscal years covered by Exhibit A, Attachment I, Part I, are subject to change depending on the availability and amount of funds appropriated by the Legislature and the Federal Government. Changes to encumbered funds require a written amendment to the Contract. DHCS may settle costs for SABG services based on the year-end cost settlement report as the final amendment to the approved single state/county Contract.

- C. In the event of a Contract amendment, as required by the preceding paragraph, the Contactor shall submit to DHCS the information identified in Exhibit E, Section (1)(B). To the extent the Contractor is notified of the State Budget Act allocation prior to the execution of the Contract, DHCS and the Contractor may agree to amend the Contract after the issuance of the first Budget Act allocation.

D. Accrual of Interest

Any interest accrued from state-allocated funds and retained by the Contractor shall be used for the same purpose as DHCS allocated funds from which the interest was accrued.

E. Expenditure Period

SABG funds are allocated based upon the Federal Grant award period. These funds must be expended for activities authorized pursuant to 42 USC Sections 300x-21 through 300x-66, and Title 45 CFR 96.120 et seq., within the availability period of the grant award. Any SABG funds that have not been expended by the Contractor at the end of the expenditure period identified below shall be returned to DHCS for subsequent return to the Federal Government.

1. The expenditure period of the FFY 2015 award is October 1, 2015 through June 30, 2017.

2. Make cash payment to intended recipients of health services.
3. Purchase or improve land, purchase, construct or permanently improve (other than minor remodeling) any building or other facility or purchase major medical equipment.
4. Satisfy any requirement for the expenditure of SABG funds as a condition for the receipt of federal funds.
5. Provide financial assistance to any entity other than a public or nonprofit private entity.
6. Pay the salary of an individual through a grant or other extramural mechanism at a rate in excess of level I of the Executive Salary Schedule for the award year: see [http://grants.nih.gov/grants/policy/salcap\\_summary.htm](http://grants.nih.gov/grants/policy/salcap_summary.htm).

8. Supplant state funding of programs to prevent and treat substance abuse and related activities.

10. Exception regarding inpatient hospital services:
  - a) Medical necessity as precondition: With respect to compliance with the agreement made under this Exhibit, Part II, Section 2(I), a State may expend a grant under 42 USC 300x-21 to provide inpatient hospital services as treatment for substance abuse only if it has been determined, in accordance with guidelines issued by the Secretary, that such treatment is a medical necessity for the individual involved, and that the individual cannot be effectively treated in a community-based, nonhospital, residential program of treatment.
  - b) Rate of payment: In the case of an individual for whom a grant under section 300x-21 of this title is expended to provide inpatient hospital services described in paragraph (1), a funding agreement for the grant for the State involved is that the daily rate of payment provided to the hospital for providing the services to the individual will not exceed the comparable daily rate provided for community-based, non-hospital, residential programs of treatment for substance abuse.

## EXHIBIT 2

### 11. Waiver regarding construction of facilities:

- a) In general: The Secretary may provide to any State a waiver of the restriction established in 42 USC 300x-31, subsection (a)(1)(C), for the purpose of authorizing DHCS to expend a grant under section 42 USC 300x-21 for the construction of a new facility or rehabilitation of an existing facility, but not for land acquisition.
- b) Standard regarding need for waiver: The Secretary may approve a waiver under 42 USC 300x-31 (c), only if DHCS demonstrates to the Secretary that adequate treatment cannot be provided through the use of existing facilities and that alternative facilities in existing suitable buildings are not available.
- c) Amount: In granting a waiver under 42 USC 300x-31 (c), the Secretary shall allow the use of a specified amount of funds to construct or rehabilitate a specified number of beds for residential treatment and a specified number of slots for outpatient treatment, based on reasonable estimates by DHCS of the costs of construction or rehabilitation. In considering waiver applications, the Secretary shall ensure that DHCS has carefully designed a program that will minimize the costs of additional beds.
- d) Matching funds: The Secretary may grant a waiver under 42 USC 300x-31 (c), only if DHCS agrees, with respect to the costs to be incurred by DHCS in carrying out the purpose of the waiver, to make available non-federal contributions in cash toward such costs in an amount equal to not less than \$1 for each \$1 of federal funds provided under 42 USC 300x-21.
- e) Date certain for acting upon request: The Secretary shall act upon a request for a waiver under 42 USC 300x-31 (c), not later than 120 days after the date on which the request is made.

#### **Section 1 - General Fiscal Audit Requirements**

- A. In addition to the requirements identified below, the Contractor and its subcontractors are required to meet the audit requirements as delineated in Exhibit C, General Terms and Conditions, and Exhibit D(F), Special Terms and Conditions, of this Contract.
- B. All expenditures of county realignment funds, state and federal funds furnished to the Contractor and its subcontractors pursuant to this Contract are subject to audit by DHCS. Such audits shall consider and build upon external independent audits performed pursuant to audit requirements of 45 CFR, Part 75, Subpart F and/or any independent Contractor audits or reviews. Objectives of such audits may include, but are not limited to, the following:
  - 1. To determine whether units of service claimed/reported are properly documented by service records and accurately accumulated for claiming/reporting.
  - 2. To validate data reported by the Contractor for prospective contract negotiations.
  - 3. To provide technical assistance in addressing current year activities and providing recommendations on internal controls, accounting procedures, financial records, and compliance with laws and regulations.
  - 4. To determine the cost of services, net of related patient and participant fees, third party payments, and other related revenues and funds.
  - 5. To determine that expenditures are made in accordance with applicable state and federal laws and regulations and contract requirements.
  - 6. To determine the facts in relation to analysis of data, complaints, or allegations, which may be indicative of fraud, abuse, willful misrepresentation, or failure to achieve the Contract objectives.
- C. Unannounced visits to the Contractor and/or its subcontractors may be made at the discretion of DHCS.
- D. The refusal of the Contractor or its subcontractors to permit access to and inspection of electronic or print books and records, physical facilities, and/or refusal to permit interviews with employees, as described in this part constitutes an express and immediate material breach of this Contract and will be sufficient basis to terminate the Contract for cause or default.
- E. Reports of audits conducted by DHCS shall reflect all findings, recommendations, adjustments and corrective actions as a result of its finding in any areas.

#### **Section 2. SABG Financial Audits**

- A. Contractor shall monitor the activities of all of its subcontractors to ensure that the SABG funds are used for authorized purposes, in compliance with Federal statutes, regulations, and the terms and conditions of the grant and that performance goals are achieved.

## EXHIBIT 2

- B. Contractor may use a variety of monitoring mechanisms, including limited scope audits, on-site visits, progress reports, financial reports, and review of documentation support requests for reimbursement, to meet the Contractor's monitoring objectives. Contractor may charge federal awards for the cost of these monitoring procedures if permitted under 45 CFR 75.425.
- C. Contractor shall submit to DHCS a copy of the procedures and any other monitoring mechanism used to monitor non-profit Subcontracts at the time of the County's annual desk review or site visit or within 60 days thereafter. Contractor shall state the frequency that non-profit Subcontracts are monitored.
- D. On-site visits focus on compliance and controls over compliance areas. The DHCS County Monitoring Unit analyst shall make site visits to the subcontractor locations(s), and can use a variety of monitoring mechanisms to document compliance requirements. The Contractor shall follow-up on any findings and the corrective actions. 42 USC 300x-31 subsection (a)(1)(C)
  - 1. Contractor shall be responsible for any disallowance taken by the Federal Government, DHCS, or the California State Auditor, as a result of any audit exception that is related to the Contractor's responsibilities herein. Contractor shall not use funds administered by DHCS to repay one federal funding source with funds provided by another federal funding source, to repay federal funds with state funds, or to repay state funds with federal funds. DHCS shall invoice Contractor 60 days after issuing the final audit report or upon resolution of an audit appeal. Contractor agrees to develop and implement any CAP in a manner acceptable to DHCS in order to comply with recommendations contained in any audit report. Such CAP plans shall include time-specific objectives to allow for measurement of progress and are subject to verification by DHCS within one year from the date of the plan.
- E. Contractors that conduct financial audits of subcontractors, other than a subcontractor whose funding consists entirely of non-Department funds, shall develop a process to resolve disputed financial findings and notify subcontractors of their appeal rights pursuant to that process. If any fiscal adjustments remain after the Contractor and subcontractor have exhausted the internal appeals process, any SABG funds outstanding shall be returned to DHCS. This section shall not apply to those grievances or compliances arising from the financial findings of an audit or examination made by or on behalf of DHCS pursuant to Part III of this Exhibit.
- F. If the Contractor fails to comply with Federal statutes, regulations, or the terms and conditions of the grant, DHCS may impose additional conditions on the subaward, including:
  - 1. Requiring additional or more detailed financial reports.
  - 2. Requiring technical or management assistance.
  - 3. Establishing additional prior approvals.

  - a. Temporarily withhold cash payment pending correction of the deficiency by the Contractor.
  - b. Disallow all or part of the cost of the activity or action not in compliance.

## EXHIBIT 2

- c. Wholly or partly suspend the award activities or terminate the Contractor's subaward.

### **Part IV – Records**

#### **Section 1 - General Provisions**

##### A. Maintenance of Records

Contractor shall maintain sufficient books, records, documents, and other evidence necessary for DHCS to audit contract performance and contract compliance. Contractor shall make these records available to SAMHSA, Inspectors General, the Comptroller General, DHCS, or any of their authorized representatives upon request, to evaluate the quality and quantity of services, accessibility and appropriateness of services, and to ensure fiscal accountability. Regardless of the location or ownership of such records, they shall be sufficient to determine if costs incurred by Contractor are reasonable, allowable and allocated appropriately. All records must be capable of verification by qualified auditors.

1. Contractor and subcontractors shall include in any contract with an audit firm a clause to permit access by DHCS to the working papers of the external independent auditor, and require that copies of the working papers shall be made for DHCS at its request.
2. Contractor and subcontractors shall keep adequate and sufficient financial records and statistical data to support the year-end documents filed with DHCS. All records must be capable of verification by qualified auditors.
3. Accounting records and supporting documents shall be retained for a three-year period from the date the year-end cost settlement report was approved by DHCS for interim settlement. When an audit by the Federal Government, DHCS, or the California State Auditor has been started before the expiration of the three-year period, the records shall be retained until completion of the audit and final resolution of all issues that arise in the audit. Final settlement shall be made at the end of the audit and appeal process. If an audit has not been completed within three years, the interim settlement shall be considered as the final settlement.
4. Financial records shall be kept so that they clearly reflect the source of funding for each type of service for which reimbursement is claimed. These documents include, but are not limited to, all ledgers, books, vouchers, time sheets, payrolls, appointment schedules, client data cards, and schedules for allocating costs. All records must be capable of verification by qualified auditors.
5. Contractor's subcontracts shall require that all subcontractors comply with the requirements of Exhibit A, Attachment I, Part I, Section 3.
6. Should a subcontractor discontinue its contractual agreement with the Contractor, or cease to conduct business in its entirety, Contractor shall be responsible for retaining the subcontractor's fiscal and program records for the required retention period. The State Administrative Manual (SAM) contains statutory requirements governing the retention, storage, and disposal of records pertaining to state funds. Contractor shall follow SAM requirements located at <http://sam.dgs.ca.gov/TOC/1600.aspx>.
7. The Contractor shall retain all records in accordance with the time periods outlined in 45 CFR Section 75.361.

## EXHIBIT 2

8. In the expenditure of funds hereunder, and as required by 45 CFR Part 96, Contractor shall comply with the requirements of SAM and the laws and procedures applicable to the obligation and expenditure of federal and state funds.

### B. Dispute Resolution Process

1. In the event of a dispute under this Exhibit A, Attachment I, Part I, other than an audit dispute, Contractor shall provide written notice of the particulars of the dispute to DHCS before exercising any other available remedy. Written notice shall include the contract number. The Director (or designee) of DHCS and the County Drug or Alcohol Program Administrator (or designee) shall meet to discuss the means by which they can effect an equitable resolution to the dispute. Contractor shall receive a written response from DHCS within 60 days of the notice of dispute. The written response shall reflect the issues discussed at the meeting and state how the dispute will be resolved.
2. Contractors that conduct financial audits of subcontractors, other than a subcontractor whose funding consists entirely of non-Department funds, shall develop a process to resolve disputed financial findings and notify subcontractors of their appeal rights pursuant to that process. If any fiscal adjustments remain after the Contractor and subcontractor have exhausted the internal appeals process, any SABG funds outstanding must be returned to DHCS. This section shall not apply to those grievances or compliances arising from the financial findings of an audit or examination made by or on behalf of DHCS pursuant to Part III of this Exhibit.
3. To ensure that necessary corrective actions are taken, financial audit findings that are either uncontested or upheld after appeal may be used by DHCS during prospective contract negotiations.

4. AUDIT: Contractor agrees that the awarding department, the Department of General Services, the Bureau of State Audits, or their designated representative shall have the right to review and to copy any records and supporting documentation pertaining to the performance of this Agreement. Contractor agrees to allow the auditor(s) access to such records during normal business hours and to allow interviews of any employees who might reasonably have information related to such records. Further, Contractor agrees to include a similar right of the State to audit records and interview staff in any subcontract related to performance of this Agreement. (Gov. Code §8546.7, Pub. Contract Code §10115 et seq., CCR Title 2, Section 1896).

6. DISPUTES: Contractor shall continue with the responsibilities under this Agreement during any dispute.
7. TERMINATION FOR CAUSE: The State may terminate this Agreement and be relieved of any payments should the Contractor fail to perform the requirements of this Agreement at the time and in the manner herein provided. In the event of such termination the State may proceed with the work in any manner deemed proper by the State. All costs to the State shall be deducted from any sum due the Contractor under this Agreement and the balance, if any, shall be paid to the Contractor upon demand.

## EXHIBIT 2

Contractor shall insure that the evaluation and treatment of employees and applicants for employment are free of such discrimination. The Contractor will take affirmative action to ensure that qualified applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, national origin, physical or mental handicap, disability, age or status as a disabled veteran or veteran of the Vietnam era. Such notices shall state the Contractor's obligation under the law to take affirmative action to employ and advance in employment qualified applicants without discrimination based on their race, color, religion, sex, national origin physical or mental handicap, disability, age or status as a disabled veteran or veteran of the Vietnam era and the rights of applicants and employees.
- b. The Contractor will, in all solicitations or advancements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin physical or mental handicap, disability, age or status as a disabled veteran or veteran of the Vietnam era.
- c. The Contractor will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding a notice, to be provided by the Federal Government or the State, advising the labor union or workers' representative of the Contractor's commitments under the provisions herein and shall post copies of the notice in conspicuous places available to employees and applicants for employment.
- d. The Contractor will comply with all provisions of and furnish all information and reports required by Section 503 of the Rehabilitation Act of 1973, as amended, the Vietnam Era Veterans' Readjustment Assistance Act of 1974 (38 U.S.C. 4212) and of the Federal Executive Order No. 11246 as amended, including by Executive Order 11375, 'Amending Executive Order 11246 Relating to Equal Employment Opportunity,' and as supplemented by regulation at 41 CFR part 60, "Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," and of the rules, regulations, and relevant orders of the Secretary of Labor.
- e. The Contractor will furnish all information and reports required by Federal Executive Order No. 11246 as amended, including by Executive Order 11375, 'Amending Executive Order 11246 Relating to Equal Employment Opportunity,' and as supplemented by regulation at 41 CFR part 60, "Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," and the Rehabilitation Act of 1973, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to its books, records, and accounts by the State and its designated representatives and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.
- f. In the event of the Contractor's noncompliance with the requirements of the provisions herein or with any federal rules, regulations, or orders which are referenced herein, this Agreement may be cancelled, terminated, or suspended in whole or in part and the Contractor may be declared ineligible for further federal and state contracts in accordance with procedures authorized in Federal Executive Order No. 11246 as amended and such other sanctions may be imposed and remedies invoked as provided in Federal Executive Order No. 11246 as amended, including by Executive Order 11375, 'Amending Executive Order 11246 Relating to Equal Employment Opportunity,' and as supplemented by regulation at 41 CFR part 60, "Office of the Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor," or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

Reimbursement for travel and per diem expenses from DHCS under this Agreement shall, unless otherwise specified in this Agreement, be at the rates currently in effect, as established by the California Department of Human Resources (CalHR), for nonrepresented state employees as stipulated in DHCS' Travel Reimbursement Information Exhibit. If the CalHR rates change during the term of the Agreement, the new rates shall apply upon their effective date and no amendment to this Agreement shall be necessary. Exceptions to CalHR rates may be approved by DHCS upon the submission of a statement by the Contractor indicating that such rates are not available to the Contractor. No travel outside the State of California shall be reimbursed without prior authorization from DHCS. Verbal authorization should be confirmed in writing. Written authorization may be in a form including fax or email confirmation.

### 3. Procurement Rules

(Applicable to agreements in which equipment/property, commodities and/or supplies are furnished by DHCS or expenses for said items are reimbursed by DHCS with state or federal funds provided under the Agreement.)

#### a. Equipment/Property definitions

Wherever the term equipment and/or property is used, the following definitions shall apply:

- (1) **Major equipment/property:** A tangible or intangible item having a base unit cost of **\$5,000 or more** with a life expectancy of one (1) year or more and is either furnished by DHCS or the cost is reimbursed through this Agreement. Software and videos are examples of intangible items that meet this definition.
  - (2) **Minor equipment/property:** A tangible item having a base unit cost of **less than \$5,000** with a life expectancy of one (1) year or more and is either furnished by DHCS or the cost is reimbursed through this Agreement.
- b. **Government and public entities** (including state colleges/universities and auxiliary organizations), whether acting as a contractor and/or subcontractor, may secure all commodities, supplies, equipment and services related to such purchases that are required in performance of this Agreement. Said procurements are subject to Paragraphs d through h of Provision 3. Paragraph c of Provision 3 shall also apply, if equipment/property purchases are delegated to subcontractors that are nonprofit organizations or commercial businesses.
- c. **Nonprofit organizations and commercial businesses**, whether acting as a contractor and/or subcontractor, may secure commodities, supplies, equipment/property and services related to such purchases for performance under this Agreement.
- (1) Equipment/property purchases shall not exceed \$50,000 annually.

To secure equipment/property above the annual maximum limit of \$50,000, the Contractor shall make arrangements through the appropriate DHCS Program Contract Manager, to have all remaining

equipment/property purchased through DHCS' Purchasing Unit. The cost of equipment/property purchased by or through DHCS shall be deducted from the funds available in this Agreement. Contractor shall submit to the DHCS Program Contract Manager a list of equipment/property specifications for those items that the State must procure. DHCS may pay the vendor directly for such arranged equipment/property purchases and title to the equipment/property will remain with DHCS. The equipment/property will be delivered to the Contractor's address, as stated on the face of the Agreement, unless the Contractor notifies the DHCS Program Contract Manager, in writing, of an alternate delivery address.

- (2) All equipment/property purchases are subject to Paragraphs d through h of Provision 3. Paragraph b of Provision 3 shall also apply, if equipment/property purchases are delegated to subcontractors that are either a government or public entity.
  - (3) Nonprofit organizations and commercial businesses shall use a procurement system that meets the following standards:
    - (a) Maintain a code or standard of conduct that shall govern the performance of its officers, employees, or agents engaged in awarding procurement contracts. No employee, officer, or agent shall participate in the selection, award, or administration of a procurement, or bid contract in which, to his or her knowledge, he or she has a financial interest.
    - (b) Procurements shall be conducted in a manner that provides, to the maximum extent practical, open, and free competition.
    - (c) Procurements shall be conducted in a manner that provides for all of the following:
      - [1] Avoid purchasing unnecessary or duplicate items.
      - [2] Equipment/property solicitations shall be based upon a clear and accurate description of the technical requirements of the goods to be procured.
      - [3] Take positive steps to utilize small and veteran owned businesses.
  - d. Unless waived or otherwise stipulated in writing by DHCS, prior written authorization from the appropriate DHCS Program Contract Manager will be required before the Contractor will be reimbursed for any purchase of \$5,000 or more for commodities, supplies, equipment/property, and services related to such purchases. The Contractor must provide in its request for authorization all particulars necessary, as specified by DHCS, for evaluating the necessity or desirability of incurring such costs. The term "purchase" excludes the purchase of services from a subcontractor and public utility services at rates established for uniform applicability to the general public.
  - e. In special circumstances, determined by DHCS (e.g., when DHCS has a need to monitor certain purchases, etc.), DHCS may require prior written authorization and/or the submission of paid vendor receipts for any purchase, regardless of dollar amount. DHCS reserves the right to either deny claims for reimbursement or to request repayment for any Contractor and/or subcontractor purchase that DHCS determines to be unnecessary in carrying out performance under this Agreement.
  - f. The Contractor and/or subcontractor must maintain a copy or narrative description of the procurement system, guidelines, rules, or regulations that will be used to make purchases under this Agreement. The State reserves the right to request a copy of these documents and to inspect the purchasing practices of the Contractor and/or subcontractor at any time.
  - g. For all purchases, the Contractor and/or subcontractor must maintain copies of all paid vendor invoices, documents, bids and other information used in vendor selection, for inspection or audit. Justifications supporting the absence of bidding (i.e., sole source purchases) shall also be maintained on file by the Contractor and/or subcontractor for inspection or audit.
  - h. DHCS may, with cause (e.g., with reasonable suspicion of unnecessary purchases or use of inappropriate purchase practices, etc.), withhold, cancel, modify, or retract the delegated purchase authority granted under Paragraphs b and/or c of Provision 3 by giving the Contractor no less than 30 calendar days written notice.
- 4. Equipment/Property Ownership / Inventory / Disposition**

## EXHIBIT 2

(Applicable to agreements in which equipment/property is furnished by DHCS and/or when said items are purchased or reimbursed by DHCS with state or federal funds provided under the Agreement.)

- a. Wherever the term equipment and/or property is used in Provision 4, the definitions in Paragraph a of Provision 3 shall apply.

Unless otherwise stipulated in this Agreement, all equipment and/or property that is purchased/reimbursed with agreement funds or furnished by DHCS under the terms of this Agreement shall be considered state equipment and the property of DHCS.

- (1) **Reporting of Equipment/Property Receipt** - DHCS requires the reporting, tagging and annual inventorying of all equipment and/or property that is furnished by DHCS or purchased/reimbursed with funds provided through this Agreement.

Upon receipt of equipment and/or property, the Contractor shall report the receipt to the DHCS Program Contract Manager. To report the receipt of said items and to receive property tags, Contractor shall use a form or format designated by DHCS' Asset Management Unit. If the appropriate form (i.e., Contractor Equipment Purchased with DHCS Funds) does not accompany this Agreement, Contractor shall request a copy from the DHCS Program Contract Manager.

- (2) **Annual Equipment/Property Inventory** - If the Contractor enters into an agreement with a term of more than twelve months, the Contractor shall submit an annual inventory of state equipment and/or property to the DHCS Program Contract Manager using a form or format designated by DHCS' Asset Management Unit. If such remedies are not reasonably available, DHCS shall be entitled to a refund of all monies paid under this Agreement, without restriction or limitation of any other rights and remedies available at law or in equity.

- (3) Contractor agrees that damages alone would be inadequate to compensate DHCS for breach of any term of this Intellectual Property Exhibit by Contractor. The Branch Chief shall respond in writing to the Contractor indicating the decision and reasons therefore. If the Contractor disagrees with the Branch Chief's decision, the Contractor may appeal to the second level.
  - (2) When appealing to the second level, the Contractor must prepare an appeal indicating the reasons for disagreement with Branch Chief's decision. The Contractor shall include with the appeal a copy of the Contractor's original statement of dispute along with any supporting evidence and a copy of the Branch Chief's decision. The Deputy Director of the division in which the branch is organized or his/her designee shall meet with the Contractor to review the issues raised. A written decision signed by the Deputy Director of the division in which the branch is organized or his/her designee shall be directed to the Contractor within twenty (20) working days of receipt of the Contractor's second level appeal.

- c. Unless otherwise stipulated in writing by DHCS, all dispute, grievance and/or appeal correspondence shall be directed to the DHCS Program Contract Manager.
- d. There are organizational differences within DHCS' funding programs and the management levels identified in this dispute resolution provision may not apply in every contractual situation. When a grievance is received and organizational differences exist, the Contractor shall be notified in writing by the DHCS Program Contract Manager of the level, name, and/or title of the appropriate management official that is responsible for issuing a decision at a given level.

### 16. Financial and Compliance Audit Requirements

- a. The definitions used in this provision are contained in Section 38040 of the Health and Safety Code, which by this reference is made a part hereof.
- b. Direct service contract means a contract or agreement for services contained in local assistance or subvention programs or both (see Health and Safety [H&S] Code Section 38020). Direct service contracts shall not include contracts, agreements, grants, or subventions to other governmental agencies or units of government nor contracts or agreements with regional centers or area agencies on aging (H&S Code Section 38030).
- c. The Contractor, as indicated below, agrees to obtain one of the following audits:
  - (1) **If the Contractor is a nonprofit organization (as defined in H&S Code Section 38040) and receives \$25,000 or more from any State agency under a direct service contract or agreement;** the Contractor agrees to obtain an annual single, organization wide, financial and compliance audit. Said audit shall be conducted according to Generally Accepted Auditing Standards. This audit does not fulfill the audit requirements of Paragraph c(3) below. The audit shall be completed by the 15th day of the fifth month following the end of the Contractor's fiscal year, **and/or**
  - (2) **If the Contractor is a nonprofit organization (as defined in H&S Code Section 38040) and receives less than \$25,000 per year from any State agency under a direct service contract or agreement,** the Contractor agrees to obtain a biennial single, organization wide financial and compliance audit, unless there is evidence of fraud or other violation of state law in connection with this Agreement. This audit does not fulfill the audit requirements of Paragraph c(3) below. The audit shall be completed by the 15th day of the fifth month following the end of the Contractor's fiscal year, **and/or**
  - (3) **If the Contractor is a State or Local Government entity or Nonprofit organization (as defined by the Federal Office of Management and Budget [OMB] Circular A-133) and expends \$500,000 or more in Federal awards,** the Contractor agrees to obtain an annual single, organization wide, financial and compliance audit according to the requirements specified in OMB Circular A-133 entitled "Audits of States, Local Governments, and Non-Profit Organizations". An audit conducted pursuant to this provision will fulfill the audit requirements outlined in Paragraphs c(1) and c(2) above. The audit shall be completed by the end of the ninth month following the end of the audit period. The requirements of this provision apply if:
    - (a) The Contractor is a recipient expending Federal awards received directly from Federal awarding agencies, or
    - (b) The Contractor is a subrecipient expending Federal awards received from a pass-through entity such as the State, County or community based organization.
  - (4) If the Contractor submits to DHCS a report of an audit other than an OMB A-133 audit, the Contractor must also submit a certification indicating the Contractor has not expended \$500,000 or more in federal funds for the year covered by the audit report.
- d. Two copies of the audit report shall be delivered to the DHCS program funding this Agreement. The audit report must identify the Contractor's legal name and the number assigned to this Agreement. The audit report shall be due within 30 days after the completion of the audit. Upon receipt of said audit report, the DHCS Program Contract Manager shall forward the audit report to DHCS' Audits and Investigations Unit

## EXHIBIT 2

if the audit report was submitted under Section 16.c(3), unless the audit report is from a City, County, or Special District within the State of California whereby the report will be retained by the funding program.

- e. The cost of the audits described herein may be included in the funding for this Agreement up to the proportionate amount this Agreement represents of the Contractor's total revenue. The DHCS program funding this Agreement must provide advance written approval of the specific amount allowed for said audit expenses.
- f. The State or its authorized designee, including the Bureau of State Audits, is responsible for conducting agreement performance audits which are not financial and compliance audits. Performance audits are defined by Generally Accepted Government Auditing Standards.
- g. Nothing in this Agreement limits the State's responsibility or authority to enforce State law or regulations, procedures, or reporting requirements arising thereto.
- h. Nothing in this provision limits the authority of the State to make audits of this Agreement, provided however, that if independent audits arranged for by the Contractor meet Generally Accepted Governmental Auditing Standards, the State shall rely on those audits and any additional audit work and shall build upon the work already done.
- i. The State may, at its option, direct its own auditors to perform either of the audits described above. The Contractor will be given advance written notification, if the State chooses to exercise its option to perform said audits.
- j. The Contractor shall include a clause in any agreement the Contractor enters into with the audit firm doing the single organization wide audit to provide access by the State or Federal Government to the working papers of the independent auditor who prepares the single organization wide audit for the Contractor.
- k. Federal or state auditors shall have "expanded scope auditing" authority to conduct specific program audits during the same period in which a single organization wide audit is being performed, but the audit report has not been issued. The federal or state auditors shall review and have access to the current audit work being conducted and will not apply any testing or review procedures which have not been satisfied by previous audit work that has been completed.

The term "expanded scope auditing" is applied and defined in the U.S. General Accounting Office (GAO) issued Standards for *Audit of Government Organizations, Programs, Activities and Functions*, better known as the "yellow book".

### 17. Human Subjects Use Requirements

(Applicable only to federally funded agreements/grants in which performance, directly or through a subcontract/subaward, includes any tests or examination of materials derived from the human body.)

By signing this Agreement, Contractor agrees that if any performance under this Agreement or any subcontract or subagreement includes any tests or examination of materials derived from the human body for the purpose of providing information, diagnosis, prevention, treatment or assessment of disease, impairment, or health of a human being, all locations at which such examinations are performed shall meet the requirements of 42 U.S.C. Section 263a (CLIA) and the regulations thereunder.

## EXHIBIT 2

### 18. Novation Requirements

If the Contractor proposes any novation agreement, DHCS shall act upon the proposal within 60 days after receipt of the written proposal. DHCS may review and consider the proposal, consult and negotiate with the Contractor, and accept or reject all or part of the proposal. Acceptance or rejection of the proposal may be made orally within the 60-day period and confirmed in writing within five days of said decision. Upon written acceptance of the proposal, DHCS will initiate an amendment to this Agreement to formally implement the approved proposal.

### 19. Debarment and Suspension Certification

(Applicable to all agreements funded in part or whole with federal funds.)

- a. By signing this Agreement, the Contractor/Grantee agrees to comply with applicable federal suspension and debarment regulations including, but not limited to 7 CFR Part 3017, 45 CFR 76, 40 CFR 32 or 34 CFR 85.
- b. By signing this Agreement, the Contractor certifies to the best of its knowledge and belief, that it and its principals:
  - (1) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded by any federal department or agency;
  - (2) Have not within a three-year period preceding this application/proposal/agreement been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
  - (3) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in Paragraph b(2) herein; and
  - (4) Have not within a three-year period preceding this application/proposal/agreement had one or more public transactions (Federal, State or local) terminated for cause or default.
  - (5) Shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under federal regulations (i.e., 48 CFR part 9, subpart 9.4), debarred, suspended, declared ineligible, or voluntarily excluded from participation in such transaction, unless authorized by the State.
  - (6) Will include a clause entitled, "Debarment and Suspension Certification" that essentially sets forth the provisions herein, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
- c. If the Contractor is unable to certify to any of the statements in this certification, the Contractor shall submit an explanation to the DHCS Program Contract Manager.
- d. The terms and definitions herein have the meanings set out in the Definitions and Coverage sections of the rules implementing Federal Executive Order 12549.
- e. If the Contractor knowingly violates this certification, in addition to other remedies available to the Federal Government, the DHCS may terminate this Agreement for cause or default.

### 20. Smoke-Free Workplace Certification

(Applicable to federally funded agreements/grants and subcontracts/subawards, that provide health, day care, early childhood development services, education or library services to children under 18 directly or through local governments.)

- a. Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, early childhood development services, education or library services to children under the age of 18, if the services are funded by federal programs either directly or through state or local governments, by federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such federal funds. The law does not apply to children's services provided in private residences; portions of facilities used for inpatient drug or alcohol treatment; service providers whose sole source of applicable federal funds is Medicare or Medicaid; or facilities where WIC coupons are redeemed.
- b. Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible party.
- c. By signing this Agreement, Contractor or Grantee certifies that it will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act. The prohibitions herein are effective December 26, 1994.
- d. Contractor or Grantee further agrees that it will insert this certification into any subawards (subcontracts or subgrants) entered into that provide for children's services as described in the Act.

### 21. Covenant Against Contingent Fees

(Applicable only to federally funded agreements.)

The Contractor warrants that no person or selling agency has been employed or retained to solicit/secure this Agreement upon an agreement of understanding for a commission, percentage, brokerage, or contingent fee, except *bona fide* employees or *bona fide* established commercial or selling agencies retained by the Contractor for the purpose of securing business. For breach or violation of this warranty, DHCS shall have the right to annul this Agreement without liability or in its discretion to deduct from the Agreement price or consideration, or otherwise recover, the full amount of such commission, percentage, and brokerage or contingent fee.

### 22. Payment Withholds

(Applicable only if a final report is required by this Agreement. Not applicable to government entities.)

Unless waived or otherwise stipulated in this Agreement, DHCS may, at its discretion, withhold 10 percent (10%) of the face amount of the Agreement, 50 percent (50%) of the final invoice, or \$3,000 whichever is greater, until DHCS receives a final report that meets the terms, conditions and/or scope of work requirements of this Agreement.

### 23. Performance Evaluation

(Not applicable to grant agreements.)

DHCS may, at its discretion, evaluate the performance of the Contractor at the conclusion of this Agreement. If performance is evaluated, the evaluation shall not be a public record and shall remain on file with DHCS. Negative performance evaluations may be considered by DHCS prior to making future contract awards.

## EXHIBIT 2

### **24. Officials Not to Benefit**

No members of or delegate of Congress or the State Legislature shall be admitted to any share or part of this Agreement, or to any benefit that may arise therefrom. This provision shall not be construed to extend to this Agreement if made with a corporation for its general benefits.

### **25. Four-Digit Date Compliance**

(Applicable to agreements in which Information Technology (IT) services are provided to DHCS or if IT equipment is procured.)

Contractor warrants that it will provide only Four-Digit Date Compliant (as defined below) Deliverables and/or services to the State. "Four Digit Date compliant" Deliverables and services can accurately process, calculate, compare, and sequence date data, including without limitation date data arising out of or relating to leap years and changes in centuries. This warranty and representation is subject to the warranty terms and conditions of this Contract and does not limit the generality of warranty obligations set forth elsewhere herein.

### **26. Prohibited Use of State Funds for Software**

(Applicable to agreements in which computer software is used in performance of the work.)

Contractor certifies that it has appropriate systems and controls in place to ensure that state funds will not be used in the performance of this Agreement for the acquisition, operation or maintenance of computer software in violation of copyright laws.

### **27. Use of Small, Minority Owned and Women's Businesses**

(Applicable to that portion of an agreement that is federally funded and entered into with institutions of higher education, hospitals, nonprofit organizations or commercial businesses.)

Positive efforts shall be made to use small businesses, minority-owned firms and women's business enterprises, whenever possible (i.e., procurement of goods and/or services). Contractors shall take all of the following steps to further this goal.

- (1) Ensure that small businesses, minority-owned firms, and women's business enterprises are used to the fullest extent practicable.
- (2) Make information on forthcoming purchasing and contracting opportunities available and arrange time frames for purchases and contracts to encourage and facilitate participation by small businesses, minority-owned firms, and women's business enterprises.
- (3) Consider in the contract process whether firms competing for larger contracts intend to subcontract with small businesses, minority-owned firms, and women's business enterprises.
- (4) Encourage contracting with consortiums of small businesses, minority-owned firms and women's business enterprises when a contract is too large for one of these firms to handle individually.
- (5) Use the services and assistance, as appropriate, of such organizations as the Federal Small Business Administration and the U.S. Department of Commerce's Minority Business Development Agency in the solicitation and utilization of small businesses, minority-owned firms and women's business enterprises.

### **28. Alien Ineligibility Certification**

(Applicable to sole proprietors entering federally funded agreements.)

By signing this Agreement, the Contractor certifies that he/she is not an alien that is ineligible for state and local benefits, as defined in Subtitle B of the Personal Responsibility and Work Opportunity Act. (8 U.S.C. 1601, et seq.)

## EXHIBIT 2

### 29. Union Organizing

(Applicable only to grant agreements.)

Grantee, by signing this Agreement, hereby acknowledges the applicability of Government Code Sections 16645 through 16649 to this Agreement. Furthermore, Grantee, by signing this Agreement, hereby certifies that:

- a. No state funds disbursed by this grant will be used to assist, promote or deter union organizing.
- b. Grantee shall account for state funds disbursed for a specific expenditure by this grant, to show those funds were allocated to that expenditure.
- c. Grantee shall, where state funds are not designated as described in b herein, allocate, on a pro-rata basis, all disbursements that support the grant program.
- d. If Grantee makes expenditures to assist, promote or deter union organizing, Grantee will maintain records sufficient to show that no state funds were used for those expenditures, and that Grantee shall provide those records to the Attorney General upon request.

### 30. Contract Uniformity (Fringe Benefit Allowability)

(Applicable only to nonprofit organizations.)

Pursuant to the provisions of Article 7 (commencing with Section 100525) of Chapter 3 of Part 1 of Division 101 of the Health and Safety Code, DHCS sets forth the following policies, procedures, and guidelines regarding the reimbursement of fringe benefits.

- a. As used herein fringe benefits shall mean an employment benefit given by one's employer to an employee in addition to one's regular or normal wages or salary.
- b. As used herein, fringe benefits do not include:
  - (1) Compensation for personal services paid currently or accrued by the Contractor for services of employees rendered during the term of this Agreement, which is identified as regular or normal salaries and wages, annual leave, vacation, sick leave, holidays, jury duty and/or military leave/training.
  - (2) Director's and executive committee member's fees.
  - (3) Incentive awards and/or bonus incentive pay.
  - (4) Allowances for off-site pay.
  - (5) Location allowances.
  - (6) Hardship pay.
  - (7) Cost-of-living differentials
- c. Specific allowable fringe benefits include:
  - (1) Fringe benefits in the form of employer contributions for the employer's portion of payroll taxes (i.e., FICA, SUI, SDI), employee health plans (i.e., health, dental and vision), unemployment insurance, worker's compensation insurance, and the employer's share of pension/retirement plans, provided they are granted in accordance with established written organization policies and meet all legal and Internal Revenue Service requirements.
- d. To be an allowable fringe benefit, the cost must meet the following criteria:
  - (1) Be necessary and reasonable for the performance of the Agreement.
  - (2) Be determined in accordance with generally accepted accounting principles.
  - (3) Be consistent with policies that apply uniformly to all activities of the Contractor.
- e. Contractor agrees that all fringe benefits shall be at actual cost.

## EXHIBIT 2

### f. Earned/Accrued Compensation

- (1) Compensation for vacation, sick leave and holidays is limited to that amount earned/accrued within the agreement term. Unused vacation, sick leave and holidays earned from periods prior to the agreement term cannot be claimed as allowable costs. See Provision f (3)(a) for an example.
- (2) For multiple year agreements, vacation and sick leave compensation, which is earned/accrued but not paid, due to employee(s) not taking time off may be carried over and claimed within the overall term of the multiple years of the Agreement. Holidays cannot be carried over from one agreement year to the next. See Provision f (3)(b) for an example.
- (3) For single year agreements, vacation, sick leave and holiday compensation that is earned/accrued but not paid, due to employee(s) not taking time off within the term of the Agreement, cannot be claimed as an allowable cost. See Provision f (3)(c) for an example.

#### (a) **Example No. 1:**

If an employee, John Doe, earns/accrues three weeks of vacation and twelve days of sick leave each year, then that is the maximum amount that may be claimed during a one year agreement. If John Doe has five weeks of vacation and eighteen days of sick leave at the beginning of an agreement, the Contractor during a one-year budget period may only claim up to three weeks of vacation and twelve days of sick leave as actually used by the employee. Amounts earned/accrued in periods prior to the beginning of the Agreement are not an allowable cost.

#### (b) **Example No. 2:**

If during a three-year (multiple year) agreement, John Doe does not use his three weeks of vacation in year one, or his three weeks in year two, but he does actually use nine weeks in year three; the Contractor would be allowed to claim all nine weeks paid for in year three. The total compensation over the three-year period cannot exceed 156 weeks (3 x 52 weeks).

#### (c) **Example No. 3:**

If during a single year agreement, John Doe works fifty weeks and used one week of vacation and one week of sick leave and all fifty-two weeks have been billed to DHCS, the remaining unused two weeks of vacation and seven days of sick leave may not be claimed as an allowable cost.

### 31. Suspension or Stop Work Notification

- a. DHCS may, at any time, issue a notice to suspend performance or stop work under this Agreement. The initial notification may be a verbal or written directive issued by the funding Program's Contract Manager. Upon receipt of said notice, the Contractor is to suspend and/or stop all, or any part, of the work called for by this Agreement.
- b. Written confirmation of the suspension or stop work notification with directions as to what work (if not all) is to be suspended and how to proceed will be provided within 30 working days of the verbal notification. The suspension or stop work notification shall remain in effect until further written notice is received from DHCS. The resumption of work (in whole or part) will be at DHCS' discretion and upon receipt of written confirmation.
  - (1) Upon receipt of a suspension or stop work notification, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize or halt the incurrence of costs allocable to the performance covered by the notification during the period of work suspension or stoppage.
  - (2) Within 90 days of the issuance of a suspension or stop work notification, DHCS shall either:
    - (a) Cancel, extend, or modify the suspension or stop work notification; or
    - (b) Terminate the Agreement as provided for in the Cancellation / Termination clause of the Agreement.

## EXHIBIT 2

- c. If a suspension or stop work notification issued under this clause is canceled or the period of suspension or any extension thereof is modified or expires, the Contractor may resume work only upon written concurrence of funding Program's Contract Manager.
- d. If the suspension or stop work notification is cancelled and the Agreement resumes, changes to the services, deliverables, performance dates, and/or contract terms resulting from the suspension or stop work notification shall require an amendment to the Agreement.
- e. If a suspension or stop work notification is not canceled and the Agreement is cancelled or terminated pursuant to the provision entitled Cancellation / Termination, DHCS shall allow reasonable costs resulting from the suspension or stop work notification in arriving at the settlement costs.
- f. DHCS shall not be liable to the Contractor for loss of profits because of any suspension or stop work notification issued under this clause.

### 32. Lobbying Restrictions and Disclosure Certification

(Applicable to federally funded agreements in excess of \$100,000 per Section 1352 of the 31, U.S.C.)

#### a. Certification and Disclosure Requirements

- (3) Each recipient shall file a disclosure form at the end of each calendar quarter in which there occurs any event that requires disclosure or that materially affect the accuracy of the information contained in any disclosure form previously filed by such person under Paragraph a(2) herein. An event that materially affects the accuracy of the information reported includes:
  - (a) A cumulative increase of \$25,000 or more in the amount paid or expected to be paid for influencing or attempting to influence a covered federal action;
  - (b) A change in the person(s) or individuals(s) influencing or attempting to influence a covered federal action; or
  - (c) A change in the officer(s), employee(s), or member(s) contacted for the purpose of influencing or attempting to influence a covered federal action.
- (4) Each person (or recipient) who requests or receives from a person referred to in Paragraph a(1) of this provision a contract or agreement, subcontract, grant or subgrant exceeding \$100,000 at any tier under a contract or agreement, or grant shall file a certification, and a disclosure form, if required, to the next tier above.
- (5) All disclosure forms (but not certifications) shall be forwarded from tier to tier until received by the person referred to in Paragraph a(1) of this provision. That person shall forward all disclosure forms to DHCS Program Contract Manager.

Should either party, during the term of this Agreement, desire a change or amendment to the terms of this Agreement, such changes or amendments shall be proposed in writing to the other party, who will respond in writing as to whether the proposed changes/amendments are accepted or rejected. If accepted and after negotiations are concluded, the agreed upon changes shall be made through the State's official agreement amendment process. Upon either party's request, the other party agrees to promptly enter into negotiations concerning an amendment to this Exhibit F embodying written assurances consistent with the standards and requirements of HIPAA, the HITECH Act, and the HIPAA regulations, and other applicable state and Federal laws. Contractor shall promptly remedy any violation of any provision of this Exhibit F. The fact that the Department inspects, or fails to inspect, or has the right to inspect, Contractor's facilities, systems and procedures does not relieve Contractor of its responsibility to comply with this Exhibit F. The Department's failure to detect a non-compliant practice, or a failure to report a detected non-compliant practice to Contractor does not constitute acceptance of such practice or a waiver of the Department's enforcement rights under this Agreement, including this Exhibit F.

- J. *Warning Banners.*** All systems providing access to DHCS PHI or PI must display a warning banner stating that data is confidential, systems are logged, and system use is for business purposes only by authorized users. User must be directed to log off the system if they do not agree with these requirements.
- K. *System Logging.*** The system must maintain an automated audit trail which can identify the user or system process which initiates a request for DHCS PHI or PI, or which alters DHCS PHI or PI. The audit trail must be date and time stamped, must log both successful and failed accesses, must be read only, and must be restricted to

## EXHIBIT 2

authorized users. If DHCS PHI or PI is stored in a database, database logging functionality must be enabled. Audit trail data must be archived for at least 3 years after occurrence.

**L. Access Controls.** The system providing access to DHCS PHI or PI must use role based access controls for all user authentications, enforcing the principle of least privilege.

**M. Transmission encryption.** All data transmissions of DHCS PHI or PI outside the secure internal network must be encrypted using a FIPS 140-2 certified algorithm which is 128bit or higher, such as AES. Encryption can be end to end at the network level, or the data files containing PHI can be encrypted. This requirement pertains to any type of PHI or PI in motion such as website access, file transfer, and E-Mail.

**N. Intrusion Detection.** All systems involved in accessing, holding, transporting, and protecting DHCS PHI or PI that are accessible via the Internet must be protected by a comprehensive intrusion detection and prevention solution.

### III. Audit Controls

**A. System Security Review.** All systems processing and/or storing DHCS PHI or PI must have at least an annual system risk assessment/security review which provides assurance that administrative, physical, and technical controls are functioning effectively and providing adequate levels of protection. Reviews should include vulnerability scanning tools.

**B. Log Reviews.** All systems processing and/or storing DHCS PHI or PI must have a routine procedure in place to review system logs for unauthorized access.

**C. Change Control.** All systems processing and/or storing DHCS PHI or PI must have a documented change control procedure that ensures separation of duties and protects the confidentiality, integrity and availability of data.

### IV. Business Continuity / Disaster Recovery Controls

**A. Emergency Mode Operation Plan.** Contractor must establish a documented plan to enable continuation of critical business processes and protection of the security of electronic DHCS PHI or PI in the event of an emergency. Emergency means any circumstance or situation that causes normal computer operations to become unavailable for use in performing the work required under this Agreement for more than 24 hours.

**B. Data Backup Plan.** Contractor must have established documented procedures to backup DHCS PHI to maintain retrievable exact copies of DHCS PHI or PI. The plan must include a regular schedule for making backups, storing backups offsite, an inventory of backup media, and an estimate of the amount of time needed to restore DHCS PHI or PI should it be lost. At a minimum, the schedule must be a weekly full backup and monthly offsite storage of DHCS data.

## EXHIBIT 2

### V. Paper Document Controls

- A. *Supervision of Data.*** DHCS PHI or PI in paper form shall not be left unattended at any time, unless it is locked in a file cabinet, file room, desk or office. Unattended means that information is not being observed by an employee authorized to access the information. DHCS PHI or PI in paper form shall not be left unattended at any time in vehicles or planes and shall not be checked in baggage on commercial airplanes.
- B. *Escorting Visitors.*** Visitors to areas where DHCS PHI or PI is contained shall be escorted and DHCS PHI or PI shall be kept out of sight while visitors are in the area.
- C. *Confidential Destruction.*** DHCS PHI or PI must be disposed of through confidential means, such as cross cut shredding and pulverizing.
- D. *Removal of Data.*** DHCS PHI or PI must not be removed from the premises of the Contractor except with express written permission of DHCS.
- E. *Faxing.*** Faxes containing DHCS PHI or PI shall not be left unattended and fax machines shall be in secure areas. Faxes shall contain a confidentiality statement notifying persons receiving faxes in error to destroy them. Fax numbers shall be verified with the intended recipient before sending the fax.
- F. *Mailing.*** Mailings of DHCS PHI or PI shall be sealed and secured from damage or inappropriate viewing of PHI or PI to the extent possible. Mailings which include 500 or more individually identifiable records of DHCS PHI or PI in a single package shall be sent using a tracked mailing method which includes verification of delivery and receipt, unless the prior written permission of DHCS to use another method is obtained.

**INFORMATION EXCHANGE AGREEMENT  
BETWEEN  
THE SOCIAL SECURITY ADMINISTRATION (SSA)  
AND  
THE CALIFORNIA DEPARTMENT OF HEALTH CARE SERVICES**

**A. PURPOSE:** The purpose of this Information Exchange Agreement (“IEA”) is to establish terms, conditions, and safeguards under which SSA will disclose to the State Agency certain information, records, or data (herein “data”) to assist the State Agency in administering certain federally funded, state-administered benefit programs (including state-funded, state supplementary payment programs under Title XVI of the Social Security Act) identified in this IEA. By entering into this IEA, the State Agency agrees to comply with:

- the terms and conditions set forth in the Computer Matching and Privacy Protection Act Agreement (“CMPPA Agreement”) attached as **Attachment 1**, governing the State Agency’s use of the data disclosed from SSA’s Privacy Act System of Records; and
- all other terms and conditions set forth in this IEA and Attachments 2 through 6.

**B. PROGRAMS AND DATA EXCHANGE SYSTEMS:** (1) The State Agency will use the data received or accessed from SSA under this IEA for the purpose of administering the federally funded, state-administered programs identified in **Table 1** below. In **Table 1**, the State Agency has identified: (a) each federally funded, state-administered program that it administers; and (b) each SSA data exchange system to which the State Agency needs access in order to administer the identified program. The list of SSA’s data exchange systems is attached as **Attachment 2**. **Attachment 2** provides a brief explanation of each system, as well as use parameters, as necessary.

(2) The State Agency will use each identified data exchange system *only* for the purpose of administering the specific program for which access to the data exchange system is provided. SSA data exchange systems are protected by the Privacy Act and Federal law prohibits the use of SSA’s data for any purpose other than the purpose of administering the specific program for which such data is disclosed. In particular, the State Agency will:

- a) use the **tax return data** disclosed by SSA only to determine individual eligibility for, or the amount of, assistance under a program listed in 26 U.S.C. § 6103(1)(7) and (8).
- b) use **citizenship status data** disclosed by SSA only to determine entitlement of *new applicants* to: (a) the Medicaid program and CHIP pursuant to the Children’s Health Insurance Program Reauthorization Act of 2009, Pub. L. 111-3; or (b) federally funded, state-administered health or income maintenance programs approved by SSA to receive the *SSA Data Set* through the Centers for Medicare & Medicaid Services’ (CMS) Federal Data Services Hub (Hub).

Applicants for Social Security numbers (SSN) report their citizenship data at the time they apply for their SSNs; there is no obligation for an individual to report to SSA a change in his or her immigration status until he or she files a claim for benefits.

**C. PROGRAM QUESTIONNAIRE:** Prior to signing this IEA, the State Agency will complete and submit to SSA a program questionnaire for each of the federally funded, state-administered programs checked in **Table 1** above. SSA will not disclose any data under this IEA until it has received and approved the completed program questionnaire for each of the programs identified in **Table 1** above.

EXHIBIT 2

D. **TRANSFER OF DATA:** SSA will transmit the data to the State Agency under this IEA using the data transmission method identified in **Table 2** below:

TABLE 2

TRANSFER OF DATA
<input type="checkbox"/> Data will be transmitted directly between SSA and the State Agency.
<input checked="" type="checkbox"/> Data will be transmitted directly between SSA and The California Office of Technology (State Transmission/Transfer Component (“STC”)) by File Transfer Management System (FTMS), a secure mechanism approved by SSA. The STC will serve as the conduit between SSA and the State Agency pursuant to the State STC Agreement.
<input type="checkbox"/> Data will be transmitted directly between SSA and CMS’ Hub by a secure method of transfer approved by SSA. CMS will transmit the <i>SSA Data Set</i> between SSA and the State Agency pursuant to an agreement between SSA and CMS regarding the use of the Hub.
<input type="checkbox"/> Data will be transmitted [ <i>select one: directly between SSA and the Interstate Connection Network (“ICON”) or through the [name of STC Agency/Vendor] as the conduit between SSA and the Interstate Connection Network (“ICON”)</i> ]. ICON is a wide area telecommunications network connecting state agencies that administer the state unemployment insurance laws. When receiving data through ICON, the State Agency will comply with the “Systems Security Requirements for SSA Web Access to SSA Information Through the ICON,” attached as <b>Attachment 3</b> .

E. **SECURITY PROCEDURES:** The State Agency will comply with limitations on use, treatment, and safeguarding of data under the Privacy Act of 1974 (5 U.S.C. § 552a), as amended by the Computer Matching and Privacy Protection Act of 1988, related Office of Management and Budget guidelines, the Federal Information Security Management Act of 2002 (44 U.S.C. § 3541, et seq.), and related National Institute of Standards and Technology guidelines. In addition, the State Agency will comply with SSA’s “Electronic Information Exchange Security Requirements and Procedures for State and Local Agencies Exchanging Electronic Information with the Social Security Administration,” attached as **Attachment 4**, as well as the Security Certification Requirements for use of the *SSA Data Set* transmitted via CMS’ Hub, attached as **Attachment 5**. The SSA security controls identified under **Attachment 4** of this IEA prevail for all SSA data received by the State Agency, as identified in Table 1 of this IEA. For any tax return data, the State Agency will also comply with the “Tax Information Security Guidelines for Federal, State and Local Agencies,” Publication 1075, published by the Secretary of the Treasury and available at the following Internal Revenue Service (IRS) website: <http://www.irs.gov/pub/irs-pdf/p1075.pdf>. This IRS Publication 1075 is incorporated by reference into this IEA.

F. **STATE AGENCY’S RESPONSIBILITIES:** The State Agency will not direct individuals to SSA field offices to obtain data that the State Agency is authorized to receive under this IEA in accordance with Table 1. Where disparities exist between individual-supplied data and SSA’s data, the State Agency will take the following steps before referring the individual to an SSA field office:

## EXHIBIT 2

- Check its records to be sure that the data of the original submission has not changed (e.g., last name recently changed);
- Contact the individual to verify the data submitted is accurate; and,
- Consult with the SSA Regional Office Contact to discuss options before advising individuals to contact SSA for resolution. The Regional Office Contact will inform the State Agency of the current protocol through which the individual should contact SSA, i.e., visiting the field office, calling the national network service number, or creating an online account via *my* Social Security.

**G. CONTRACTOR/AGENT RESPONSIBILITIES:** The State Agency will restrict access to the data obtained from SSA to only those authorized State employees, contractors, and agents who need such data to perform their official duties in connection with purposes identified in this IEA. At SSA's request, the State Agency will obtain from each of its contractors and agents a current list of the employees of its contractors and agents who have access to SSA data disclosed under this IEA. The State Agency will require its contractors, agents, and all employees of such contractors or agents with authorized access to the SSA data disclosed under this IEA, to comply with the terms and conditions set forth in this IEA, and not to duplicate, disseminate, or disclose such data without obtaining SSA's prior written approval. In addition, the State Agency will comply with the limitations on use, duplication, and redisclosure of SSA data set forth in Section IX. of the CMPPA Agreement, especially with respect to its contractors and agents.

**H. SAFEGUARDING AND REPORTING RESPONSIBILITIES FOR PERSONALLY IDENTIFIABLE INFORMATION ("PII"):**

1. The State Agency will ensure that its employees, contractors, and agents:
  - a. properly safeguard PII furnished by SSA under this IEA from loss, theft, or inadvertent disclosure;
  - b. understand that they are responsible for safeguarding this information at all times, regardless of whether or not the State employee, contractor, or agent is at his or her regular duty station;
  - c. ensure that laptops and other electronic devices/media containing PII are encrypted and/or password protected;
  - d. send emails containing PII only if encrypted or if to and from addresses that are secure; and
  - e. limit disclosure of the information and details relating to a PII loss only to those with a need to know.
2. If an employee of the State Agency or an employee of the State Agency's contractor or agent becomes aware of suspected or actual loss of PII, he or she must immediately contact the State Agency official responsible for Systems Security designated below or his or her delegate. That State Agency official or delegate must then notify the SSA Regional Office Contact and the SSA Systems Security Contact identified below. If, for any reason, the responsible State Agency official or delegate is unable to notify the SSA Regional Office or the SSA Systems Security Contact within 1 hour, the responsible State Agency official or delegate must report the incident by contacting SSA's National Network Service Center at 1-877-697-4889. The responsible State Agency official or delegate will use the worksheet, attached as **Attachment 6**, to quickly gather and

## EXHIBIT 2

organize information about the incident. The responsible State Agency official or delegate must provide to SSA timely updates as any additional information about the loss of PII becomes available.

3. SSA will make the necessary contact within SSA to file a formal report in accordance with SSA procedures. SSA will notify the Department of Homeland Security's United States Computer Emergency Readiness Team if loss or potential loss of PII related to a data exchange under this IEA occurs.
4. If the State Agency experiences a loss or breach of data, it will determine whether or not to provide notice to individuals whose data has been lost or breached and bear any costs associated with the notice or any mitigation.

THE INFORMATION EXCHANGE AGREEMENT  
BETWEEN  
THE SOCIAL SECURITY ADMINISTRATION (SSA)  
AND  
THE CALIFORNIA DEPARTMENT OF HEALTH CARE SERVICES (STATE  
AGENCY)  
(State Agency Level)**

In accordance with the terms of the Information Exchange Agreement (IEA/F) between SSA and the State Agency, the State Agency, through its authorized representative, hereby certifies that, as of the date of this certification:

1. The State Agency is in compliance with the terms and conditions of the IEA/F;
2. The State Agency has conducted the data exchange processes under the IEA/F without change, except as modified in accordance with the IEA/F;
3. The State Agency will continue to conduct the data exchange processes under the IEA/F without change, except as may be modified in accordance with the IEA/F;
4. Upon SSA's request, the State Agency will provide audit reports or other documents that demonstrate compliance with the review and oversight activities required under the IEA/F and the governing Computer Matching and Privacy Protection Act Agreement; and
5. In compliance with the requirements of the "Electronic Information Exchange Security Requirements and Procedures for State and Local Agencies Exchanging Electronic Information with the Social Security Administration," (last updated July 2015) Attachment 4 to the IEA/F, as periodically updated by SSA, the State Agency has not made any changes in the following areas that could potentially affect the security of SSA data:
  - General System Security Design and Operating Environment
  - System Access Control
  - Automated Audit Trail
  - Monitoring and Anomaly Detection
  - Management Oversight
  - Data and Communications Security
  - Contractors of Electronic Information Exchange Partners

2017 IEA CERTIFICATION OF COMPLIANCE  
(IEA/F)

The State Agency will submit an updated Security Design Plan at least 30 days prior to making any changes to the areas listed above and provide updated contractor employee lists before allowing new employees' access to SSA provided data.

6. The State Agency agrees that use of computer technology to transfer the data is more economical, efficient, and faster than using a manual process. As such, the State Agency will continue to utilize data exchange to obtain data it needs to administer the programs for which it is authorized, under the IEA/F. Further, before directing an individual to an SSA field office to obtain data, the State Agency will verify that the information it submitted to SSA via data exchange is correct, and verify with the individual that the information he/she supplied is accurate. The use of electronic data exchange expedites program administration and limits SSA field office traffic.

The signatory below warrants and represents that he or she is a representative of the State Agency duly authorized to make this certification on behalf of the State Agency.

(CMPPA)

## EXHIBIT 2

COMPUTER MATCHING AND PRIVACY PROTECTION ACT AGREEMENT  
BETWEEN  
THE SOCIAL SECURITY ADMINISTRATION  
AND  
THE HEALTH AND HUMAN SERVICES AGENCY  
OF CALIFORNIA

### I. Purpose and Legal Authority

#### A. Purpose

This Computer Matching and Privacy Protection Act (CMPPA) Agreement (Agreement) between the Social Security Administration (SSA) and the Health and Human Services Agency of California (State Agency) sets forth the terms and conditions governing disclosures of records, information, or data (collectively referred to herein as “data”) made by SSA to the State Agency that administers federally funded benefit programs, including those under various provisions of the Social Security Act (Act), such as section 1137 (42 U.S.C. § 1320b-7), as well as the state-funded state supplementary payment programs under Title XVI of the Act. The terms and conditions of this Agreement ensure that SSA makes such disclosures of data, and the State Agency uses such disclosed data, in accordance with the requirements of the Privacy Act of 1974, as amended by the CMPPA of 1988, 5 U.S.C. § 552a.

Under section 1137 of the Act, the State Agency is required to use an income and eligibility verification system to administer specified federally funded benefit programs, including the state-funded state supplementary payment programs under Title XVI of the Act. To assist the State Agency in determining entitlement to and eligibility for benefits under those programs, as well as other federally funded benefit programs, SSA discloses certain data about applicants (and in limited circumstances, members of an applicant’s household), for state benefits from SSA Privacy Act Systems of Records (SOR) and verifies the Social Security numbers (SSN) of the applicants.

#### B. Legal Authority

SSA’s authority to disclose data and the State Agency’s authority to collect, maintain, and use data protected under SSA SORs for specified purposes is:

- Sections 453, 1106(b), and 1137 of the Act (42 U.S.C. §§ 653, 1306(b), and 1320b-7) (income and eligibility verification data);
- 26 U.S.C. § 6103(l)(7) and (8) (tax return data);
- Section 202(x)(3)(B)(iv) of the Act (42 U.S.C. § 402(x)(3)(B)(iv)) and Section 1611(e)(1)(I)(iii) of the Act (42 U.S.C. § 1382(e)(1)(I)(iii)) (prisoner data);

- Section 205(r)(3) of the Act (42 U.S.C. § 405(r)(3)) and the Intelligence Reform and Terrorism Prevention Act of 2004, Pub. L. 108-458, § 7213(a)(2) (death data);
- Sections 402, 412, 421, and 435 of Pub. L. 104-193 (8 U.S.C. §§ 1612, 1622, 1631, and 1645) (quarters of coverage data);
- Children's Health Insurance Program Reauthorization Act of 2009 (CHIPRA), Pub. L. 111-3 (citizenship data); and
- Routine use exception to the Privacy Act, 5 U.S.C. § 552a(b)(3) (data necessary to administer other programs compatible with SSA programs).

This Agreement further carries out section 1106(a) of the Act (42 U.S.C. § 1306), the regulations promulgated pursuant to that section (20 C.F.R. Part 401), the Privacy Act of 1974 (5 U.S.C. § 552a), as amended by the CMPPA, related Office of Management and Budget (OMB) guidelines, the Federal Information Security Management Act of 2002 (FISMA) (44 U.S.C. § 3541, et seq.), as amended by the Federal Information Security Modernization Act of 2014 (Pub. L. 113-283); and related National Institute of Standards and Technology (NIST) guidelines, which provide the requirements that the State Agency must follow with regard to use, treatment, and safeguarding of data.

## II. Scope

- A. The State Agency will comply with the terms and conditions of this Agreement and the Privacy Act, as amended by the CMPPA.
- B. The State Agency will execute an Information Exchange Agreement (IEA) with SSA, documenting additional terms and conditions applicable to those specific data exchanges, including the particular benefit programs administered by the State Agency, the data elements that will be disclosed, and the data protection requirements implemented to assist the State Agency in the administration of those programs.
- C. The State Agency will use the SSA data governed by this Agreement to determine entitlement and eligibility of individuals for one or more of the following programs, which are specifically identified in the IEA:
  1. Temporary Assistance to Needy Families (TANF) program under Part A of Title IV of the Act;
  2. Medicaid provided under an approved State plan or an approved waiver under Title XIX of the Act;
  3. State Children's Health Insurance Program (CHIP) under Title XXI of the Act, as amended by the Children's Health Insurance Program Reauthorization Act of 2009;

4. Supplemental Nutritional Assistance Program (SNAP) under the Food Stamp Act of 1977 (7 U.S.C. § 2011, et seq.);
  5. Women, Infants and Children Program (WIC) under the Child Nutrition Act of 1966 (42 U.S.C. § 1771, et seq.);
  6. Medicare Savings Programs (MSP) under 42 U.S.C. § 1396a(10)(E);
  7. Unemployment Compensation programs provided under a state law described in section 3304 of the Internal Revenue Code of 1954;
  8. Low Income Heating and Energy Assistance (LIHEAP or home energy grants) program under 42 U.S.C. § 8621;
  9. State-administered supplementary payments of the type described in section 1616(a) of the Act;
  10. Programs under a plan approved under Titles I, X, XIV, or XVI of the Act;
  11. Foster Care and Adoption Assistance under Title IV of the Act;
  12. Child Support Enforcement programs under section 453 of the Act (42 U.S.C. § 653);
  13. Other applicable federally funded programs administered by the State Agency under Titles I, IV, X, XIV, XVI, XVIII, XIX, XX, and XXI of the Act; and
  14. Any other federally funded programs administered by the State Agency that are compatible with SSA's programs.
- D. The State Agency will ensure that SSA data disclosed for the specific purpose of administering a particular federally funded benefit program is used only to administer that program.

### III. Justification and Expected Results

#### A. Justification

This Agreement and related data exchanges with the State Agency are necessary for SSA to assist the State Agency in its administration of federally funded benefit programs by providing the data required to accurately determine entitlement and eligibility of individuals for benefits provided under these programs. SSA uses computer technology to transfer the data because it is more economical, efficient, and faster than using manual processes.

#### B. Expected Results

The State Agency will use the data provided by SSA to improve public service and program efficiency and integrity. The use of SSA data expedites the application process and ensures that benefits are awarded only to applicants that satisfy the State Agency's program criteria. A cost-benefit analysis for the exchange made under this Agreement is not required in accordance with the determination by the SSA Data Integrity Board (DIB) to waive such analysis pursuant to 5 U.S.C. § 552a(u)(4)(B).

**IV. Record Description****A. Systems of Records (SOR)**

SSA SORs used for purposes of the subject data exchanges include:

- 60-0058 -- Master Files of SSN Holders and SSN Applications;
- 60-0059 -- Earnings Recording and Self-Employment Income System;
- 60-0090 -- Master Beneficiary Record;
- 60-0103 -- Supplemental Security Income Record (SSR) and Special Veterans Benefits (SVB);
- 60-0269 -- Prisoner Update Processing System (PUPS); and
- 60-0321 -- Medicare Part D and Part D Subsidy File.

The State Agency will only use the tax return data contained in **SOR 60-0059** (Earnings Recording and Self-Employment Income System) in accordance with 26 U.S.C. § 6103.

**B. Data Elements**

Data elements disclosed in computer matching governed by this Agreement are Personally Identifiable Information (PII) from specified SSA SORs, including names, SSNs, addresses, amounts, and other information related to SSA benefits and earnings information. Specific listings of data elements are available at:

<http://www.ssa.gov/dataexchange/>

**C. Number of Records Involved**

The maximum number of records involved in this matching activity is the number of records maintained in SSA's SORs listed above in Section IV.A.

**V. Notice and Opportunity to Contest Procedures****A. Notice to Applicants**

The State Agency will notify all individuals who apply for federally funded, state-administered benefits that any data they provide are subject to verification through computer matching with SSA. The State Agency and SSA will provide such notice through appropriate language printed on application forms or separate handouts.

**B. Notice to Beneficiaries/Recipients/Annuitants**

The State Agency will provide notice to beneficiaries, recipients, and annuitants under the programs covered by this Agreement informing them of ongoing computer matching with SSA. SSA will provide such notice through publication in the Federal Register and periodic mailings to all beneficiaries, recipients, and annuitants describing SSA's matching activities.

**C. Opportunity to Contest**

The State Agency will not terminate, suspend, reduce, deny, or take other adverse action against an applicant for or recipient of federally funded, state-administered benefits based on data disclosed by SSA from its SORs until the individual is notified in writing of the potential adverse action and provided an opportunity to contest the planned action. "Adverse action" means any action that results in a termination, suspension, reduction, or final denial of eligibility, payment, or benefit. Such notices will:

1. Inform the individual of the match findings and the opportunity to contest these findings;
2. Give the individual until the expiration of any time period established for the relevant program by a statute or regulation for the individual to respond to the notice. If no such time period is established by a statute or regulation for the program, a 30-day period will be provided. The time period begins on the date on which notice is mailed or otherwise provided to the individual to respond; and
3. Clearly state that, unless the individual responds to the notice in the required time period, the State Agency will conclude that the SSA data are correct and will effectuate the planned action or otherwise make the necessary adjustment to the individual's benefit or entitlement.

**VI. Records Accuracy Assessment and Verification Procedures**

Pursuant to 5 U.S.C. § 552a(p)(1)(A)(ii), SSA's DIB has determined that the State Agency may use SSA's benefit data without independent verification. SSA has independently assessed the accuracy of its benefits data to be more than 99 percent accurate when the benefit record is created.

Prisoner and death data, some of which is not independently verified by SSA, does not have the same degree of accuracy as SSA's benefit data. Therefore, the State Agency must independently verify these data through applicable State verification procedures and the notice and opportunity to contest procedures specified in Section V of this Agreement before taking any adverse action against any individual.

Based on SSA's Office of Quality Review "Fiscal Year 2014 Enumeration Accuracy Report," the SSA Enumeration System database (the Master Files of SSN Holders and SSN Applications System) used for SSN matching is 99 percent accurate for records updated by SSA employees.

Individuals applying for SSNs report their citizenship status at the time they apply for their SSNs. There is no obligation for an individual to report to SSA a change in his or her immigration status until he or she files for a Social Security benefit. The State Agency must independently verify citizenship data through applicable State verification procedures and the notice and opportunity to contest procedures specified in Section V of this Agreement before taking any adverse action against any individual.

#### **VII. Disposition and Records Retention of Matched Items**

- A. The State Agency will retain all data received from SSA to administer programs governed by this Agreement only for the required processing times for the applicable federally funded benefit programs and will then destroy all such data.
- B. The State Agency may retain SSA data in hardcopy to meet evidentiary requirements, provided that they retire such data in accordance with applicable state laws governing the State Agency's retention of records.
- C. The State Agency may use any accretions, deletions, or changes to the SSA data governed by this Agreement to update their master files of federally funded, state-administered benefit program applicants and recipients and retain such master files in accordance with applicable state laws governing the State Agency's retention of records.
- D. The State Agency may not create separate files or records comprised solely of the data provided by SSA to administer programs governed by this Agreement.
- E. SSA will delete electronic data input files received from the State Agency after it processes the applicable match. SSA will retire its data in accordance with the Federal Records Retention Schedule (44 U.S.C. § 3303a).

#### **VIII. Security Procedures**

SSA and the State Agency will comply with the security and safeguarding requirements of the Privacy Act, as amended by the CMPPA, related OMB guidelines, FISMA, related NIST guidelines, and the current revision of Internal Revenue Service (IRS) Publication 1075, *Tax Information Security Guidelines for Federal, State and Local Agencies*, available at <http://www.irs.gov>. In addition, SSA

and the State Agency will have in place administrative, technical, and physical safeguards for the matched data and results of such matches. Additional administrative, technical, and physical security requirements governing all data SSA provides electronically to the State Agency, including SSA's *Electronic Information Exchange Security Requirements and Procedures for State and local Agencies Exchanging Electronic Information with SSA*, as well as specific guidance on safeguarding and reporting responsibilities for PII, are set forth in the IEAs.

SSA has the right to monitor the State Agency's compliance with FISMA, the terms of this Agreement, and the IEA and to make onsite inspections of the State Agency for purposes of auditing compliance, if necessary, during the lifetime of this Agreement or of any extension of this Agreement. This right includes onsite inspection of any entity that receives SSA information from the State Agency under the terms of this Agreement, if SSA determines it is necessary.

#### **IX. Records Usage, Duplication, and Redisclosure Restrictions**

- A. The State Agency will use and access SSA data and the records created using that data only for the purpose of verifying eligibility for the specific federally funded benefit programs identified in the IEA.
- B. The State Agency will comply with the following limitations on use, duplication, and redisclosure of SSA data:
  1. The State Agency will not use or redisclose the data disclosed by SSA for any purpose other than to determine eligibility for, or the amount of, benefits under the state-administered income/health maintenance programs identified in this Agreement.
  2. The State Agency will not extract information concerning individuals who are neither applicants for, nor recipients of, benefits under the state-administered income/health maintenance programs identified in this Agreement. In limited circumstances that are approved by SSA, the State Agency may extract information about an individual other than the applicant/recipient when the applicant/recipient has provided identifying information about the individual and the individual's income or resources affect the applicant's/recipient's eligibility for such program.
  3. The State Agency will not disclose to an applicant/recipient information about another individual (i.e., an applicant's household member) without the written consent from the individual to whom the information pertains.
  4. The State Agency will use the Federal tax information (FTI) disclosed by SSA only to determine individual eligibility for, or the amount of, assistance under a state plan pursuant to section 1137 programs and child support enforcement

## EXHIBIT 2

8

programs in accordance with 26 U.S.C. § 6103(l)(7) and (8). The State Agency receiving FTI will maintain all FTI from IRS in accordance with 26 U.S.C. § 6103(p)(4) and the IRS Publication 1075. Contractors and agents acting on behalf of the State Agency will only have access to tax return data where specifically authorized by 26 U.S.C. § 6103 and the current revision IRS Publication 1075.

5. The State Agency will use the citizenship status data disclosed by SSA only to determine entitlement of new applicants to: (a) the Medicaid program and CHIP pursuant to CHIPRA, Pub. L. 111-3; or (b) federally funded, state-administered health or income maintenance programs approved by SSA. The State Agency will further comply with additional terms and conditions regarding use of citizenship data, as set forth in the State Agency's IEA.
6. The State Agency will restrict access to the data disclosed by SSA to only those authorized State employees, contractors, and agents who need such data to perform their official duties in connection with the purposes identified in this Agreement.
7. The State Agency will enter into a written agreement with each of its contractors and agents who need SSA data to perform their official duties whereby such contractor or agent agrees to abide by all relevant Federal laws, restrictions on access, use, and disclosure, and security requirements in this Agreement. The State Agency will provide its contractors and agents with copies of this Agreement, related IEAs, and all related attachments before initial disclosure of SSA data to such contractors and agents. Prior to signing this Agreement, and thereafter at SSA's request, the State Agency will obtain from its contractors and agents a current list of the employees of such contractors and agents with access to SSA data and provide such lists to SSA.
8. If the State Agency is authorized or required – pursuant to an applicable law, regulation, or intra-governmental documentation – to provide SSA data to another State or local government entity for the administration of the federally funded, state-administered programs covered by this Agreement, the State Agency must ensure that the State or local government entity, including its employees, abides by all relevant Federal laws, restrictions on access, use, and disclosure, and security requirements in this Agreement and the IEA. At SSA's request, the State Agency will provide copies of any applicable law, regulation, or intra-governmental documentation that authorizes the intra-governmental relationship with the State or local government entity. Upon request from SSA, the State Agency will also establish how it ensures that State or local government entity complies with the terms of this Agreement and the IEA.
9. The State Agency's employees, contractors, and agents who access, use, or disclose SSA data in a manner or purpose not authorized by this Agreement

may be subject to civil and criminal sanctions pursuant to applicable Federal statutes.

10. The State Agency will conduct triennial compliance reviews of its contractor(s) and agent(s) no later than three years after the initial approval of the security certification to SSA. The State Agency will share documentation of its recurring compliance reviews with its contractor(s) and agent(s) with SSA. The State Agency will provide documentation to SSA during its scheduled compliance and certification reviews or upon request.
- C. The State Agency will not duplicate in a separate file or disseminate, without prior written permission from SSA, the data governed by this Agreement for any purpose other than to determine entitlement to, or eligibility for, federally funded benefits. The State Agency proposing the redisclosure must specify in writing to SSA what data are being disclosed, to whom, and the reasons that justify the redisclosure. SSA will not give permission for such redisclosure unless the redisclosure is required by law or essential to the conduct of the matching program and authorized under a routine use. To the extent SSA approves the requested redisclosure, the State Agency will ensure that any entity receiving the redisclosed data will comply with the procedures and limitations on use, duplication, and redisclosure of SSA data, as well as all administrative, technical, and physical security requirements governing all data SSA provides electronically to the State Agency including specific guidance on safeguarding and reporting responsibilities for PII, as set forth in this Agreement and the accompanying IEAs.

#### **X. Comptroller General Access**

The Comptroller General (the Government Accountability Office) may have access to all records of the State Agency that the Comptroller General deems necessary to monitor and verify compliance with this Agreement in accordance with 5 U.S.C. § 552a(o)(1)(K).

#### **XI. Duration, Modification, and Termination of the Agreement**

##### **A. Duration**

1. This Agreement is effective from July 1, 2017 (Effective Date) through December 31, 2018 (Expiration Date).
2. In accordance with the CMPPA, SSA will: (a) publish a Computer Matching Notice in the Federal Register at least 30 days prior to the Effective Date; (b) send required notices to the Congressional committees of jurisdiction under 5 U.S.C. § 552a(o)(2)(A)(i) at least 40 days prior to the

Effective Date; and (c) send the required report to OMB at least 40 days prior to the Effective Date.

3. Within 3 months prior the Expiration Date, the SSA DIB may, without additional review, renew this Agreement for a period not to exceed 12 months, pursuant to 5 U.S.C. § 552a(o)(2)(D), if:
  - the applicable data exchange will continue without any change; and
  - SSA and the State Agency certify to the DIB in writing that the applicable data exchange has been conducted in compliance with this Agreement.
4. If either SSA or the State Agency does not wish to renew this Agreement, it must notify the other party of its intent not to renew at least 3 months prior to the Expiration Date.

**B. Modification**

Any modification to this Agreement must be in writing, signed by both parties, and approved by the SSA DIB.

**C. Termination**

The parties may terminate this Agreement at any time upon mutual written consent of both parties. Either party may unilaterally terminate this Agreement upon 90 days advance written notice to the other party; such unilateral termination will be effective 90 days after the date of the notice, or at a later date specified in the notice.

SSA may immediately and unilaterally suspend the data flow or terminate this Agreement if SSA determines, in its sole discretion, that the State Agency has violated or failed to comply with this Agreement.

**XII. Reimbursement**

In accordance with section 1106(b) of the Act, the Commissioner of SSA has determined not to charge the State Agency the costs of furnishing the electronic data from the SSA SORs under this Agreement.

**XIII. Disclaimer**

SSA is not liable for any damages or loss resulting from errors in the data provided to the State Agency under any IEAs governed by this Agreement. Furthermore, SSA

is not liable for any damages or loss resulting from the destruction of any materials or data provided by the State Agency.

The performance or delivery by SSA of the goods and/or services described herein and the timeliness of said delivery are authorized only to the extent that they are consistent with proper performance of the official duties and obligations of SSA and the relative importance of this request to others. If for any reason SSA delays or fails to provide services, or discontinues the services or any part thereof, SSA is not liable for any damages or loss resulting from such delay or for any such failure or discontinuance.

**Systems Security Requirements for SWA Access  
to SSA Information Through the ICON System**

---

## EXHIBIT 2

### **Systems Security Requirements for SWA Access to SSA Information Through the ICON System**

#### **A. General Systems Security Standards**

SWA's that request and receive information from SSA through the ICON system must comply with the following general systems security standards concerning access to and control of SSA information. The SWA must restrict access to the information to authorized employees who need it to perform their official duties. Similar to IRS requirements, information retrieved from SSA must be stored in a manner that is physically and electronically secure from access by unauthorized persons during both duty and non-duty hours, or when not in use. SSA information must be processed under the immediate supervision and control of authorized personnel. The SWA must employ both physical and electronic safeguards to ensure that unauthorized personnel cannot retrieve SSA information by means of computer, remote terminal or other means.

All persons who will have access to any SSA information must be advised of the confidentiality of the information, the safeguards required to protect the information, and the civil and criminal sanctions for non-compliance contained in the applicable Federal and State laws. SSA may, at its discretion, make on-site inspections or other provisions to ensure that adequate safeguards are being maintained by the SWA.

#### **B. System Security Requirements for SWA's**

SWA's that receive SSA information through the ICON system must comply with the following systems security requirements which must be met before DOL will approve a request from an SWA for online access to SSA information through the ICON system. The SWA system security design and procedures must conform to these requirements. They must be documented by the SWA and subsequently certified by either DOL or by an Independent Verification and Validation (IV&V) contractor prior to initiating transactions to and from SSA through the ICON.

No specific format for submitting this documentation to DOL is required. However, regardless of how it is presented, the information should be submitted to DOL in both hardcopy and electronic format, and the hardcopy should be submitted over the signature of an official representative of the SWA. Written documentation should address each of the following security control areas:

## EXHIBIT 2

### **1. General System Security Design and Operating Environment**

The SWA must provide a written description of its' system configuration and security features. This should include the following:

- a. A general description of the major hardware, software and communications platforms currently in use, including a description of the system's security design features and user access controls; and
- b. A description of how SSA information will be obtained by and presented to SWA users, including sample computer screen presentation formats and an explanation of whether the SWA system will request information from SSA by means of systems generated or user initiated transactions; and
- c. A description of the organizational structure and relationships between systems managers, systems security personnel, and users, including an estimate of the number of users that will have access to SSA data within the SWA system and an explanation of their job descriptions.

#### ***Meeting this Requirement***

SWA's must explain in their documentation the overall design and security features of their system. During onsite certification, the IV&V contractor, or other certifier, will use the SWA's design documentation and discussion of the additional systems security requirements (following) as their guide for conducting the onsite certification and for verifying that the SWA systems and procedures conform to SSA requirements.

Following submission to the DOL in connection with the initial certification process, the documentation must be updated any time significant architectural changes are made to the system or to its' security features. During its future compliance reviews (see below), the SSA will ask to review the updated design documentation as needed.

### **2. Automated Audit Trail**

SWA's receiving SSA information through the ICON system must implement and maintain a fully automated audit trail system capable of data collection, data retrieval and data storage. At a minimum, data collected through the audit trail system must associate each query transaction to its initiator and relevant business purpose (i.e. the SWA client record for which SSA data was requested), and each transaction must be time and date stamped. Each query transaction must be stored

## EXHIBIT 2

in the audit file as a separate record, not overlaid by subsequent query transactions.

Access to the audit file must be restricted to authorized users with a “need to know” and audit file data must be unalterable (read only) and maintained for a minimum of three (preferably seven) years. Retrieval of information from the automated audit trail may be accomplished online or through batch access. This requirement must be met before DOL will approve the SWA’s request for access to SSA information through the ICON system.

If SSA-supplied information is retained in the SWA system, or if certain data elements within the SWA system will indicate to users that the information has been verified by SSA, the SWA system also must capture an audit trail record of any user who views SSA information stored within the SWA system. The audit trail requirements for these inquiry transactions are the same as those outlined above for SWA transactions requesting information directly from SSA.

### ***Meeting this Requirement***

The SWA must include in their documentation a description of their audit trail capability and a discussion of how it conforms to SSA’s requirements. During onsite certification, the IV&V contractor, or other certifier, will request a demonstration of the system’s audit trail and retrieval capability. The SWA must be able to identify employee’s who initiate online requests for SSA information (or, for systems generated transaction designs, the SWA case that triggered the transaction), the time and date of the request, and the purpose for which the transaction was originated. The certifier, or IV&V contractor, also will request a demonstration of the system’s audit trail capability for tracking the activity of SWA employees that are permitted to view SSA supplied information within the SWA system, if applicable.

During its future compliance reviews (see below), the SSA also will test the SWA audit trail capability by requesting verification of a sample of transactions it has processed from the SWA after implementation of access to SSA information through the ICON system.

### **3. System Access Control**

The SWA must utilize and maintain technological (logical) access controls that limit access to SSA information to only those users authorized for such access based on their official duties. The SWA must use a recognized user access security software package (e.g. RAC-F, ACF-2, TOP SECRET) or an equivalent security software design. The access control software must utilize personal identification numbers (PIN) and passwords (or biometric identifiers) in combination with the user’s system identification code. The SWA must have

## EXHIBIT 2

management control and oversight of the function of authorizing individual user access to SSA information, and over the process of issuing and maintaining access control PINs and passwords for access to the SWA system.

### ***Meeting this Requirement***

The SWA must include in their documentation a description of their technological access controls, including identifying the type of software used, an overview of the process used to grant access to protected information for workers in different job categories, and a description of the function responsible for PIN/password issuance and maintenance.

During onsite certification, the IV&V contractor, or other certifier, will meet with the individual(s) responsible for these functions to verify their responsibilities in the SWA's access control process and will observe a demonstration of the procedures for logging onto the SWA system and for accessing SSA information.

### **4. Monitoring and Anomaly Detection**

The SWA's system must include the capability to prevent employees from browsing (i.e. unauthorized access or use of SSA information) SSA records for information not related to an SWA client case (e.g. celebrities, SWA employees, relatives, etc.) If the SWA system design is transaction driven (i.e. employees cannot initiate transactions themselves, rather, the SWA system triggers the transaction to SSA), or if the design includes a "permission module" (i.e. the transaction requesting information from SSA cannot be triggered by an SWA employee unless the SWA system contains a record containing the client's Social Security Number), then the SWA needs only minimal additional monitoring and anomaly detection. If such designs are used, the SWA only needs to monitor any attempts by their employees to obtain information from SSA for clients not in their client system, or attempts to gain access to SSA data within the SWA system by employees not authorized to have access to such information.

If the SWA design does not include either of the security control features described above, then the SWA must develop and implement compensating security controls to prevent their employees from browsing SSA records. These controls must include monitoring and anomaly detection features, either systematic, manual, or a combination thereof. Such features must include the capability to detect anomalies in the volume and/or type of queries requested by individual SWA employees, and systematic or manual procedures for verifying that requests for SSA information are in compliance with valid official business purposes. The SWA system must produce reports providing SWA management and/or supervisors with the capability to appropriately monitor user activity, such as:

## EXHIBIT 2

- User ID exception reports

This type of report captures information about users who enter incorrect user ID's when attempting to gain access to the system or to the transaction that initiates requests for information from SSA, including failed attempts to enter a password.

- Inquiry match exception reports

This type of report captures information about users who may be initiating transactions for Social Security Numbers that have no client case association within the SWA system.

- System error exception reports

This type of report captures information about users who may not understand or be following proper procedures for access to SSA information through the ICON system.

- Inquiry activity statistical reports

This type of report captures information about transaction usage patterns among authorized users, which would provide SWA management a tool for monitoring typical usage patterns compared to extraordinary usage.

The SWA must have a process for distributing these monitoring and exception reports to appropriate local managers/supervisors, or to local security officers, to ensure that the reports are used by those whose responsibilities include monitoring the work of the authorized users.

### ***Meeting this Requirement***

The SWA must explain in their documentation how their system design will monitor and/or prevent their employees from browsing SSA information. If the design is based on a "permission module" (see above), a similar design, or is transaction driven (i.e. no employee initiated transactions) then the SWA does not need to implement additional systematic and/or managerial oversight procedures to monitor their employees access to SSA information. The SWA only needs to monitor user access control violations. The documentation should clearly explain how the system design will prevent SWA employees from browsing SSA records.

If the SWA system design permits employee initiated transactions that are uncontrolled (i.e. no systematically enforced relationship to an SWA client), then the SWA must develop and document the monitoring and anomaly detection process they will employ to deter their employees from browsing SSA

## EXHIBIT 2

information. The SWA should include sample report formats demonstrating their capability to produce the types of reports described above, and the SWA should include a description of the process that will be used to distribute these reports to managers/supervisors, and the management controls that will ensure the reports are used for their intended purpose.

During onsite certification, the IV&V contractor, or other certifier, will request a demonstration of the SWA's monitoring and anomaly detection capability.

- If the design is based on a permission module or similar design, or is transaction driven, the SWA will demonstrate how the system triggers requests for information from SSA.
- If the design is based on a permission module, the SWA will demonstrate the process by which requests for SSA information are prevented for Social Security Numbers not present in the SWA system (e.g. by attempting to obtain information from SSA using at least one, randomly created, fictitious number not known to the SWA system.)
- If the design is based on systematic and/or managerial monitoring and oversight, the SWA will provide copies of anomaly detection reports and demonstrate the report production capability.

During onsite certification, the IV&V contractor, or other certifier, also will meet with a sample of managers and/or supervisors responsible for monitoring ongoing compliance to assess their level of training to monitor their employee's use of SSA information, and for reviewing reports and taking necessary action.

### **5. Management Oversight and Quality Assurance**

The SWA must establish and/or maintain ongoing management oversight and quality assurance capabilities to ensure that only authorized employees have access to SSA information through the ICON system, and to ensure there is ongoing compliance with the terms of the SWA's data exchange agreement with SSA. The management oversight function must consist of one or more SWA management officials whose job functions include responsibility for assuring that access to and use of SSA information is appropriate for each employee position type for which access is granted.

This function also should include responsibility for assuring that employees granted access to SSA information receive adequate training on the sensitivity of the information, safeguards that must be followed, and the penalties for misuse, and should perform periodic self-reviews to monitor ongoing usage of the online access to SSA information. In addition, there should be the capability to randomly sample work activity involving online requests for SSA information to

## EXHIBIT 2

determine whether the requests comply with these guidelines. These functions should be performed by SWA employees whose job functions are separate from those who request or use information from SSA.

### ***Meeting this Requirement***

The SWA must document that they will establish and/or maintain ongoing management oversight and quality assurance capabilities for monitoring the issuance and maintenance of user ID's for online access to SSA information, and oversight and monitoring of the use of SSA information within the SWA business process. The outside entity should describe how these functions will be performed within their organization and identify the individual(s) or component(s) responsible for performing these functions.

During onsite certification, the IV&V contractor, or other certifier, will meet with the individual(s) responsible for these functions and request a description of how these responsibilities will be carried out.

## **6. Security Awareness and Employee Sanctions**

The SWA must establish and/or maintain an ongoing function that is responsible for providing security awareness training for employees that includes information about their responsibility for proper use and protection of SSA information, and the possible sanctions for misuse. Security awareness training should occur periodically or as needed, and should address the Privacy Act and other Federal and State laws governing use and misuse of protected information. In addition, there should be in place a series of administrative procedures for sanctioning employees who violate these laws through the unlawful disclosure of protected information.

### ***Meeting this Requirement***

The SWA must document that they will establish and/or maintain an ongoing function responsible for providing security awareness training for employees that includes information about their responsibility for proper use and protection of SSA information, and the possible sanctions for misuse of SSA information. The SWA should describe how these functions will be performed within their organization, identify the individual(s) or component(s) responsible for performing the functions, and submit copies of existing procedures, training material and employee acknowledgment statements.

During onsite certification, the IV&V contractor, or other certifier, will meet with the individuals responsible for these functions and request a description of how these responsibilities are carried out. The IV&V contractor, or other certifier, also will meet with a sample of SWA employees to assess their level of training and

## EXHIBIT 2

understanding of the requirements and potential sanctions applicable to the use and misuse of SSA information.

### **7. Data and Communications Security**

The encryption method employed must meet acceptable standards designated by the National Institute of Standards and Technology (NIST). The recommended encryption method to secure data in transport for use by SSA is the Advanced Encryption Standard (AES) or triple DES (DES3) if AES is unavailable.

#### **D. Onsite Systems Security Certification Review**

The SWA must obtain and participate in an onsite review and compliance certification of their security infrastructure and implementation of these security requirements prior to being permitted to submit online transaction to SSA through the ICON system. DOL will require an initial onsite systems security certification review to be performed by either an independent IV&V contractor, or other DOL approved certifier. The onsite certification will address each of the requirements described above and will include, where appropriate, a demonstration of the SWA's implementation of each requirement. The review will include a walkthrough of the SWA's data center to observe and document physical security safeguards, a demonstration of the SWA's implementation of online access to SSA information through the ICON system, and discussions with managers/supervisors. The IV&V contractor, or other certifier, also will visit at least one of the SWA's field offices to discuss the online access to SSA information with a sample of line workers and managers to assess their level of training and understanding of the proper use and protection of SSA information.

The IV&V contractor, or other certifier, will separately document and certify SWA compliance with each SSA security requirement. To fully comply with SSA's security requirements and be certified to connect to SSA through the ICON system, the SWA must submit to DOL a complete package of documentation as described above and a complete certification from an independent IV&V contractor, or other DOL approved certifier, that the SWA system design and infrastructure is in agreement with the SWA documentation and consistent with SSA requirements. Any unresolved or unimplemented security control features must be resolved by the SWA before DOL will authorize their connection to SSA through the ICON system.

Following initial certification and authorization from DOL to connect to SSA through the ICON system, SSA is responsible for future systems security compliance reviews. SSA conducts such reviews approximately once every three years, or as needed if there is a significant change in the SWA's computing platform, or if there is a violation of any of SSA's systems security requirements or an unauthorized disclosure of SSA information by the SWA. The format of those reviews generally consists of

## EXHIBIT 2

reviewing and updating the SWA compliance with the systems security requirements described above.

### 1. Introduction

Federal standards require the Social Security Administration (SSA) to maintain oversight of the information it provides to its **Electronic Information Exchange Partners (EIEPs)**. EIEPs must protect the information with efficient and effective security controls. EIEPs are entities that have electronic information exchange agreements with the agency.

This document consistently references the concept of **Electronic Information Exchange Partners (EIEP)**; however, our **Compliance Review Questionnaire (CRQ)** and **Security Design Plan (SDP)** documents will use the terms “state agency” or “state agency, contractor(s), and agent(s)” for clarity. Most state officials and agreement signatories are not familiar with the acronym EIEP; therefore, SSA will continue to use the terms “state agency” or “state agency, contractor(s), and agent(s)” in the same manner as the Computer Matching and Privacy Protection Act (CMPPA) and Information Exchange Agreements (IEA). This allows for easier alignment and mapping back to our data exchange agreements between state agencies and SSA. It will also provide a more “user-friendly” experience for the state officials who complete these forms on behalf of their state agencies.

The objective of this document is twofold. The first is to ensure that SSA can properly certify EIEPs as compliant with SSA security standards, requirements, and procedures. The second is to ensure that EIEPs adequately safeguard electronic information provided to them by SSA.

This document helps EIEPs understand the criteria that SSA uses when evaluating and certifying the system design and security features used for electronic access to SSA-provided information. Finally, this document provides the framework and general procedures for SSA’s Security Certification and Compliance Review Programs.

The primary statutory authority that supports the information contained in this document is the **Federal Information Security Management Act (FISMA)**. FISMA became law as part of the **Electronic Government Act of 2002**. FISMA is the United States legislation that defines a comprehensive framework to protect government information, operations, and assets against natural or manufactured threats. FISMA assigned the **National Institute of Standards and Technology (NIST)**, a branch of the U.S. Department of Commerce, the responsibility to outline and define compliance with FISMA. Unless otherwise stated, all of SSA’s requirements mirror the NIST-defined management, operational, and technical controls listed in the various NIST Special Publications (SP) libraries of technical guidance documents.

To gain electronic access to SSA-provided information, under the auspices of a data exchange agreement, EIEP’s must comply with SSA’s most current **Technical System Security Requirements** (hereafter referred to as **TSSRs**) to gain access to SSA-provided information. This document is **synonymous** with the **Electronic Information Exchange Security Requirements and Procedures for State and**

## EXHIBIT 2

**Local Agencies Exchanging Electronic Information with the Social Security Administration** in the agreements. The TSSR specifies minimally acceptable levels of security standards and controls to protect SSA-provided information. SSA maintains the TSSR as a living document—subject to change—that addresses emerging threats, new attack methods and the development of new technology that potentially places SSA-provided information at risk. EIEPs may proactively ensure their ongoing compliance to the TSSR by periodically requesting the most current version from SSA. SSA will work with EIEPs to resolve deficiencies, which result from updates to the TSSRs. SSA refers to this process as **Gap Analysis**. EIEPs may proactively ensure their ongoing compliance with the TSSRs by periodically requesting the most current TSSR package from their SSA Point of Contact (POC) from the data exchange agreement.

SSA's standard for categorization of information (Moderate) and information systems is to provide appropriate levels of security according to risk level. Additions, deletions, or modification of security controls directly affect the level of security and due diligence SSA requires EIEPs use to mitigate risks. The emergence of new threats, attack methods, and the development of new technology warrants frequent reviews and revisions to our TSSR. Consequently, EIEPs should expect SSA's TSSR to evolve in harmony with the industry.

### 2. Electronic Information Exchange (EIE) Definition

For discussion purposes herein, EIE is any electronic process in which SSA discloses information under its control to any third party for program or non-program purposes, without the specific consent of the subject individual or any agent acting on his or her behalf. EIE involves individual data transactions and data files processed within the programmatic systems of parties to electronic information sharing agreements with SSA. This includes direct terminal access (DTA) to SSA systems, batch processing, and variations thereof (e.g., online query) regardless of the systematic method used to accomplish the activity or to interconnect SSA with the EIEP.

### 3. Roles and Responsibilities

The SSA **Office of Information Security (OIS)** has agency-wide responsibility for interpreting, developing, and implementing security policy; providing security and integrity review requirements for all major SSA systems; managing SSA's fraud monitoring and reporting activities, developing and disseminating security training and awareness materials, and providing consultation and support for a variety of agency initiatives. SSA's security reviews ensure that external systems receiving information from SSA are secure and operate in a manner consistent with SSA's Information Technology (IT) security policies and in compliance with the terms of electronic data exchange agreements executed by SSA with outside entities. Within the context of SSA's security policies and the terms of the electronic data exchange

## EXHIBIT 2

agreements with SSA's EIEPs, SSA exclusively conducts and brings to closure initial security certifications and triennial security compliance reviews. This includes (but not limited to) any EIEP that processes, maintains, transmits, or stores SSA-provided information in accordance with pertinent Federal requirements.

- a. The SSA Regional **Data Exchange Coordinators** (DECs) serve as a bridge between SSA and EIEPs. DECs assist in coordinating data exchange security review activities with EIEPs; (e.g., providing points of contact with state agencies, assisting in setting up security reviews, etc.) DECs are also the first points of contact for states if an employee of a state agency or an employee of a state agency's contractor or agent becomes aware of suspected or actual loss of SSA-provided information.
- b. SSA requires **EIEPs** to adhere to the standards, requirements, and procedures, published in this TSSR document.
  - "Personally Identifiable Information (PII)," covered under several Federal laws and statutes, refers to specific information about an individual used to trace that individual's identity. Information such as his/her name, Social Security Number (SSN), date and place of birth, mother's maiden name, or biometric records, alone, or when combined with other personal or identifying information is linkable or lined to a specific individual's medical, educational, financial, and employment information.
  - The data (last 4 digits of the SSN) that SSA provides to its EIEPs for purposes of the Help America Vote Act (HAVA) does not identify a specific individual; therefore, is not "PII" as defined by the Act.
  - Both SSA and EIEPs must remain diligent in the responsibility for establishing *appropriate* management, operational, and technical safeguards to ensure the confidentiality, integrity, and availability of its records and to protect against any anticipated threats or hazards to their security or integrity.
- c. A State Transmission/Transfer Component (STC) is an organization that performs as an electronic information conduit or collection point for one of more other entities (also referred to as a hub). An STC must also adhere to the same management, operational and technical controls as SSA and the EIEP.

### 4. General Systems Security Standards

EIEPs that request and receive information electronically from SSA must comply with the following general systems security standards concerning access to and control of SSA-provided information.

***NOTE: EIEPs may not create separate files or records comprised solely of the information provided by SSA.***

1. EIEPs must ensure that means, methods, and technology used to process, maintain, transmit, or store SSA-provided information neither prevents nor impedes the EIEP's ability to:
  - safeguard the information in conformance with SSA requirements
  - efficiently investigate fraud, data breaches, or security events that involve SSA-provided information
  - detect instances of misuse or abuse of SSA-provided information

**For example, Utilization of cloud computing may have the potential to jeopardize an EIEP's compliance with the terms of their agreement or associated systems security requirements and procedures.**

2. The EIEP must use the electronic connection established between the EIEP and SSA only in support of the current agreement(s) between the EIEP and SSA.
3. The EIEP must use the software and/or devices provided to the EIEPs only in support of the current agreement(s) between the EIEPs and SSA.
4. SSA prohibits the EIEP from modifying any software or devices provided to the EIEPs by SSA.
5. EIEPs must ensure that SSA-provided information is not processed, maintained, transmitted, or stored in or by means of data communications channels, electronic devices, computers, or computer networks located in geographic or virtual areas not subject to U.S. law.
6. EIEPs must restrict access to the information to authorized users who need it to perform their official duties.

***NOTE: Contractors and agents (hereafter referred to as contractors) of the EIEP who process, maintain, transmit, or store SSA-provided information are held to the same security requirements as employees of the EIEP. Refer to the section '[Contractors of Electronic Information Exchange Partners in the Systems Security Requirements](#) for additional information.***

7. EIEPs must store information received from SSA in a manner that, at all times, is

## EXHIBIT 2

physically and electronically secure from access by unauthorized persons.

8. The EIEP must process SSA-provided information under the immediate supervision and control of authorized personnel.
9. EIEPs must employ both physical and technological barriers to prevent unauthorized retrieval of SSA-provided information via computer, remote terminal, or other means.
10. EIEPs must have formal PII incident response procedures. When faced with a security incident, caused by malware, unauthorized access, software issues, or acts of nature, the EIEP must be able to respond in a manner that protects SSA-provided information affected by the incident.
11. EIEPs must have an active and robust security awareness program, which is mandatory for all employees who access SSA-provided information.
12. EIEPs must advise employees with access to SSA-provided information of the confidential nature of the information, the safeguards required to protecting the information, and the civil and criminal sanctions for non-compliance contained in the applicable Federal and state laws.
13. In accordance with the National Institute of Standards and Technology (NIST) Special Publication (SP) on Contingency Planning requirements and recommendations, SSA requires EIEPs to document a senior management approved Contingency plan that includes a disaster recovery plan that addresses both natural disaster and cyber-attack situations.
14. SSA requires the Contingency Plan to include details regarding the organizational business continuity plan (BCP) and a business impact analyses (BIA) that address the security of SSA-provided information if a disaster occurs.
15. At its discretion, SSA or its designee must have the option to conduct onsite security reviews or make other provisions, to ensure that EIEPs maintain adequate security controls to safeguard the information we provide.

## 5. Systems Security Requirements

### 5.1 Overview

SSA's TSSR represent the current industry standard for security controls, safeguards, and countermeasures required for Federal information systems by Federal regulations, statutes, standards, and guidelines. Additionally, SSA's TSSR includes organizationally defined interpretations, policies, and procedures mandated by the authority of the Commissioner of Social Security in areas when or where other cited authorities may be silent or non-specific.

SSA must certify that the EIEP has implemented security controls that meet the requirements and work as intended, before the authorization to initiate transactions to and from SSA, through batch data exchange processes or online processes such as State Online Query (SOLQ) or Internet SOLQ (SOLQ-I).

The TSSR address management, operational, and technical controls regarding security safeguards to ensure only authorized disclosure and usage of SSA provided information used, maintained, transmitted, or stored by SSA's EIEPs. SSA requires EIEPs to maintain an organizational access control structure that adheres to a three-tiered best practices model. The SSA recommended model is "separation of duties," "need-to-know" and "least privilege."

SSA requires EIEPs to document and notify SSA prior to sharing SSA-provided information with another state entity, or to allow them direct access to their system. **This includes (but not limited to) law enforcement, other state agencies, and state organizations that perform audit, quality, or integrity functions.**

SSA recommends that the EIEP develop and publish a comprehensive Information Technology (IT) Systems Security Policy document that specifically addresses:

- 1) the classification of information processed and stored within the network,
- 2) management, operational, and technical controls to protect the information stored and processed within the network,
- 3) access to the various systems and subsystems within the network,
- 4) Security Awareness Training,

## EXHIBIT 2

- 5) Employee and End User Sanctions Policy,
- 6) Contingency Planning and Disaster Recovery
  
- 7) Incident Response Policy, and
  
- 8) The disposal of protected information and sensitive documents derived from the system or subsystems on the network.

### 5.2 General System Security Design and Operating Environment (Planning (PL) Family – (System Security Plan), Contingency Plan (CP) Family, Physical and Environmental (PE) Family, NIST SP 800-53 rev. 4)

In accordance with the NIST suite of Special Publications (SP) (e.g., 800-53, 800-34, etc.), SSA requires the EIEP to maintain policies, procedures, descriptions, and explanations of their overall system design, configuration, security features, and operational environment. They should include explanations of how they conform to SSA's TSSRs. The EIEPs General System Security design and Operating Environment must also address:

- a) the operating environment(s) in which the EIEP will utilize, maintain, store, and transmit SSA-provided information,
- b) the business process(es) in which the EIEP will use SSA-provided information,
- c) the physical safeguards employed to ensure that unauthorized personnel, the public or visitors to the agency cannot access SSA-provided information,
- d) details of how the EIEP keeps audit information pertaining to the use and access to SSA-provided information and associated applications readily available,
- e) electronic safeguards, methods, and procedures for protecting the EIEP's network infrastructure and for protecting SSA-provided information while in transit, in use within a process or application, and at rest ,
- f) a senior management approved Information System Contingency Plan (ISCP) that addresses both internal and external threats. SSA requires the ISCP to include details regarding the organizational business continuity plan (BCP) and a business impact analyses (BIA) that addresses the security of SSA-provided information if a disaster occurs. SSA recommends that state agencies perform disaster exercises at least once annually.,

## EXHIBIT 2

- g) how the EIEP prevents unauthorized retrieval of SSA-provided information by computer, remote terminal, or other means; including descriptions of security software other than access control software (e.g., security patch and anti-malware software installation and maintenance, etc.)
- h) how the configurations of devices (e.g., servers, workstations, portable devices) involving SSA-provided information complies with recognized industry standards (i.e. NIST SP's) and SSA's TSSR, and
- i) organizational structure of the agency, number of users, and all external entities that will have access to the system and/or application that displays, transmits, and/or application that displays, transmits and/or stores SSA-provided information.

Note: At its discretion, SSA or a third party (i.e. contractor) must have the option to conduct onsite security reviews or make other provisions, to ensure that EIEPs maintain adequate security controls to safeguard the information we provide.

**(THE REST OF THIS PAGE HAS BEEN LEFT BLANK INTENTIONALLY)**

## EXHIBIT 2

### 5.3 System Access Control (Access Control (AC) Family, NIST SP 800-53 rev. 4)

EIEPs must utilize and maintain technological (logical) access controls that limit access to SSA-provided information and associated transactions and functions to only those users, processes acting on behalf of authorized users, or devices (including other information systems) authorized for such access based on their official duties or purpose(s). EIEPs must employ a recognized user-access security software package (e.g., RAC-F, ACF-2, TOP SECRET, Active Directory, etc.) or a security software design, which is equivalent to such products. The access control software must employ and enforce (1) PIN/password, and/or (2) PIN/biometric identifier, and/or (3) SmartCard/biometric identifier, etc., (for authenticating users), (and lower case letters, numbers, and special characters; password phrases) for the user accounts of persons, processes, or devices whose functions require access privileges in excess of those of ordinary users.

The EIEP's password policies must require stringent password construction as supported by current NIST guidelines for the user accounts of persons, processes, or devices whose functions require access privileges above those of ordinary users. **SSA strongly recommends Two-Factor Authentication.**

The EIEP's implementation of the control software must comply with recognized industry standards. Password policies should enforce sufficient construction strength (length and complexity) to defeat or minimize risk-based identified vulnerabilities and ensure limitations for password repetition. Technical controls should enforce periodic password changes based on a risk-based standard (e.g., maximum password age of 90 days, minimum password age of 3 – 7 days) and enforce automatic disabling of user accounts that have been inactive for a specified period of time (e.g., 90 days).

The EIEP's password policies must require stringent password construction (e.g., passwords greater than eight characters in length requiring upper and lower case letters, numbers, and/or special characters; password phrases) for the user accounts of persons, processes, or devices whose functions require access privileges in excess of those of ordinary users.

## EXHIBIT 2

In addition, SSA has the following specific requirements in the area of Access Control:

1. Upon hiring or before granting access to SSA-provided information, EIEPs should verify the identities of any employees, contractors, and agents who will have access to SSA-provided information in accordance with the applicable agency or state's "personnel identity verification policy."
2. SSA requires that state agencies have a logical control feature that designates a maximum number of unsuccessful login attempts for agency workstations and devices that store or process SSA-provided information, in accordance with NIST guidelines. SSA recommends no fewer than three (3) and no greater than five (5)..
3. SSA requires that the state agency designate specific official(s) or functional component(s) to issue PINs, passwords, biometric identifiers, or Personal Identity Verification (PIV) credentials to individuals who will access SSA-provided information. **SSA also requires that the state agency prohibit any functional component(s) or official(s) from issuing credentials or access authority to themselves or other individuals within their job-function or category of access.**
4. SSA requires that EIEPs grant access to SSA-provided information based on least privilege, need-to-know, and separation of duties. State agencies should not routinely grant employees, contractors, or agents access privileges that exceed the organization's business needs. SSA also requires that EIEPs periodically review employees, contractors, and agent's system access to determine if the same levels and types of access remain applicable.
5. If an EIEP employee, contractor, or agent is subject to an adverse administrative action by the EIEP (e.g., reduction in pay, disciplinary action, termination of employment), SSA recommends the EIEP remove his or her access to SSA-provided information in advance of the adverse action to reduce the possibility that will the employee will perform unauthorized activities that involve SSA-provided information.

## EXHIBIT 2

6. SSA requires that work-at-home, remote access, and/or Internet access comply with applicable Federal and state security policy and standards. Furthermore, the EIEPs access control policy must define the safeguards in place to adequately protect SSA-provided information for work-at-home, remote access, and/or Internet access.
  
7. SSA requires EIEPs to design their system with logical control(s) that prevent unauthorized browsing of SSA-provided information. SSA refers to this setup as a **Permission Module**. The term “**Permission Module**” supports a business rule and systematic control that prevents users from browsing a system that contains SSA-provided information. It also supports the principle of **referential integrity**. It should prevent non-business related or unofficial access to SSA-provided information. Before a user or process requests SSA-provided information for verification, the system should verify it is an authorized transaction. Some organizations use the term “referential integrity” to describe the verification step. A properly configured Permission Module should prevent a user from performing any actions not consistent with a need-to-know business process. If a logical permission module configuration is not possible, the state agency must enforce its Access Control List (ACL) in accordance with the principle of least privilege. **The only acceptable compensating control for a system that lacks a permission module is a 100% review of all transactions that involve SSA-provided information.**

**(THE REST OF THIS PAGE HAS BEEN LEFT BLANK INTENTIONALLY)**

## EXHIBIT 2

### 5.4 Automated Audit Trail

*(Audit and Accountability (AU) Family, NIST SP 800-53 rev. 4)*

SSA requires EIEPs, and other STCs or agencies that provide audit trail services to other state agencies that receive information electronically from SSA, to implement and maintain a fully automated audit trail system (ATS). The system must be capable of creating, storing, protecting, and (efficiently) retrieving and collecting records identifying the individual user who initiates a request for information from SSA or accesses SSA-provided information. At a minimum, individual audit trail records must contain the data needed (including date and time stamps) to associate each query transaction or access to SSA-provided information with its initiator, their action, if any, and the relevant business purpose/process (e.g., SSN verification for Medicaid). Each entry in the audit file must be stored as a separate record, not overlaid by subsequent records. The ATS must create transaction files to capture all input from interactive internet applications that access or query SSA-provided information.

SSA requires that the agency's ATS create an audit record when users view screens that contain SSA-provided information. If an STC handles and audits the EIEP's transactions with SSA, the EIEP is responsible for ensuring that the STC's audit capabilities meet NIST's guidelines for an automated audit trail system. The EIEP must also establish a process to obtain specific audit information from the STC regarding the EIEP's SSA transactions.

SSA requires that EIEPs have automated retrieval and collection of audit records. Such automated functions can be via online queries, automated reports, batch processing, or any other logical means of delivering audit records in an expeditious manner. Information in the audit file must be retrievable by an automated method and must allow the EIEP the capability to make them available to SSA upon request.

Access to the audit file must be restricted to authorized users with a "need to know," audit file data must be unalterable (read-only), and maintained for a minimum of three (3) (preferably seven (7)) years. Information in the audit file must be retrievable by an automated method and must allow the EIEP the capability to make them available to SSA upon request. The EIEP must backup audit trail records on a regular basis to ensure its availability. EIEPs must apply the same level of protection to backup audit files that apply to the original files to ensure the integrity of the data.

## EXHIBIT 2

If the EIEP retains SSA-provided information in a database (e.g., Access database, SharePoint, etc.), or if certain data elements within the EIEP's system indicates to users that SSA verified the information, the EIEP's system must also capture an audit trail record of users who view SSA-provided information stored within the EIEP's system. The retrieval requirements for SSA-provided information at rest and the retrieval requirements for regular transactions are identical. **Similar to the Permission Module requirement above, the only acceptable compensating control for a system that lacks an Automated Audit Trail System (ATS) is a 100% review of all transactions that involve SSA-provided information.**

**(THE REST OF THIS PAGE HAS BEEN LEFT BLANK INTENTIONALLY)**

## EXHIBIT 2

### 5.5 Personally Identifiable Information (PII)

*(The Privacy Act of 1974, E-Government Act of 2002 (P.L. 107-347), and AP Family – Authority and Purpose (Privacy Controls), NIST SP 800-53 rev. 4)*

**Personally Identifiable Information (PII)** is information used to distinguish or trace an individual's identity, such as their name, Social Security Number, biometric records, alone or when combined with other personal or identifying information linked or linkable to a specific individual. An item such as date and place of birth, mother's maiden name, or father's surname is PII, regardless of whether combined with other data.

SSA defines a **PII loss** as a circumstance when an EIEP employee, contractor, or agent has reason to believe that information on hard copy or in electronic format, which contains PII provided by SSA, left the EIEP's custody or the EIEP disclosed it to an unauthorized individual or entity. PII loss is a reportable incident. SSA requires that contracts for periodic disposal/destruction of case files or other print media contain a non-disclosure agreement signed by all personnel who will encounter products that contain SSA-provided information.

If a PII loss involving SSA-provided information occurs or is suspected, the EIEP must be able to quantify the extent of the loss and compile a complete list of the individuals potentially affected by the incident (refer to [Incident Reporting](#)).

The EIEP should have procedural documents to describe methods and controls for safeguarding SSA-provided PII while in use, at rest, during transmission, or after archiving. The document should explain how the EIEP manages and handles SSA-provided information on print media and explain how the methods and controls conform to NIST requirements. SSA requires that printed items that contain SSA-provided PII always remain in the custody of authorized EIEP employees, contractors, or agents. SSA also requires that the agency destroy the items when no longer required for the EIEP's business process. If retained in paper files for evidentiary purposes, the EIEP should safeguard such PII in a manner that prevents unauthorized personnel from accessing such materials. All agencies that receive SSA-provided information must maintain an inventory of all documents that outline statewide or agency policy and procedures regarding the same.

### 5.6 Monitoring and Anomaly Detection

*(Information Security Continuous Monitoring (ISCM) for Federal Information Systems and Organizations, NIST SP 800-137, E-Government Act of 2002 (P.L. 107-347), and Security Assessment and Authorization (CA) and Risk Assessment (RA) Families, NIST SP 800-53 rev. 4)*

**SSA requires that the EIEPs use an Intrusion Protection System (IPS) or an Intrusion Detection System (IDS).** The EIEP must establish and/or maintain continuous monitoring of its network infrastructure and assets to ensure that:

- 1) the EIEP's security controls continue to be effective over time,
- 2) the EIEP uses industry-standard Security Information Event Manager (SIEM) tools, anti-malware software, and effective antivirus protection,
- 3) only authorized individuals, devices, and processes have access to SSA-provided information,
- 4) the EIEP detects efforts by external and internal entities, devices, or processes to perform unauthorized actions (e.g., data breaches, malicious attacks, access to network assets, software/hardware installations, etc.) as soon as they occur,
- 5) the necessary parties are immediately alerted to unauthorized actions performed by external and internal entities, devices, or processes,
- 6) upon detection of unauthorized actions, measures are immediately initiated to prevent or mitigate associated risk,
- 7) in the event of a data breach or security incident, the EIEP can efficiently determine and initiate necessary remedial actions, and
- 8) trends, patterns, or anomalous occurrences and behavior in user or network activity that may be indicative of potential security issues are readily discernible.

## EXHIBIT 2

The EIEP's system must include the capability to prevent users from unauthorized browsing of SSA records. SSA requires the use of a transaction-driven **permission module design**, whereby employees are unable to initiate transactions not associated with the normal business process. If the EIEP uses such a design, they also must have anomaly detection to monitor an employee's unauthorized attempts to gain access to SSA-provided information and attempts to obtain information from SSA for clients not in the EIEP's client system. The EIEP should employ measures to ensure the permission module's integrity. Users should not be able to create a bogus case and subsequently delete it in such a manner that it goes undetected. The SSA permission module design employs both role and rules based logical access control restrictions. (Refer to [Access Control](#))

If the EIEP's design **does not use** a permission module **and** is not transaction-driven, until at least one of these security features exists, the EIEP must develop and implement **compensating security controls** to deter employees from browsing SSA records. These controls must include monitoring and anomaly detection features, such as: systematic, manual, or a combination thereof. Such features must include the capability to detect anomalies in the volume and/or type of transactions or queries requested or initiated by individuals and include systematic or manual procedures for verifying that requests and queries of SSA-provided information comply with valid official business purposes.

### **Risk Management Program**

**SSA recommends that EIEPs develop and maintain a published Risk Assessment Policy and Procedures document. A Risk Management Program may include, but is not limited to the following:**

1. A risk assessment policy that addresses purpose, scope, roles, responsibilities, management commitment, coordination among organizational entities, and compliance,
2. Procedures to facilitate the implementation of the risk assessment policy and associated risk assessment controls,
3. A function that conducts an assessment of risk, including the likelihood and magnitude of harm, from the unauthorized access, use, disclosure, disruption, modification, or destruction of the information system and the information it processes, stores, or transmits,
4. An independent function that conducts vulnerability and risk assessments, reviews risk assessment results, and disseminates such information to senior management,
5. A firm commitment from senior management to update the risk assessment whenever there are significant changes to the information

## EXHIBIT 2

system or environment of operation or other conditions that may affect the security of SSA-provided information,

6. A robust vulnerability scanning protocol that employs industry standard scanning tools and techniques that facilitate interoperability among tools and automates parts of the vulnerability management process,
7. Remediate legitimate vulnerabilities in accordance with an organizational assessment of risk, and
8. Shares information obtained from the vulnerability scanning process and security control assessments with senior management to help eliminate similar vulnerabilities in other information systems that receive, process, transmit, or store SSA-provided information.

**Note: The EIEP's decision to initiate or maintain an official Risk Management Program and establish a formal Risk Assessment Strategy for mitigating risk is strictly voluntary, but highly recommended by SSA.**

### 5.7 Management Oversight and Quality Assurance

*(The Privacy Act of 1974, E-Government Act of 2002 (P.L. 107-347), and the AC – Access Control & PM – Program Management Families, NIST SP 800-53 rev. 4)*

SSA requires the EIEP to establish and/or maintain ongoing management oversight and quality assurance capabilities to ensure that only authorized users have access to SSA-provided information. This will ensure there is ongoing compliance with the terms of the EIEP's electronic information sharing agreement with SSA and the TSSRs established for access to SSA-provided information. The entity responsible for management oversight should consist of one or more of the EIEP's management officials whose job functions include responsibility to ensure that the EIEP only grants access to the appropriate users and position types (least privilege), which require the SSA-provided information to do their jobs (need-to-know).

SSA requires the EIEP to ensure that users granted access to SSA-provided information receive adequate training on the sensitivity of the information, associated safeguards, operating procedures, and the civil and criminal consequences or penalties for misuse or improper disclosure.

SSA requires that EIEPs establish the following job functions and require that only users whose job functions are separate from personnel who request or use SSA-provided information.

**SSA requires that EIEPs establish the following job functions separate from personnel who request or use SSA-provided information.**

- a) Perform periodic self-reviews to monitor the EIEP's ongoing usage of SSA-provided information.
- b) Perform random sampling of work activity that involves SSA-provided information to determine if the access and usage comply with SSA's requirements

SSA requires the EIEP's system to produce reports that allow management and/or supervisors to monitor user activity. The EIEP must have a process for distributing these monitoring and exception reports to appropriate local managers/supervisors or to local security officers. The process must ensure that only those whose responsibilities include monitoring anomalous activity of users, to include those who have exceptional system rights and privileges, use the reports.

## EXHIBIT 2

### 1. **User ID Exception Reports:**

This type of report captures information about users who enter incorrect user IDs when attempting to gain access to the system or to a transaction that initiates requests for information from SSA, including failed attempts to enter a password.

### 2. **Inquiry Match Exception Reports:**

This type of report captures information about users who initiate transactions for SSNs that have no client case association within the EIEP's system (**the EIEP's management must review 100% of these cases**).

### 3. **System Error Exception Reports:**

This type of report captures information about users who may not understand or may be violating proper procedures for access to SSA-provided information.

### 4. **Inquiry Activity Statistical Reports:**

This type of report captures information about transaction usage patterns among authorized users and is a tool that enables the EIEP's management to monitor typical usage patterns in contrast to extraordinary usage patterns.

**The EIEP must have a process for distributing these monitoring and exception reports to appropriate local managers/supervisors or to local security officers. The process must ensure that only those whose responsibilities include monitoring anomalous activity of users, to include those who have exceptional system rights and privileges, use the reports.**

## EXHIBIT 2

### 5.8 Data and Communications Security

*(The Privacy Act of 1974, E-Government Act of 2002 (P.L. 107-347), and the Access Control (AC), Configuration Management (CM), Media Protection (MP), and System and Communication (SC) Families, NIST SP 800-53 rev. 4)*

SSA requires EIEPs to encrypt PII and SSA-provided information when transmitting across dedicated communications circuits between its systems, intrastate communications between its local office locations, and on the EIEP's mobile computers, devices and removable media. The EIEP's encryption methods must align with the Guidelines established by the National Institute of Standards and Technology (NIST). SSA recommends the Advanced Encryption Standard (AES) or Triple DES (Data Encryption Standard 3).

**Files encrypted for external users (when using tools such as Microsoft Word encryption,) require a key length of at least nine characters.** SSA recommends that the key (also referred to as a password) contain both special characters and numbers. SSA supports the NIST Guidelines that requires the EIEP deliver the key so that it does not accompany the media. The EIEP must secure the key when not in use or unattended.

SSA discourages the use of the public Internet for transmission of SSA-provided information. If, however, the EIEP uses the public Internet or other electronic communications, such as emails and faxes to transmit SSA-provided information, they must use a secure encryption protocol such as Secure Socket Layer (SSL) or Transport Layer Security (TLS). SSA also recommends 256-bit encryption protocols or more secure methods such as Virtual Private Network technology. The EIEP should only send data to a secure address or device to which the EIEP can control and limit access to only specifically authorized individuals and/or processes. **SSA recommends that EIEPs use Media Access Control (MAC) Filtering and Firewalls to protect access points from unauthorized devices attempting to connect to the network.**

EIEPs should not retain SSA-provided information any longer than business purpose(s) dictate. The IEA with SSA stipulates a time for data retention. The EIEP should delete, purge, destroy, or return SSA-provided information when the business purpose for retention no longer exists.

The EIEP may not save or create separate files comprised solely of information provided by SSA. The EIEP may apply specific SSA-provided information to the EIEP's matched record from a preexisting data source. Federal law prohibits duplication and redisclosure of SSA-provided information without written approval from SSA.

## EXHIBIT 2

This prohibition applies to both internal and external sources who do not have a “need-to-know.” SSA recommends that EIEPs use either **Trusted Platform Module (TPM)** or **Hardware Security Module (HSM)** technology solutions to encrypt data at rest on hard drives and other data storage media.

SSA requires EIEPs to prevent unauthorized disclosure of SSA-provided information after they complete processing and after the EIEP no longer requires the information. The EIEP’s operational processes must ensure that no residual SSA-provided information remains on the hard drives of user’s workstations after the user exits the application(s) that use SSA-provided information. If the EIEP must send a computer, hard drive, or other computing or storage device offsite for repair, the EIEP must have a non-disclosure clause in their contract with the vendor. If the EIEP used the item in connection with a business process that involved SSA-provided information and the vendor will retrieve or may view SSA-provided information during servicing, SSA reserves the right to inspect the EIEP’s vendor contract. The EIEP must remove SSA-provided information from electronic devices before sending it to an external vendor for service. SSA expects the EIEP to render SSA-provided information unrecoverable or destroy the electronic device if they do not need to recover the information. The same applies to excessed, donated, or sold equipment placed into the custody of another organization.

To sanitize media, the EIEP should use one of the following methods:

1. **Overwriting/Clearing:**

Overwrite utilities can only be used on working devices. Overwriting is appropriate only for devices designed for multiple reads and writes. The EIEP should overwrite disk drives, magnetic tapes, floppy disks, USB flash drives, and other rewriteable media. The overwrite utility must completely overwrite the media. SSA recommends the use of ***purging*** media sanitization to make the data irretrievable, protecting data against laboratory attacks or forensics. Reformatting the media does not overwrite the data.

2. **Degaussing:**

Degaussing is a sanitization method for magnetic media (e.g., disk drives, tapes, floppies, etc.). Degaussing is not effective for purging non-magnetic media (e.g., optical discs). SSA and NIST Guidelines require EIEP to use a certified tool designed to degauss each particular type of media. NIST guidelines require certification of the tool to ensure that the magnetic flux applied to the media is strong enough to render the information irretrievable. The degaussing process must render data on the media irretrievable by a laboratory attack or laboratory forensic procedures.

## EXHIBIT 2

### 3. Physical destruction:

NIST guidelines require physical destruction when degaussing or overwriting cannot be accomplished (for example, CDs, floppies, DVDs, damaged tapes, hard drives, damaged USB flash drives, etc.). Examples of physical destruction include shredding, pulverizing, and burning.

State agencies may retain SSA-provided information in hardcopy only if required to fulfill evidentiary requirements, provided the agencies retire such data in accordance with applicable state laws governing state agency's retention of records. The EIEP must control print media containing SSA-provided information to restrict access to authorized employees who need such access to perform official duties. EIEPs must destroy print media containing SSA-provided information in a secure manner when no longer required for business purposes. SSA requires the EIEP to destroy paper documents that contain SSA-provided information by burning, pulping, shredding, macerating, or other similar means that ensure the information is unrecoverable.

State agencies may use any accretions, deletions, or changes to the SSA-provided information governed by the CMPPA agreement to update their master files or federally funded state-administered benefit program applicants and recipients and retain such master files in accordance with applicable state laws governing State Agencies' retention of records.

***NOTE: Hand tearing or lining through documents to obscure information does not meet SSA's requirements for appropriate destruction of PII.***

The EIEP must employ measures to ensure that communications and data furnished to SSA contain no viruses or other malware.

#### ***Special Note regarding Cloud Service Providers:***

**If the EIEP will store SSA-provided information through a Cloud Service Provider, please provide the name and address of the cloud provider. Describe the security responsibilities the contract requires to protect SSA-provided information.**

SSA will ask for detailed descriptions of the security features contractually required of the cloud provider and information regarding how they will protect SSA-provided information at rest and when in transit.

**EIEPs cannot legally process, transmit, or store SSA-provided information in a cloud environment without explicit permission from SSA's Chief Information Officer.**

### 5.9 Incident Reporting

*(The Privacy Act of 1974, E-Government Act of 2002 (P.L. 107-347), and the Incident Response (IR) Family, NIST SP 800-53 rev. 4)*

FISMA, NIST Guidelines, and Federal Law require the EIEP to develop and implement policies and procedures to respond to potential data breaches or PII losses. EIEPs must articulate, in writing, how the policies and procedures conform to SSA's requirements. The procedures must include the following information:

*If your agency experiences or suspects a breach or loss of PII or a security incident, which includes SSA-provided information, they must notify the State official responsible for Systems Security designated in the agreement. That State official or delegate must then notify the SSA Regional Office Contact or the SSA Systems Security Contact identified in the agreement. If, for any reason, the responsible State official or delegate is unable to notify the SSA Regional Office or the SSA Systems Security Contact **within one hour**, the responsible State Agency official or delegate must report the incident by contacting **SSA's National Network Service Center (NNSC) toll free at 877-697-4889** (select "Security and PII Reporting" from the options list). The EIEP will provide updates as they become available to SSA contact, as appropriate. Refer to the worksheet provided in the agreement to facilitate gathering and organizing information about an incident.*

If SSA, or another Federal investigating entity (e.g. TIGTA or DOJ), determines that the risk presented by a breach or security incident requires that the state agency notify the subject individuals, the agency must agree to absorb all costs associated with notification and remedial actions connected to security breaches. **SSA and NIST Guidelines encourage agencies to consider establishing incident response teams to address PII and SSA-provided information breaches.**

Incident reporting policies and procedures are part of the security awareness program. Incident reporting pertains to all employees, contractors, or agents regardless as to whether they have direct responsibility for contacting SSA. The written policy and procedures document should include specific names, titles, or functions of the individuals responsible for each stage of the notification process. The document should include detailed instructions for how, and to whom each employee, contractor, or agent should report the potential breach or PII loss.

**(THE REST OF THIS PAGE HAS BEEN LEFT BLANK INTENTIONALLY)**

### 5.10 Security Awareness Training and User Sanctions

*(The Privacy Act of 1974, E-Government Act of 2002 (P.L. 107-347), and Awareness and Training (AT), Personnel Security (PS), and Program Management (PM) Families, NIST SP 800-53 rev. 4)*

The EIEP must have an active and robust security awareness program and security training for all employees, contractors, and agents who access SSA-provided information. The training and awareness programs must include:

- a. the sensitivity of SSA-provided information and addresses the Privacy Act and other Federal and state laws governing its use and misuse,
- b. the rules of behavior concerning use and security in systems and/or applications processing SSA-provided information,
- c. the restrictions on viewing and/or copying SSA-provided information,
- d. the responsibilities of employees, contractors, and agent's pertaining to the proper use and protection of SSA-provided information,
- e. the proper disposal of SSA-provided information,
- f. the security breach and data loss incident reporting procedures,
- g. the basic understanding of procedures to protect the network from malware attacks,
- h. spoofing, phishing and pharming, and network fraud prevention, and
- i. the possible criminal and civil sanctions and penalties for misuse of SSA-provided information.

SSA requires the EIEP to provide security awareness training to all employees, contractors, and agents who access SSA-provided information. The training should be annual, mandatory, and certified by the personnel who receive the training. SSA also requires the EIEP to certify that each employee, contractor, and agent who views SSA-provided information certify that they understand the potential criminal, civil, and administrative sanctions or penalties for unlawful assess and/or disclosure.

## EXHIBIT 2

SSA requires the EIEP to provide security awareness training to all employees, contractors, and agents who access SSA-provided information. The training should be annual, mandatory, and certified by the personnel who receive the training. SSA also requires the EIEP to certify that each employee, contractor, or agent who views SSA-provided information also certify that they understand the potential criminal and administrative sanctions or penalties for unlawful disclosure. SSA requires the state agency to require employees, contractors, and agents to sign a non-disclosure agreement, attest to their receipt of Security Awareness Training, and acknowledge the rules of behavior concerning proper use and security in systems that process SSA-provided information. The non-disclosure attestation must also include acknowledgement from each employee, contractor, and agent that he or she understands and accepts the potential criminal and/or civil sanctions or penalties associated with misuse or unauthorized disclosure of SSA-provided information. The state agency must retain the non-disclosure attestations for at least five (5) to seven (7) years for each individual who processes, views, or encounters SSA-provided information as part of their duties.

SSA strongly recommends the use of login banners, emails, posters, signs, memoranda, special events, and other promotional materials to encourage security awareness throughout your enterprise.

The state agency must designate a department or party to take the responsibility to provide ongoing security awareness training for all employees, contractors, and agents who access SSA-provided information. Training must include:

- The sensitivity of SSA-provided information and address the Privacy Act and other Federal and state laws governing its use and misuse
- Rules of behavior concerning use and security in systems processing SSA-provided information
- Restrictions on viewing and/or copying SSA-provided information
- The employee, contractor, and agent's responsibility for proper use and protection of SSA-provided information
- Proper disposal of SSA-provided information
- Security incident reporting procedures
- Basic understanding of procedures to protect the network from malware attacks

### **5.11 Contractors of Electronic Information Exchange Partners** *(The Privacy Act of 1974, E-Government Act of 2002 (P.L. 107-347), and Risk Assessment (RA), System and Services Acquisition (SA), Awareness and Training (AT), Personnel Security (PS), and Program Management (PM) Families, NIST SP 800-53 rev. 4)*

The state agency's employees, contractors, and agents who access, use, or disclose SSA data in a manner or purpose not authorized by the Agreement may be subject to both civil and criminal sanctions pursuant to applicable Federal statutes. The state agency will provide its contractors and agents with copies of the Agreement, related IEAs, and all related attachments before initial disclosure of SSA data to such contractors and agents. Prior to signing the Agreement, and thereafter at SSA's request, the state agency will obtain from its contractors and agents a current list of the employees of such contractors and agents with access to SSA data and provide such lists to SSA.

Contractors of the state agency must adhere to the same security requirements as employees of the state agency. The state agency is responsible for the oversight of its contractors and the contractor's compliance with the security requirements. The state agency must enter into a written agreement with each of its contractors and agents who need SSA data to perform their official duties. Such contractors or agents agree to abide by all relevant Federal laws, restrictions on access, use, disclosure, and the security requirements contained within the state agency's agreement with SSA.

The state agency must provide proof of the contractual agreement with all contractors and agents who encounter SSA-provided information as part of their duties. If the contractor processes, handles, or transmits information provided to the state agency by SSA or has authority to perform on the state agency's behalf, the state agency should clearly state the specific roles and functions of the contractor within the agreement. The state agency will provide SSA written certification that the contractor is meeting the terms of the agreement, including SSA security requirements. The service level agreements with the contractors and agents must contain non-disclosure language as it pertains to SSA-provided information.

The state agency must also require that contractors and agents who will process, handle, or transmit information provided to the state agency by SSA to include language in their signed agreement that obligates the contractor to follow the terms of the state agency's data exchange agreement with SSA. The state agency must also make certain that the contractor and agent's employees receive the same security awareness training as the state agency's employees. The state agency, the contractor, and the agent should maintain awareness-training records for their employees and require the same mandatory annual

## EXHIBIT 2

certification procedures.

SSA requires the state agency to subject the contractor to ongoing security compliance reviews that must meet SSA standards. The state agency will conduct compliance reviews at least triennially commencing no later than three (3) years after the approved initial security certification to SSA. The state agencies will provide SSA with documentation of their recurring compliance reviews of their contractors and agents. The state agencies will provide the documentation to SSA during their scheduled compliance and certification reviews or upon SSA's request.

If the state agency's contractor will be involved with the processing, handling, or transmission of information provided to the EIEP by SSA offsite from the EIEP, the EIEP must have the contractual option to perform onsite reviews of that offsite facility to ensure that the following meet SSA's requirements:

- a) safeguards for sensitive information,
- b) technological safeguards on computer(s) that have access to SSA-provided information,
- c) security controls and measures to prevent, detect, and resolve unauthorized access to, use of, and redisclosure of SSA-provided information, and
- d) continuous monitoring of the EIEP contractors or agent's network infrastructures and assets.

### 5.12 Cloud Service Providers (CSP) for Electronic Information Exchange Partners

*(NIST SP 800-144, NIST SP 800-145, NIST SP 800-146, OMB Memo M-14-03, NIST SP 137)*

The National Institute of Standards and Technology (NIST) Special Publication (SP) 800-145 defines Cloud Computing as “a model for enabling ubiquitous, convenient, on-demand network access to a shared pool of configurable computing resources (e.g., networks, servers, storage, applications, and services) that can be rapidly provisioned and released with minimal management effort or service provider interaction. This cloud model is composed of five essential characteristics, three service models, and four deployment models.” The three service models, as defined by NIST SP 800-145 are Software as a Service (SaaS), Platform as a Service (PaaS), and Infrastructure as a Service (IaaS). The Deployment models are Private Cloud, Community Cloud, Public Cloud, and Hybrid Cloud. Furthermore, The Federal Risk and Authorization Program (FedRAMP) is a risk management program that provides a standardized approach for assessing and monitoring the security of cloud products and services.

SSA requires the State Agency, contractor(s), and agent(s) to exercise due diligence to avoid hindering legal actions, warrants, subpoenas, court actions, court judgments, state or Federal investigations, and SSA special inquiries for matters pertaining to SSA-provided information.

SSA requires the State Agency, contractor(s), and agent(s) to agree that any state-owned or subcontracted facility involved in the receipt, processing, storage, or disposal of SSA-provided information operate as a “de facto” extension of the State Agency and is subject to onsite inspection and review by the State Agency or SSA with prior notice.

SSA requires that the State Agency thoroughly describe all specific contractual obligations of each party to the Cloud Service Provider (CSP) agreement between the state agency and the CSP vendor(s). If the obligations, services, or conditions widely differ from agency to agency, we require separate SDP Questionnaires to address the CSP services provided to each state agency involved in the receipt, processing, storage, or disposal of SSA-provided information.

**(THE REST OF THIS PAGE HAS BEEN LEFT BLANK INTENTIONALLY)**

**6. Security Certification and Compliance Review Programs**  
*(NIST SP 800-18 – System Security Plans and Planning (PL) Family, NIST SP 800-53 rev. 4)*

SSA's security certification and compliance review programs are distinct processes. The certification program is a unique episodic process when an EIEP initially requests electronic access to SSA-provided information or makes substantive changes to existing exchange protocol, delivery method, infrastructure, or platform. The certification process entails two stages (refer to 6.1 for details) intended to ensure that management, operational, and technical security measures work as designed. SSA must ensure that the EIEPs fully conform to SSA's security requirements at the time of certification and satisfy both stages of the certification process before SSA will permit online access to its data in a production environment.

The compliance review program entails cyclical security review of the EIEP performed by, or on behalf of SSA. The purpose of the review is to assess an EIEP's conformance to SSA's current security requirements at the time of the review engagement. The compliance review program applies to both online and batch access to SSA-provided information. Under the compliance review program, EIEPs are subject to ongoing and periodic security reviews by SSA.

**(THE REST OF THIS PAGE HAS BEEN LEFT BLANK INTENTIONALLY)**

## EXHIBIT 2

### 6.1 The Security Certification Program (NIST SP 800-18 – System Security Plans, Security Assessment and Authorization Controls (CA), and Planning (PL) Families, NIST SP 800-53 rev. 4)

The security certification process applies to EIEPs that seek online electronic access to SSA-provide information and consists of two general phases:

- a) **Phase 1:** The Security Design Plan (SDP) is a formal written plan authored by the EIEP to document its management, operational, and technical security controls to safeguard SSA-provided information (refer to [Documenting Security Controls in the Security Design Plan](#)).

**NOTE: SSA may have legacy EIEPs (EIEPs not certified under the current process) who have not prepared an SDP. SSA strongly recommends that these EIEPs prepare an SDP.**

**The EIEP's preparation and maintenance of a current SDP will aid them in determining potential compliance issues prior to reviews, assuring continued compliance with SSA's TSSRs, and providing for more efficient security reviews.**

- b) **Phase 2:** The SSA Onsite Certification is a formal security review conducted by SSA, or on its behalf, to examine the full suite of management, operational, and technical security controls implemented by the EIEP to safeguard data obtained from SSA electronically (refer to [The Certification Process](#)).

### 6.2 Documenting Security Controls in the SDP

*(NIST SP 800-18 – System Security Plans, Security Assessment and Authorization Controls (CA), and Planning (PL) Families, NIST SP 800-53 rev. 4)*

#### 6.2.1 When an SDP is required:

**EIEPs must submit an SDP when one or more of the following circumstances apply:**

- a) to obtain approval for requested access to SSA-provided information for an initial agreement,
- b) to obtain approval to reestablish previously terminated access to SSA-provided information,
- c) to obtain approval to implement a new operating or security platform that will involve SSA-provided information,
- d) to obtain approval for significant changes to the EIEP's organizational structure, technical processes, operational environment, or security implementations planned or made since approval of their most recent SDP or of their most recent successfully completed security review,
- e) to confirm compliance when one or more security breaches or incidents involving SSA-provided information occurred since approval of the EIEP's most recent SDP or of their most recent successfully completed security review,
- f) to document descriptions and explanations of measures implemented as the result of a data breach or security incident,
- g) to document descriptions and explanations of measures implemented to resolve non-compliance issue(s), and
- h) to obtain a new approval after SSA revoked approval of the most recent SDP

**SSA may require a new SDP if changes occurred (other than those listed above) that may affect the terms of the EIEP's data exchange agreement with SSA.**

EXHIBIT 2

*SSA will not approve the SDP or allow the initiation of transactions and/or access to SSA-provided information before the EIEP complies with the TSSRs.*

**NOTE: EIEPs that function only as an STC, transferring SSA-provided information to other EIEPs must, per the terms of their agreements with SSA, adhere to SSA's TSSR and exercise their responsibilities regarding protection of SSA-provided information. (See Page 48 Definition of STC)**

**(THE REST OF THIS PAGE HAS BEEN LEFT BLANK INTENTIONALLY)**

## EXHIBIT 2

### 6.3 The Certification Process

*(NIST SP 800-18 – System Security Plans, Security Assessment and Authorization Controls (CA), and Planning (PL) Families, NIST SP 800-53 rev. 4)*

Once the EIEP has successfully satisfied Phase 1, SSA will conduct an onsite certification review. The objective of the onsite review is to ensure the EIEP's management, operational, and technical controls safeguarding SSA-provided information from misuse and improper disclosure and that those safeguards function and work as intended.

At its discretion, SSA may request the EIEP to participate in an onsite review and compliance certification of their security infrastructure.

The onsite review may address any or all of SSA's security requirements and include, when appropriate:

- 1) a demonstration of the EIEP's implementation of each security requirement,
- 2) a physical review of pertinent supporting documentation to verify the accuracy of responses in the SDP,
- 3) a demonstration of the functionality of the software interface for the system that will receive, process, and store SSA-provided information,
- 4) a demonstration of the Automated Audit Trail System (ATS),
- 5) a walkthrough of the EIEP's data center to observe and document physical security safeguards,
- 6) a demonstration of the EIEP's implementation of electronic exchange of data with SSA,
- 7) a discussions with managers, supervisors, information security officers, system administrators, or other state stakeholders,
- 8) an examination of management control procedures and reports pertaining to anomaly detection or anomaly prevention,
- 9) a demonstration of technical tools pertaining to user access control and, if appropriate, browsing prevention,

## EXHIBIT 2

- 10) a demonstration of the permission module or similar design, to show how the system triggers requests for information from SSA,
- 11) a demonstration of how the process for requests for SSA-provided information prevents SSNs not present in the EIEP's system from sending requests to SSA.

**We may attempt to obtain information from SSA using at least one, randomly created, fictitious number not known to the EIEPs system.**

During a certification or compliance review, SSA or a certifier acting on its behalf, may request a demonstration of the EIEP's ATS and its record retrieval capability. SSA or a certifier may request a demonstration of the ATS' capability to track the activity of employees who have the potential to access SSA-provided information within the EIEP's system. The certifier may request more information from those EIEPs who use an STC to handle and audit transactions. SSA or a certifier may conduct a demonstration to see how the EIEP obtains audit information from the STC regarding the EIEP's SSA transactions.

If an STC handles and audits an EIEP's transactions, SSA requires the EIEP to demonstrate both their in-house audit capabilities and the process used to obtain audit information from the STC.

If the EIEP employs a contractor or agent who processes, handles, or transmits the EIEP's SSA-provided information offsite, SSA, at its discretion, may request to include the contractor's facility in the onsite certification review. The inspection may occur with or without a representative of the EIEP.

Upon successful completion of the onsite certification review, SSA will authorize electronic access to production data by the EIEP. SSA will provide written notification of its certification to the EIEP and all appropriate internal SSA components.

### 6.5 The Compliance Review Program and Process *(NIST SP 800-18 – System Security Plans, Configuration Management (CM), Security Assessment and Authorization Controls (CA), and Planning (PL) Families, NIST SP 800-53 rev. 4)*

Similar to the certification process, the compliance review program entails a process intended to ensure that EIEPs that receive electronic information from SSA are in full compliance with the SSA's TSSRs. SSA requires EIEPs to complete and submit (based on a timeline agreed upon by SSA and EIEP's stakeholders) a Compliance Review Questionnaire (CRQ). The CRQ (similar to the SDP), describes the EIEP's management, operational, and technical controls used to protect SSA-provided information from misuse and improper disclosure. We also want to verify that those safeguards function and work as intended.

As a practice, SSA attempts to conduct compliance reviews following a 3-5 year periodic review schedule. However, as circumstances warrant, a review may take place at any time. Three prominent examples that would trigger an ad hoc review are:

- A. a significant change in the outside EIEP's computing platform,
- B. a violation of any of SSA's TSSRs, or
- C. an unauthorized disclosure of SSA-provided information by the EIEP.

SSA may conduct onsite compliance reviews and include both the EIEP's main facility and a field office.

SSA may, at its discretion, request that the EIEP participate in an onsite compliance review of their security infrastructure to confirm the implementation of SSA's security requirements.

The onsite review may address any or all of SSA's security requirements and include, where appropriate:

- D. a demonstration of the EIEP's implementation of each requirement
- E. a random sampling of audit records and transactions submitted to SSA
- F. a walkthrough of the EIEP's data center to observe and document physical security safeguards
- G. a demonstration of the EIEP's implementation of online exchange of data with SSA,

## EXHIBIT 2

- H. a discussion with managers, supervisors, information security officers, system administrators, or other state stakeholders,
  - I. an examination of management control procedures and reports pertaining to anomaly detection and prevention reports,
  - J. a demonstration of technical tools pertaining to user access control and, if appropriate, browsing prevention,
  - K. a demonstration of how a permission module or similar design triggers requests for information from SSA, and
  - L. a demonstration of how a permission module prevents the EIEP's system from processing SSNs not present in the EIEP's system.
- 1) We can accomplish this by attempting to obtain information from SSA using at least one, randomly created, fictitious number not known to the EIEP's system.**

SSA may perform an onsite or remote review for reasons including, but not limited, to the following:

- a) the EIEP has experienced a security breach or incident involving SSA-provided information
- b) the EIEP has unresolved non-compliance issue(s)
- c) to review an offsite contractor's facility that processes SSA-provided information
- d) the EIEP is a legacy organization that has not yet been through SSA's security certification and compliance review programs
- e) the EIEP requested that SSA perform an IV & V (Independent Verification and Validation review)

During the compliance review, SSA, or a certifier acting on its behalf, may request a demonstration of the system's audit trail and retrieval capability. The certifier may request a demonstration of the system's capability for tracking the activity of employees who view SSA-provided information within the EIEP's system. The certifier may request EIEPs that have STCs that handle and audit transactions with SSA to demonstrate the process used to obtain audit information from the STC.

If an STC handles and audits the EIEP's transactions with SSA, we may require the EIEP to demonstrate both their in-house audit capabilities and the processes used to

## EXHIBIT 2

obtain audit information from the STC regarding the EIEP's transactions with SSA.

If the EIEP employs a contractor who will process, handle, or transmit the EIEP's SSA-provided information offsite, SSA, at its discretion, may request to include in the onsite compliance review an onsite inspection of the contractor's facility. The inspection may occur with or without a representative of the EIEP. The format of the review in routine circumstances (e.g., the compliance review is not being conducted to address a special circumstance, such as a disclosure violation, etc.) will generally consist of reviewing and updating the EIEP's compliance with the systems security requirements described above in this document. At the conclusion of the review, SSA will issue a formal report to appropriate EIEP personnel. The Compliance Report will address findings and recommendations from SSA's compliance review, which includes a plan for monitoring each issue until closure.

***NOTE: SSA will never request documentation for compliance reviews unless necessary to assess the EIEP's security posture. The information is only accessible to authorized individuals who have a need for the information as it relates to the EIEP's compliance with its electronic data exchange agreement with SSA and the associated system security requirements and procedures. SSA will not retain the EIEP's documentation any longer than required. SSA will delete, purge, or destroy the documentation when the retention requirement expires.***

Compliance Reviews are either on-site or remote reviews. High-risk reviews must be onsite reviews, medium risk reviews are usually onsite, and low risk reviews may qualify for a remote review via telephone. The past performance of the entire state determines whether a review is onsite or remote **SSA determines a state's risk level based on the "high water mark principle."** If one agency is high risk, the entire state is high risk. The following is a high-level example of the analysis that aids SSA in making a preliminary determination as to which review format is appropriate. SSA may also use additional factors to determine whether SSA will perform an onsite or remote compliance review.

### **A. High/Medium Risk Criteria**

- 1) undocumented closing of prior review finding(s),
- 2) implementation of management, operational or technical controls that affect security of SSA-provided information (e.g. implementation of new data access method), or
- 3) a reported PII breach within the state.

## EXHIBIT 2

### B. Low Risk Criteria

- 1) no prior review finding(s) or prior finding(s) documented as closed
- 2) no implementation of technical/operational controls that impact security of SSA provided
- 3) information (e.g. implementation of new data access method) no reported PII breach

### 6.5.1 EIEP Compliance Review Participation

SSA may request to meet with the following stakeholders during the compliance review:

- a) a sample of managers, supervisors, information security officers, system administrators, etc. responsible for enforcing and monitoring ongoing compliance to security requirements and procedures to assess their level of training to monitor their employee's use of SSA-provided information, and for reviewing reports and taking necessary action
- b) the individuals responsible for performing security awareness and employee sanction functions to learn how EIEPs fulfill this requirement
- c) a sample of the EIEP's employees to assess their level of training and understanding of the requirements and potential sanctions applicable to the use and misuse of SSA-provided information
- d) the individual(s) responsible for management oversight and quality assurance functions to confirm how the EIEP accomplishes this requirement
- e) any additional individuals as deemed appropriate by SSA (i.e. analysts, Project/Program Manager, claims reps, etc.)

**(THE REST OF THIS PAGE HAS BEEN LEFT BLANK INTENTIONALLY)**

## EXHIBIT 2

### 6.6 Scheduling the Onsite Review

SSA will not schedule the onsite review until SSA approves the EIEP's SDP or the EIEPs stakeholders participating in the compliance review have agreed upon a schedule. There is no prescribed period for arranging the subsequent onsite review (*certification review* for an EIEP requesting initial access to SSA-provided information for an initial agreement or *compliance review* for other EIEPs). Unless there are compelling circumstances precluding it; the onsite review will occur as soon as reasonably possible.

The scheduling of the onsite review may depend on additional factors including:

- a) the reason for submission of an SDP or CRQ,
- b) the severity of security issues, if any,
- c) circumstances of the previous review, if any, and
- d) SSA's workload and resource considerations.

**(THE REST OF THIS PAGE HAS BEEN LEFT BLANK INTENTIONALLY)**

## EXHIBIT 2

### 7. Additional Definitions

#### **Back Button:**

Refers to a button on a web browser's toolbar, the *backspace button* on a computer keyboard, a programmed keyboard button or mouse button, etc., that returns a user to a previously visited web page or application screen.

#### **Breach:**

Refers to actual loss, loss of control, compromise, unauthorized disclosure, unauthorized acquisition, unauthorized access, or any similar term referring to situations where unauthorized persons have access or potential access to PII or Covered Information, whether physical, electronic, or in spoken word or recording

#### **Browsing:**

Requests for or queries of SSA-provided information for purposes not related to the performance of official job duties

#### **Choke Point:**

The firewall between a local network and the Internet is a choke point in network security, because any attacker would have to come through that channel, which is typically protected and monitored.

#### **Cloud Computing:**

The term refers to Internet-based computing derived from the cloud drawing representing the Internet in computer network diagrams. Cloud computing providers deliver on-line and on-demand Internet services. Cloud Services normally use a browser or Web Server to deliver and store information.

#### **Cloud Computing (NIST SP 800-145 Excerpt):**

Cloud computing is a model for enabling ubiquitous, convenient, on-demand network access to a shared pool of configurable computing resources (e.g., networks, servers, storage, applications, and services) that can be rapidly provisioned and released with minimal management effort or service provider interaction. This cloud model is composed of five essential characteristics, three service models, and four deployment models.

#### **Essential Characteristics:**

**On-demand self-service** - A consumer can unilaterally provision computing capabilities, such as server time and network storage, as needed automatically without requiring human interaction with each service provider.

**Broad network access** - Capabilities are available over the network and accessed through standard mechanisms that promote use by heterogeneous thin or thick client platforms (e.g., mobile phones, tablets, laptops, and workstations).

## EXHIBIT 2

**Resource pooling** - The provider's computing resources are pooled to serve multiple consumers using a multi-tenant model, with different physical and virtual resources dynamically assigned and reassigned according to consumer demand. There is a sense of location independence in that the customer generally has no control or knowledge over the exact location of the provided resources but may be able to specify location at a higher level of abstraction (e.g., country, state, or datacenter). Examples of resources include storage, processing, memory, and network bandwidth.

**Rapid elasticity** - Capabilities can be elastically provisioned and released, in some cases automatically, to scale rapidly outward and inward commensurate with demand. To the consumer, the capabilities available for provisioning often appear to be unlimited and can be appropriated in any quantity at any time.

**Measured service** - Cloud systems automatically control and optimize resource use by leveraging a metering capability<sup>1</sup> at some level of abstraction appropriate to the type of service (e.g., storage, processing, bandwidth, and active user accounts). Resource usage can be monitored, controlled, and reported, providing transparency for both the provider and consumer of the utilized service.

### Service Models:

**Software as a Service (SaaS)** - The capability provided to the consumer is to use the provider's applications running on a cloud infrastructure<sup>2</sup>. The applications are accessible from various client devices through either a thin client interface, such as a web browser (e.g., web-based email), or a program interface. The consumer does not manage or control the underlying cloud infrastructure including network, servers, operating systems, storage, or even individual application capabilities, with the possible exception of limited user-specific application configuration settings.

**Platform as a Service (PaaS)** - The capability provided to the consumer is to deploy onto the cloud infrastructure consumer-created or acquired applications created using programming languages, libraries, services, and tools supported by the provider.<sup>3</sup> The consumer does not manage or control the underlying cloud infrastructure including network, servers, operating systems, or storage, but has control over the deployed applications and possibly configuration settings for the application-hosting environment.

**Infrastructure as a Service (IaaS)** - The capability provided to the consumer is to provision processing, storage, networks, and other fundamental computing resources where the consumer is able to deploy and run arbitrary software, which can include operating systems and applications. The consumer does not manage or control the underlying cloud infrastructure but has control over operating systems, storage, and deployed applications; and possibly limited control of select networking components (e.g., host firewalls).

### Deployment Models:

**Private cloud** - The cloud infrastructure is provisioned for exclusive use by a single organization comprising multiple consumers (e.g., business units). It may be owned, managed, and operated by the organization, a third party, or some combination of them, and it may exist on or off premises.

**Community cloud** - The cloud infrastructure is provisioned for exclusive use by a specific

## EXHIBIT 2

community of consumers from organizations that have shared concerns (e.g., mission, security requirements, policy, and compliance considerations). It may be owned, managed, and operated by one or more of the organizations in the community, a third party, or some combination of them, and it may exist on or off premises.

**Public cloud** - The cloud infrastructure is provisioned for open use by the general public. It may be owned, managed, and operated by a business, academic, or government organization, or some combination of them. It exists on the premises of the cloud provider.

**Hybrid cloud** - The cloud infrastructure is a composition of two or more distinct cloud infrastructures (private, community, or public) that remain unique entities, but are bound together by standardized or proprietary technology that enables data and application portability (e.g., cloud bursting for load balancing between clouds).

---

1 Typically this is done on a pay-per-use or charge-per-use basis.

2 A cloud infrastructure is the collection of hardware and software that enables the five essential characteristics of cloud computing. The cloud infrastructure can be viewed as containing both a physical layer and an abstraction layer. The physical layer consists of the hardware resources that are necessary to support the cloud services being provided, and typically includes server, storage and network components. The abstraction layer consists of the software deployed across the physical layer, which manifests the essential cloud characteristics. Conceptually the abstraction layer sits above the physical layer.

3 This capability does not necessarily preclude the use of compatible programming languages, libraries, services, and tools from other sources.

### Cloud Drive:

A cloud drive is a Web-based service that provides storage space on a remote server.

### Cloud Audit:

Cloud Audit is a specification developed at Cisco Systems, Inc. that provides cloud computing service providers a standard way to present and share detailed, automated statistics about performance and security.

The Federal Risk and Authorization Program (FedRAMP):

FedRAMP is a risk management program that provides a standardized approach for assessing and monitoring the security of cloud products and services.

### Commingling:

Commingling is the creation of a common database or repository that stores and maintains both SSA-provided information and preexisting EIEP PII.

## EXHIBIT 2

### **Data Exchange:**

Data Exchange is a logical transfer of information from one government entity's systems of records (SOR) to another agency's application or mainframe through a secure and exclusive connection.

### **Degaussing:**

Degaussing is the method of using a "special device" (i.e., a device that generates a magnetic field) in order to disrupt magnetically recorded information. Degaussing can be effective for purging damaged media and media with exceptionally large storage capacities. Degaussing is not effective for purging non-magnetic media (e.g., optical discs).

### **Function:**

One or more persons or organizational components assigned to serve a particular purpose, or perform a particular role. The purpose, activity, or role assigned to one or more persons or organizational components.

### **Hub:**

As it relates to electronic data exchange with SSA, a hub is an organization, which serves as an electronic information conduit or distribution collection point. The term Hub is interchangeable with the terms "State Transmission Component," "State Transfer Component," or "STC."

### **ICON:**

Interstate Connection Network (various entities use 'Connectivity' rather than 'Connection')

### **IV & V:**

Independent Verification and Validation

### **Legacy System:**

A term usually referring to a corporate or organizational computer system or network that utilizes outmoded programming languages, software, and/or hardware that typically no longer receives support from the original vendors or developers.

### **Manual Transaction:**

A user-initiated operation (also referred to as a "user-initiated transaction"). This is the opposite of a system-generated automated process.

Example: A user enters a client's information including the client's SSN and presses the "ENTER" key to acknowledge that input of data is complete. A new screen appears with multiple options, which include "VERIFY SSN" and "CONTINUE". The user has the option to verify the client's SSN or perform alternative actions.

## EXHIBIT 2

### Media Sanitization:

- f) Disposal: Refers to the discarding (e.g., recycling) media that contains no sensitive or confidential data.
- g) Overwriting/Clearing: This type of media sanitization is adequate for protecting information from a robust keyboard attack. Clearing must prevent retrieval of information by data, disk, or file recovery utilities. Clearing must be resistant to keystroke recovery attempts executed from standard input devices and from data scavenging tools. For example, overwriting is an acceptable method for clearing media. Deleting items, however, is not sufficient for clearing.

This process may include overwriting all addressable locations of the data, as well as its logical storage location (e.g., its file allocation table). The aim of the overwriting process is to replace or obfuscate existing information with random data. Most rewriteable media may be cleared by a single overwrite. This method of sanitization is not possible on unwriteable or damaged media.

- h) Purging: This type of media sanitization is a process that protects information from a laboratory attack. The terms *clearing* and *purging* are sometimes synonymous. However, for some media, clearing is not sufficient for purging (i.e., protecting data from a laboratory attack). Although most re-writeable media requires a single overwrite, purging may require multiple rewrites using different characters for each write cycle.

This is because a laboratory attack involves threats with the capability to employ non-standard assets (e.g., specialized hardware) to attempt data recovery on media outside of that media's normal operating environment.

- i) Degaussing is also an example of an acceptable method for purging magnetic media. The EIEP should destroy media if purging is not a viable method for sanitization.
- Destruction: Physical destruction of media is the most effective form of sanitization. Methods of destruction include burning, pulverizing, and shredding. Any residual medium should be able to withstand a laboratory attack.

## EXHIBIT 2

### **Permission module:**

A utility or subprogram within an application, which automatically enforces the relationship of a request for or query of SSA-provided information to an authorized process or transaction before initiating a transaction. The System will not allow a user to request information from SSA unless the EIEP's client system contains a record of the subject individual's SSN. A properly configured Permission Module also enforces referential integrity and prevents unauthorized random browsing of PII.

### **Screen Scraping:**

Screen scraping is normally associated with the programmatic collection of visual data from a source. Originally, screen scraping referred to the practice of reading text data from a computer display terminal's screen. This involves reading the terminal's memory through its auxiliary port, or by connecting the terminal output port of one computer system to an input port on another. The term screen scraping is synonymous with the term bidirectional exchange of data.

A screen scraper might connect to a legacy system via Telnet, emulate the keystrokes needed to navigate the legacy user interface, process the resulting display output, extract the desired data, and pass it on to a modern system.

More modern screen scraping techniques include capturing the bitmap data from a screen and running it through an optical character reader engine, or in the case of graphical user interface applications, querying the graphical controls by programmatically obtaining references to their underlying programming objects.

### **Security Breach:**

An act from outside an organization that bypasses or violates security policies, practices, or procedures.

### **Security Incident:**

A security incident happens when a fact or event signifies the possibility that a breach of security may be taking place, or may have taken place. All threats are security incidents, but not all security incidents are threats.

### **Security Violation:**

An act from within an organization that bypasses or disobeys security policies, practices, or procedures.

## EXHIBIT 2

### **Sensitive data:**

Sensitive data is a special category of personally identifiable information (PII) that has the potential to cause great harm to an individual, government agency, or program if abused, misused, or breached. It is sensitive information protected against unwarranted disclosure and carries specific criminal and civil penalties for an individual convicted of unauthorized access, disclosure, or misuse. Protection of sensitive information usually involves specific classification or legal precedents that provide special protection for legal and ethical reasons.

### **Security Information Management (SIM):**

SIM is software that automates the collection of event log data from security devices such as firewalls, proxy servers, intrusion detection systems and anti-virus software. The SIM translates the data into correlated and simplified formats.

### **SMDS (Switched Multimegabit Data Service (SMDS):**

SMDS is a telecommunications service that provides connectionless, high-performance, packet-switched data transport. Although not a protocol, it supports standard protocols and communications interfaces using current technology.

### **SSA-provided data/information:**

Synonymous with “SSA-supplied data/information”, defines information under the control of SSA provided to an external entity under the terms of an information exchange agreement with SSA. The following are examples of SSA-provided data/information:

- SSA’s response to a request from an EIEP for information from SSA (e.g., date of death)
- SSA’s response to a query from an EIEP for verification of an SSN

### **SSA data/information:**

This term, sometimes used interchangeably with “SSA-provided data/information,” denotes information under the control of SSA provided to an external entity under the terms of an information exchange agreement with SSA. However, “**SSA data/information**” also includes information provided to the EIEP by a source other than SSA, but which the EIEP attests to that SSA verified it, or the EIEP couples the information with data from SSA as to to certify the accuracy of the information. The following are examples of SSA information:

- SSA’s response to a request from an EIEP for information from SSA (e.g., date of death)
- SSA’s response to a query from an EIEP for verification of an SSN

## EXHIBIT 2

- Display by the EIEP of SSA's response to a query for verification of an SSN **and** the associated SSN provided by SSA
- Display by the EIEP of SSA's response to a query for verification of an SSN **and** the associated SSN provided to the EIEP by a source other than SSA
- Electronic records that contain only SSA's response to a query for verification of an SSN **and** the associated SSN whether provided to the EIEP by SSA or a source other than SSA

### SSN:

Social Security Number

### STC:

A State Transmission/Transfer Component is an organization, which performs as an electronic information conduit or collection point for one or more other entities (also referred to as a hub).

### System-generated transaction:

A transaction automatically triggered by an automated system process.

Example: A user enters a client's information including the client's SSN on an input screen and presses the "ENTER" key to acknowledge that input of data is complete. An automated process then matches the SSN against the organization's database and when the systems finds no match, automatically sends an electronic request for verification of the SSN to SSA.

### Systems process:

Systems Process refers to a software program module that runs in the background within an automated batch, online, or other process.

### Third Party:

Third Party pertains to an entity (person or organization) provided access to SSA-provided information by an EIEP or other SSA business partner for which one or more of the following apply:

- is not stipulated access to SSA-provided information by an information-sharing agreement between an EIEP and SSA
- has no data exchange agreement with SSA
- SSA does not directly authorize access to SSA-provided information

### Transaction-driven:

This term pertains to an automatically initiated online query of or request for SSA information by an automated transaction process (e.g., driver license issuance, etc.). The query or request will only occur the automated process meets prescribed conditions.

## EXHIBIT 2

### Uncontrolled transaction:

This term pertains to a transaction that falls outside a permission module. An uncontrolled transaction is not subject to a systematically enforced relationship between an authorized process or application and an existing client record.

A: Refer to [Security Breach](#), [Security Incident](#), and [Security Violation](#).
2. Q: What is employee [browsing](#)?

3. Q: Okay, so the EIEP submitted the SDP. Can SSA schedule the Onsite

## EXHIBIT 2

Review?

A: Refer to [Scheduling the Onsite Review](#).

4. Q: What is a “**Permission Module**?”

A: A utility or subprogram within an application, which automatically enforces the relationship of a request for or query of SSA-provided information to an authorized process or transaction before initiating a transaction. For example, if requests for verification of an SSN for issuance of a driver’s license happens automatically from within a state driver’s license application. The System will not allow a user to request information from SSA unless the EIEP’s client system contains a record of the subject individual’s SSN.

5. Q: What “**Screen Scraping**?”

A: Screen scraping is normally associated with the programmatic collection of visual data from a source. Originally, screen scraping referred to the practice of reading text data from a computer display terminal’s screen. This involves reading the terminal’s memory through its auxiliary port, or by connecting the terminal output port of one computer system to an input port on another. The term screen scraping is synonymous with the term bidirectional exchange of data.

A screen scraper might connect to a legacy system via Telnet, emulate the keystrokes needed to navigate the legacy user interface, process the resulting display output, extract the desired data, and pass it on to a modern system.

More modern screen scraping techniques include capturing the bitmap data from a screen and running it through an optical character reader engine, or in the case of graphical user interface applications, querying the graphical controls by programmatically obtaining references to their underlying programming objects.

6. Q: When does an EIEP have to submit an SDP?

A: Refer to [When the SDP is Required](#).

7. Q: Does an EIEP have to submit an SDP when the agreement is renewed?

A: The EIEP does not have to submit an SDP *because* the agreement between the EIEP and SSA was renewed. There are, however, circumstances that require an EIEP to submit an SDP.

Refer to [When the SDP is Required](#).

8. Q: Is it acceptable to save SSA-provided information with a verified indicator on a (EIEP) workstation if the EIEP uses an encrypted hard drive? If not, what options does the agency have?

A: There is no problem with an EIEP saving SSA-provided information on the encrypted hard drives of computers used to process SSA-provided information if the EIEP retains the information only as provided for in

## EXHIBIT 2

the EIEP's data-sharing agreement with SSA.  
Refer to [Data and Communications Security](#).

9. Q: Does SSA allow EIEPs to use caching of SSA-provided information on the EIEP's workstations?  
A: Caching during processing is not a problem. However, SSA-provided information must clear from the cache when the user exits the application. Refer to [Data and Communications Security](#).
10. Q: What does the term "interconnections to other systems" mean?  
A: As used in SSA's system security requirements document, the term "interconnections" is the same as the term "connections."
11. Q: Is it acceptable to submit the SDP as a .PDF file?  
A: No, it is not. The document must remain editable.
12. Q: Should the EIEP write the SDP from the standpoint of the EIEP SVES (or applicable data element) access itself, or from the standpoint of access to all data provided to the EIEP by SSA?  
A: The SDP is to encompass the EIEP's entire electronic access to SSA-provided information as per the electronic data exchange agreement between the EIEP and SSA.  
Refer to [Developing the SDP](#).
13. Q: If the EIEP has a "transaction-driven" system, does the EIEP still need a permission module? If employees cannot initiate a query to SSA, why would the EIEP need the permission module?  
A: "Transaction driven" means that queries submit requests automatically (and it might depend on the transaction). Depending on the system's design, queries might not be automatic or it may still permit manual transactions. A system may require manual transactions to correct an error. SSA does not prohibit manual transactions if an ATS properly tracks such transactions. If a "transaction-driven" system permits any type of alternate access, it still requires a permission module, even if it restricts users from performing manual transactions. If the system does **not** require the user to be in a particular application and/or the query to be for an existing record in the EIEP's system **before** the system will allow a query to go through to SSA, it would still need a permission module.
14. Q: What is an Onsite Compliance Review?  
A: The Onsite Compliance Review is SSA's periodic site visits to its Electronic Information Exchange Partners (EIEP) to certify whether the EIEP's management, operational, and technical security measures for protecting data obtained electronically from SSA continue to conform to the terms of the EIEP's data sharing agreements with SSA and SSA's associated system security requirements and procedures.  
Refer to the [Compliance Review Program and Process](#).

## EXHIBIT 2

15. Q: What are the criteria for performing an Onsite Compliance Review?  
A: The following are criteria for performing the Onsite Compliance Review:
- EIEP initiating new access or new access method for obtaining information from SSA
  - EIEP's cyclical review (previous review was performed remotely)
  - EIEP has made significant change(s) in its operating or security platform involving SSA-provided information
  - EIEP experienced a breach of SSA-provided personally identifying information (PII)
  - EIEP has been determined to be high-risk
16. Q: What is a Remote Compliance Review?  
A: The Remote Compliance Review is when SSA conducts the meetings remotely (e.g., via conference calls). SSA schedules conference calls with its EIEPs to determine whether the EIEPs technical, managerial, and operational security measures for protecting data obtained electronically from SSA continue to conform to the terms of the EIEP's data sharing agreements with SSA and SSA's associated system security requirements and procedures. Refer to the [Compliance Review Program and Process](#).
17. Q: What are the criteria for performing a Remote Compliance Review?  
A: The EIEP must satisfy the following criteria to qualify for a Remote Compliance Review:
- EIEP's cyclical review (SSA's previous review yielded no findings or the EIEP satisfactorily resolved cited findings)
  - EIEP has made no significant change(s) in its operating or security platform involving SSA-provided information
  - EIEP has not experienced a breach of SSA-provided personally identifying information (PII) since its previous compliance review.
  - SSA rates the EIEP as a low-risk agency or state

## EXHIBIT 2

### **Security Certification Requirements for use of the SSA Data Set via the Centers for Medicare & Medicaid Services' (CMS) Hub**

The Social Security Administration (SSA) does not allow new data exchange partners to begin receiving data electronically until the Authorized State Agency submits an approved Security Design Plan (SDP). SSA's Office of Information Security (OIS) usually performs an onsite security review to verify and validate that the management, operational, and technical controls conform to the requirements of the signed agreements between SSA and the Authorized State Agency, as well as applicable Federal law and SSA's technical systems security requirements (Attachment 4 to the Information Exchange Agreement (IEA)). As it concerns the use of the *SSA Data Set* via the Hub, OIS will waive the initial SDP/Certification for an existing Authorized State Agency if it meets all the following criteria:

1. The Authorized State Agency already has a functioning CMS-approved Integrated Eligibility Verification System (IEVS).
2. The Authorized State Agency is already receiving data from the Hub to support the Medicaid program and/or the Children's Health Insurance Program (CHIP).
3. The Authorized State Agency will only process requests for the *SSA Data Set* for administration of health or income maintenance programs approved by SSA through the Hub in conjunction with Insurance Affordability Programs eligibility determinations.
4. The Authorized State Agency agrees that the SSA security controls identified in the IEA and Attachment 4 to the IEA will prevail for all SSA data received by the State Agency, including the *SSA Data Set*.
5. The Authorized State Agency agrees that a significant vulnerability or risk in a security control, a data loss, or a security breach may result in a suspension or termination of the *SSA Data Set* through the Hub. In this case, at SSA's request, the Authorized State Agency agrees to immediately cease using the *SSA Data Set* for all SSA authorized health or income maintenance programs until the State Agency sufficiently mitigates or eliminates such risk(s) and/or vulnerabilities to SSA's data.
6. The Authorized State Agency agrees not to process verification requests through the Hub from a standalone application for health or income maintenance program requests that have no connection to Insurance Affordability Programs eligibility determinations.

In the event that an Authorized State Agency decides to implement a new integrated eligibility system or use a different Authorized State Agency to implement the health or income maintenance data exchange process through the Hub, the Authorized State Agency will submit to SSA's OIS an SDP and be approved/certified prior to receipt of the *SSA Data Set* through the Hub. The Authorized State Agency will adhere to the following criteria, in addition to those stated in the IEA, section C, Program Questionnaire:

1. The Authorized State Agency agrees to provide an attestation to SSA that it has received certification through the CMS Hub approval MARS-E process.
2. The Authorized State Agency attests that it operates and has a CMS-approved IEVS and the IEVS initiates the request for the *SSA Data Set* for the State Agency's administration of health or income maintenance programs approved by SSA through the Hub in conjunction with Insurance Affordability Programs eligibility determinations.

## EXHIBIT 2

3. The Authorized State Agency uses a streamlined multi-benefit application. The Authorized State Agency agrees not to process verification requests through the Hub from a standalone application for health or income maintenance program requests that have no connection to Insurance Affordability Programs eligibility determinations.
4. The Authorized State Agency will not request the *SSA Data Set* through the Hub until it has successfully begun using the Hub for administration of Insurance Affordability Programs eligibility determinations. SSA will begin sending the *SSA Data Set* to the Authorized State Agency after the State Agency verifies that the Hub process works, as required by the CMS Hub approval MARS-E process.
5. The Authorized State Agency agrees to participate in SSA's SDP/Certification process prior to transmitting requests for the *SSA Data Set* through the Hub and to participate in SSA's triennial security compliance reviews on an ongoing basis.
6. The Authorized State Agency agrees that a significant vulnerability or risk in a security control, a data loss, or a security breach may result in a suspension or termination of the *SSA Data Set* through Hub. In this case, at SSA's request, the Authorized State Agency agrees to immediately cease using the *SSA Data Set* for all SSA authorized health or income maintenance programs until the State Agency sufficiently mitigates or eliminates such risk(s) and/or vulnerabilities to SSA's data.
