Subject: Truckee River: Wild and Scenic

I, Nicole Cartwright, highly encourage the El Dorado County Board of Supervisors to endorse Wild and Scenic status for the Upper Truckee River. This wonderful river provides recreation, abundant wildlife habitat and the largest amount of water into our Lake. Wild and Scenic status for the Upper Truckee, a designation recommended by the Forest Service, is a critical step in creating a comprehensive monitoring and management plan for the river to provide long-term guidance to protect the clean water that enters Lake Tahoe and the native Lahontan cutthroat trout that call the river home. Keeping the Upper Truckee River watershed just as it is today is a critical step to achieving lake clarity results and helping to de-list the Lahontan cutthroat trout from the Endangered Species Act.

Thank you,
Nicole Cartwright

Fw: Please Endorse Wild & Scenic Status for the Upper Truckee River

I strongly recommend that the El Dorado County Board of Supervisors support the designation of the Upper Truckee River as a Wild and Scenic River. The reason for doing so is both simple and important: it will bring economic benefits to your area by significantly heightening the attractiveness of the river as a destination for sport-anglers and for those who enjoy hiking and recreating in relatively untrammelled wilderness.

Subject: Wild & Scenic Truckee

Hi,

I'm writing this afternoon to express my support for tomorrow's vote on designating the Upper Truckee as a Wild & Scenic river.

As a 3rd generation Californian, my family has enjoyed spending time in the Tahoe basin for more than 50 years.

I remember straining to imagine the Truckee's 40 pound Lahontan Cutthroat my grandfather talked about. While I understand there are likely competitive interests to consider, and significant budgetary constraints, I hope you'll consider protecting the Upper Truckee so that I may someday fish with my grandchildren and watch their eyes bulge as I compare the trout in their hand to it's 40 pound ancestors.

Thanks,
Mike

We live and vote at Kirkwood; I know the Upper Truckee well starting at Carson Pass. Anything that can be done to preserve that wonderful Upper Truckee River valley I'm all for something for which I'm ready to contribute funds.

I am out of the country on the 11th so cannot attend the meeting. Please share this email to let the supervisors know that I support the plans.
