BOARD OF SUPERVISORS

<u>EL DORADO COUNTY</u>		<u>ALPINE COUNTY</u>	
John Knight	District 1	Donald M. Jardine	District 1
Ray Nutting	District 2	Henry "Skip" Veatch	District 2
James R. Sweeney	District 3	Philip D. Bennett	District 3
Ron Briggs	District 4	Terry Woodrow	District 4
Norma Santiago	District 5	Tom Sweeney	District 5

In accordance with Section 2279 of the California Food and Agricultural Code, I hereby submit the 2008 El Dorado & Alpine Counties Crop Report.

The El Dorado County gross crop value for 2008 was \$35.4 million which is an overall decrease of 33.5% from the 2007 values. The decline in total value was mainly due to weather related damage caused by low springtime temperatures and a dramatic decrease in timber harvesting. Specifically, timber values saw a precipitous 67.6% decrease from the prior year while many of the other crops experienced lower harvests of higher quality fruits.

The monetary values in this report are F.O.B. (Freight On Board) and do not reflect net returns or profits realized by the growers. It is estimated that the impact of agriculture on El Dorado County's economy totaled approximately \$377 million in 2008 of which the wine industry contributed an estimated \$171 million while Apple Hill added another \$101 million.

The Alpine County gross crop value for 2008 was estimated to be \$4.1 million which is a \$600,000 decrease from the 2007 value.

I wish to express my sincere appreciation to the many individuals and organizations that have contributed information to make this report possible. I particularly wish to thank members of my staff, Heather Meleski and Jesse Honeycutt, for compiling, tabulating and formatting the data.

Respectfully Submitted,

WILLIAM J. STEPHANS
Agricultural Commissioner

Toadflax ssp. (<i>Linaria genistifolia</i>)	Chemical/Mechanical	Eradication
Yellow starthistle (<i>Centaurea solstitialis</i>)	Mechanical/Chemical/Bio-control	Management

Sustainable Agriculture Reporting for El Dorado and Alpine Counties

Pest Exclusion

Prevents the introduction of detrimental pests that are not of common occurrence in California. Over 1709 inspections at 444 locations were made during 2008.

Pest Detection

Monitoring program to detect pests that may have entered El Dorado County despite pest exclusion efforts. Over 900 traps were placed in 2008 in both rural and urban areas to detect various pests.

Pest Eradication

Includes chemical and mechanical treatments. Gill's Mealybug infestations were treated by the growers in cooperation with this Department during the 2008 growing season.

Pest Management

El Dorado County Noxious Weed Management Group: Coordinates invasive weed control, education and eradication among federal, state, county and private agencies along the west slope, within the Lake Tahoe Basin and throughout Alpine County.

Glassy-winged Sharpshooter (GWSS) Pest Management Program: Includes inspections of all nursery stock shipped into the county from known GWSS infested areas. Over 400 insect traps have been deployed and monitored throughout the county.

*Biological Control Program: Releases insects and other organisms that act as natural enemies against noxious pests. Biocontrol projects include: Leaf beetle (*Chrysolina quadrigemina*) to control Klamath Weed. Seed weevil (*Eustenopus villosus*), the Peacock fly (*Chaetorellia australis*), the bud weevil (*Bangasternus orientalis*), the gall fly (*Urophora sirunaseva*), the flower weevil (*Larinus curtus*), the hairy weevil (*Eustenopus villosus*), and the rust fungus (*Puccinia jaceae* var. *solstitialis*) to reduce the spread of Yellow Starthistle. The El Dorado County Department of Agriculture monitors and relocates the organisms in cooperation with the California Department of Food and Agriculture.*

Vertebrate Pest Management Program: Assists growers and homeowners in the control of destructive vertebrate pests (i.e., mice, rats, etc.).

Wildlife Management Program: Provides management of wildlife that are deprecating livestock, property and/or presenting a hazard to public health and safety in El Dorado and Alpine County.

Pesticide Monitoring

Monitoring program to protect public health, property, the environment and agricultural workers. This program is conducted in partnership with the California Department of Pesticide Regulation.

Commodity Evaluation and Marketing Programs

Certified Farmer's Market Program: *Allows farmers to market directly to consumers at area Certified Farmer's Markets. Grower inspections are conducted by the Department to validate the registration. There were 56 growers registered as certified growers with production areas within the county.*

Organic Program: *Includes registration by growers in order to market farm products as organically grown. Grower inspections are conducted by the Department to validate the registration. In 2008, 18 growers were registered as organic, representing 180 acres under production.*

Standardization Program: *Protects consumers and the fresh fruit, nut and vegetable industry from distribution of substandard products. Standardization laws establish minimum specifications for maturity, quality and size of commodities (i.e., apples, pears) plus standard container pack and labeling. Quality Control inspections are also conducted on nursery stock, eggs and seeds.*
