Dear Members of the El Dorado County Board of Supervisors – Please do not adopt Item 32. 20-0545 as you will only invite MASSIVE CIVIL DISOBEDIENCE to unconstitutional deprivations of civil rights. Such an ordinance would be no more legal than President Roosevelt's order locking up U.S. citizen's of Japanese descent into concentration camps!... especially in the widespread knowledge that the Chinese Corona Virus swept through our area last Fall before the unreliable news media and self-proclaimed health experts knew of this virus and began scaring people out of their ability to logically reason. Please get a grip on reality and admit to yourselves that we have been duped like the people in the "Emperor's New Cloths" fable, the Chinese Corona Virus is no more of a threat to us than a bad influenza virus.

Thank you,

Dan Dellinger

VOTE NO on Agenda Item #32

This Item seems to have been added after we had read the original agenda for today. At first glance, we can't believe this has been submitted for the agenda. Who are we becoming? Because of COVID19 we are now to be policed and fined for not following protocols set forth by unelected agents? Please let's just "chill" and not use our current unfortunate condition to institute by fiat a radical proposal such as this.

With great concern,
Tom and Mary Dohnke

I've never written the BOS.

I am writing to voice my concern with the proposed \$1000 fine for not following the quarantine. For every community member who feels extreme steps are needed to force neighbors to follow the order and comply, there is an equally important counter argument fighting for individual rights. As a moment in time, for every argument requiring masks be worn, there is a counter argument stating that masks can get you sick faster. You can welcome more lawsuits making the case that local govt knows better and will decide for you under the guise of "common good" following the master narrative. Or you can press pause. What decision falls in line with the spirit of this county? Forced compliance? Turning neighbor on neighbor? Ugly force vs. understanding and empathy? Levying fines is a heavy hand stomping on freedoms and forcing compliance. History may be the only proof if either side landed on the right side. Until then, no argument is strong enough.

Ordinances for health and safety of residents and visitors to El Dorado County are essential especially while Covid19 is active in our state.

In El Dorado County about 2,500 people tested for Covid19 and just less than half were positive and remainder were negative, so that's about 2-3% of El Dorado County tested total. we have 192,000 residents. Just 189,600 left to get tested. (As of this date 4/13/20). Our Governor has told everyone to stay home. People not of this county, should stay home and not vacation at this time. It just makes common healthy sense.

192,000 residents alone is a big population to manage. We need to get residents tested for either not infected, are infected or has antibodies or we need to continue to shelter in place. There is no cure and we're all in this together. Let's just do what's morality right.
