Dear Sir/Madam,

we reside at 3339 Bordeaux Drive, Eldorado Hills, CA, 95762.

One of the main reason we brought house in this nice neighborhood was quiet and peaceful surrounding. we can hear the nature and come close to nature after coming home.

Seems like county don't like our peaceful neighborhood and approved ARCO/24 hours, which is going to be directly visible/audible from our/mine house. This is total violations of our privacy, noise level and illuminations.

Eldorado county don't have street light to take care of all wilderness, then why we are allowing this 24 Hours ARCO which will create nothing much noise, light.

In addition, we recently found out that, it will have even Car wash and Vaccum, please stop this for sake of the same wilderness we don't have streetlight. It will be totally ruin our peace, and pleasant evening.

we have great concern on this and we like to fight for this.

Thanks
Bharat & Rameshwari
