ARTICLE II

Scope of Services: Contractor agrees to grant such license to County as a hosted service under the terms and conditions of this Agreement and to perform additional services, including but not limited to installation, integration, testing, and training of the Noble software under the terms and conditions of subsequent Work Orders (defined below) issued under this Agreement. Contractor agrees to furnish the personnel, training and service necessary to provide the following two (2) deliverables;

Deliverable 1: Noble Assessment Platform

Contractor will provision a license for the Noble Assessment Platform for 30 users within El Dorado County Probation. The Platform will be provisioned with the following automated assessments:

YOUTH	ADULT
○ PACT Pre	○ SRNA-Static Risk Needs Assessment
○ PACT Full	○ ONA-Offender Needs Assessment
○ DRAI	○ Static 99R
○ PREA	○ Virginia Pre-Trial Tool
○ MAYSI-II	

The Assessment Platform allows for an unlimited number of subjects and assessments to be completed by users. Additionally, case planning functionality is included in the platform and allows for unlimited case plans to be completed. Two case plans based on the PACT and customized to El Dorado's unique needs are included with the product at no extra charge.

Every installation of Noble's Assessment Platform comes standard with our forms designer. This is the same tool Contractor Engineers use to build Noble's assessments, and it's available at no charge to users within your agency. This powerful tool allows the creation of custom forms and assessments by your own agency staff that is instantly made available to users. This allows for custom data capture without expensive vendor calls for customization services.

The Assessment Platform comes with documentation and licenses to allow for optional integration with the system-of-record in El Dorado County. This integration is designed to save time and avoid data entry errors by allowing for single-sign on into the platform, automatic transfer of subject demographic information, and automatic entry of criminal history information. Use of this integration service is completely optional, however, and there is no separate cost associated with activating integration services. The system-of-record (SOR) can be changed at any time, and Contractor does not charge for integration changes when the SOR changes.

Requirements

County computers need to be running Internet Explorer 9 or later to access and utilize the assessment platform and have Adobe Reader installed for the viewing of reports within the system.

Deliverable 2: Training

Contractor will send a professional trainer onsite for trainings. Trainings are priced per day of instructor training, and all travel expenses are included in the daily rate for the training. A breakdown of suggested trainings and a proposed schedule for each of the user counts follows.

- Stakeholder Training – This is a two-hour session held on-site at El Dorado County. Judges, prosecutors, law enforcement, and other stakeholders within the juvenile justice community are invited to learn about the implementation process of evidence-based practices, as well as the impact on the services provided to youth within their community. This training time is scheduled to occur along with another implementation training session in order to save costs. Held separately, it is priced at the standard daily rate of \$2,200.
- Implementation Training – Implementation trainings are scheduled with key staff members within the El Dorado organization. The training is broken up into an initial three-day training and a single one-day follow-up training sessions. Participants will receive intensive training on the application of the assessment tools and will provide interactive feedback on the business rules that will guide the implementation process.
- Assessment and Case Plan Training (Youth)– This two-day session is designed for line staff and supervisors to learn the assessment tools and the eight guiding principles of effective interventions. Case Plan training includes modules on effective interviewing and the creation of case plans that are actionable, effective, and meaningful in the lives of offenders and their families. This class has a maximum size of 30 participants.
- Assessment and Case Plan Refresher Training (Youth)– This one-day session is scheduled to fall approximately three months after the go-live date of the application. The curriculum is designed to help maintain fidelity to the assessment model and refresh attendees on core principles after critical experience has been gained. Like the initial assessment training, this class has a 30 student limit.
- Assessment and Case Plan Training (Adult) – This two-day session is designed for line staff and supervisors to learn the assessment tools and the eight guiding principles of effective interventions. Case Plan training includes modules on effective interviewing and the creation of case plans that are actionable, effective, and meaningful in the lives of offenders and their families. This class has a maximum size of 30 participants.
- Assessment and Case Plan Refresher Training (Adult) – This one-day session is scheduled to fall approximately three months after the go-live date of the application.
