To whom it concern,

My family moved here this month, 20 years ago. We live in shingle springs. We have been very active in the community , church, 4H, jobs, school. When we moved here the ponderosa/south shingle/mother lode dr intersection was all stop signs, now, not even the traffic lights are sufficient.

Lets use some common sense. If you drive around camron Park in the various shopping centers you will see empty store fronts. I don't understand why you need to put more businesses in when there not needed. Camron Park already has two hotels and plenty of restaurants. We moved here to get away from crowds but you are bringing the crowds to us. If you feel the need to put something there I think that maybe homes would be better than lightning up our sky with more and more commercial properties. Since Walmart has been here look how many businesses have closed due to them ,the latest one Kmart. Please no Tilden Park! Thank you, Melissa Koss
