Report Suspicious

Board of Supervisors,

I have been a resident of Blackstone for 10 years and agree there is an issue with road safety, but I see issues all throughout El Dorado Hills. I'm a former employee with the County of Los Angeles and worked for a Department Head and was second in charge of a Department in the City of Irvine. I follow our issues in our community closely and our HOA Board is very responsible and open. This is the first I have heard of such a resolution, and I was surprised. I used to be part of the Traffic and Safety Committee and do feel the community needs more information and should have a say in the matter before this issue was presented to you.

I'd like to ask you to vote no and give direction to the HOA Board to further investigate the fiscal impact, long-term success rate of the program, and consider alternate solutions to mitigate the problem. As I understand from other communities, there are other less expensive solutions that can be implemented that have not been considered, that are more effective. Perhaps Blackstone could be an example of effective measures that can be used throughout the County. Let's not waste this opportunity to potentially help other neighbors and keep a larger population safer instead of just ours.
