manufacturer/dealer in lieu of the manufacturer's prescribed procedures which may form a part of the warranty.

All emission-related components shall be warranted in compliance with California Air Resources Board and Federal requirements. Proposals offering independent insurance or a statement indicating self-insurance will be deemed non-responsive and will be rejected.

If an additional extended warranty is purchased, a warranty certificate, warranty card, or a statement indicating the extended warranty has been recorded with the manufacturer shall be furnished with each vehicle delivered.

Normal wear items such as tires, belts, hoses, headlamps, light bulbs, brake linings, brake discs/drums, etc. are excluded from warranty coverage. All other items not subject to normal wear or gross operator neglect and abuse, such as window, seat, or wiper motors, chassis electrical switches (door, trunk lid) paint, hinges, locks, etc., shall be covered.

The State reserves the right to use re-refined lubrication oils, where available, in lieu of virgin equivalent oils. The re-refined oils used by the State will meet all API and SAE standards and specifications as set forth by the vehicle manufacturer.

The use of said oils shall in no way void or degrade the original manufacturer's standard warranty.

The State reserves the right to use recycled content antifreeze/coolant, where available, in lieu of virgin equivalent antifreeze/coolant when servicing its vehicles. The recycled content antifreeze/coolant used by the State will meet all ATSM standards and specifications as set forth by the vehicle manufacturer.

Note: Vehicles not placed in service immediately upon receipt shall be warranted from the date the unit is placed in service. The receiving department shall notify the dealer in writing of the actual "In-Service" date.

28. REPAIR PARTS

The vehicle manufacturer shall maintain an adequate stock of all regular and special parts to meet the continuing service and repair parts needs of the State without undue delay.

A special system shall be set up for expediting the procurement of back order items needed to repair an inoperative vehicle including a system to air freight parts at factory expense when parts are not in stock in California parts depots. Parts must be available within three (3) working days after telephone notification.

Vehicles with new technology emerging into the industry (e.g. fuel cell vehicles) may require more than (3) working days for the availability of certain parts. Contractor must notify the DGS CA and ordering agency when this occurs and provide the estimated date of availability.

The State reserves the right to use re-refined lubrication oils, where available, in lieu of virgin equivalent oils. The re-refined oils used by the State will meet all API and SAE standards and specifications as set forth by the vehicle manufacturer.

The use of said oils shall in no way void or degrade the original manufacturer's standard warranty.

The State reserves the right to use recycled content antifreeze/coolant, where available, in lieu of virgin equivalent antifreeze/coolant when servicing its vehicles. The recycled content antifreeze/coolant used by the State will meet all ATSM standards and specifications as set forth by the vehicle manufacturer.

Note: Vehicles not placed in service immediately upon receipt shall be warranted from the date the unit is placed in service. The receiving department shall notify the dealer in writing of the actual "In-Service" date.

28. REPAIR PARTS

The vehicle manufacturer shall maintain an adequate stock of all regular and special parts to meet the continuing service and repair parts needs of the State without undue delay.

A special system shall be set up for expediting the procurement of back order items needed to repair an inoperative vehicle including a system to air freight parts at factory expense when parts are not in stock in California parts depots. Parts must be available within three (3) working days after telephone notification.

Vehicles with new technology emerging into the industry (e.g. fuel cell vehicles) may require more than (3) working days for the availability of certain parts. Contractor must notify the DGS CA and ordering agency when this occurs and provide the estimated date of availability.
