

Specific Purpose :
To create affordable single and or multi-family residential housing development, as well as special needs housing, senior and veteran housing, supportive housing and community facilities.

The entity is considered a rehabilitation organization, providing all contractor services as well as providing building services regarding disaster recovery regardless of federal designation. These services may be provided at the state and local levels.

The organization will also provide funding towards construction costs for families and individuals who do not qualify for conventional or low-interest loans due to high debt-to-loan or other financial impediments.

Non-profit Construction Corporation is not only a community based organization dedicated to affordable housing, but as well a community partner and stakeholder.

This is why Non-profit Construction Corporation takes large portions from affordable housing developments as the contractor and developer and re-invests revenue back into programs, services and community needs.

Non-profit Construction Corporation is committed to lasting community partnerships preserving financial equity for future working capital with our partners.

Assisting our Veterans...

The HUD VASH or the Housing and Urban Development Veteran Affairs Supportive Housing voucher can be utilized for Homeownership. This voucher does not have to be graduated to a Section 8 HCV and is allowed a streamlined process when being utilized for homeownership. This has been confirmed by Public and Indian housing. Non-profit Construction Corporation provides many services in order to help and assist public housing authorities and Veteran VASH recipients who would like to pursue homeownership.

We are, Opportunity
