**Re: GOV18-0001/Rare Plant Mitigation Land Acquisition-DeWolf Family Partnership
Allocation of Ecological Preserve Special Revenue Funds APN: 109-230-12**

To the Planning Commission:

We strongly support the acquisition of APN 109-230-12 to support conservation of four species of the Gabbro Soils/Pine Hill plants. As stated in the staff report, this property has been identified by experts and agencies as a priority for acquisition for a number of years. It was also identified in the federal recovery plan for the gabbro soil plants as a priority 1 acquisition, which is an action viewed by the recovery plan as necessary to prevent extinction or to prevent the species from declining irreversibly in the foreseeable future.

If there is anything we can do to further support this project, please let us know.

Sincerely,

A handwritten signature in cursive script that reads "Susan Britting".
