# How does data inform our work?

Data is collected through a variety of sources to better understand unique community needs:

- Census Data by Supervisorial District
- Data on incoming Kindergarten Students (Pre K Observation Form)
- Data on families participating in First 5 Services (Family Survey)
- Data on children meeting developmental milestones (ASQ/ASQ:SE)
- Administrative Data (First 5 El Dorado)
- Focus Groups
- Hub Staff Input

- Data has its limitations:
  - Consistency of survey questions
  - Confidence levels
  - Timing of Focus Groups

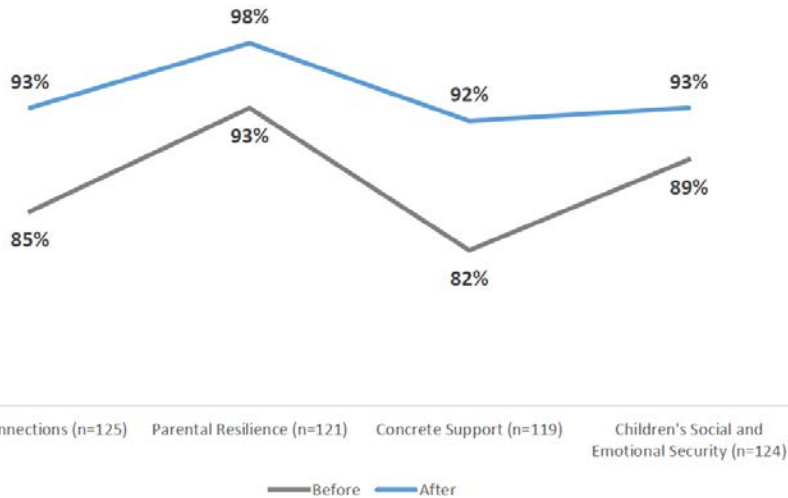

Type of Data	Number of Families in Service Population	Surveys Collected	Margin of Error
Hub 5 Participant Data	298	127	6.60%
Community Level Data	410	243	4.02%

# Community Hub 5: Demographics

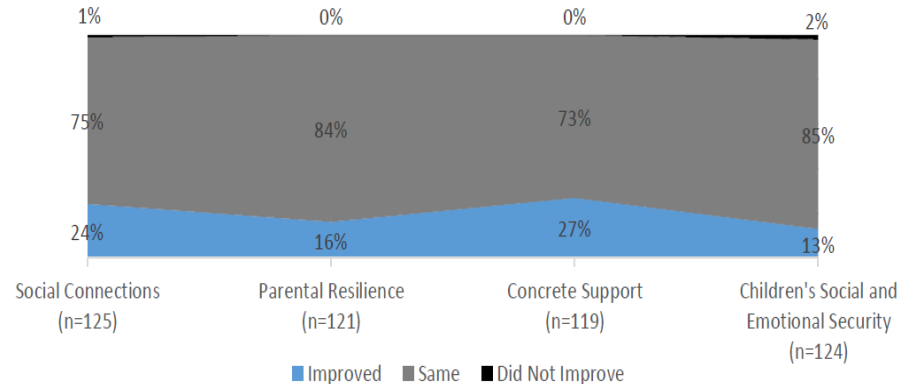

Total Hub Target Population		34,311	Race		Total Population	Service Population	
Total Served		874	White		80%	47%	
Surveys collected		127	Multiracial		3%	9%	
Age			Black		1%	0	
Adults		298 (34%)	American Indian		<1%	.7%	
Children		576 (66%)	Asian/Pac Islander		5%	1%	
Under 3		302 (53%)	Hispanic		24%	22%	
3 to 6		272 (47%)	Other		-	2%	
Age Unknown		2 (0%)	Unknown		-	17%	
Income		Total Population Mean Income	Service Population Living Below 130% FPL	Language		Total Population	Service Population
		\$72,670	22%	Primary language English		-	62%

# Systems Change

- **Behavioral Health Referral System with El Dorado Union High School District**
- **Universal Developmental Screenings within high quality child care programs**
- **Preventive Screenings within Marshall and Barton Hospital**
- **Professional development through the ACEs Collaborative**
- **Care Coordination with area Medical Providers**

# Systems Change

Hub Leadership is working with the El Dorado Union High School District to build a referral system that is collaborative, has a single point of entry and is responsive to children and families.

The goal is to ensure all families are connected to services that meet their individual needs, in a timely manner, and with an efficient use of resources.
