Dear Kim,

I presume the reason I haven't yet received a reply to the attached by 5/5 is that you actually meant to reply by 5/15.

Please note that I wish to request item #20 - Agenda 21 be pulled for public discussion at Tuesday's BOS meeting.

The following helpful website is germane to Agenda 21 and the DOT/RMAC/Environmental Mgt./CA State Parks materials previously forwarded. These issues were discussed 4/30 with CAO Terri Daly and with Sheriff D'Agostini on 5/1: <http://www.lgc.org/ahwahnee/principles.html>

Thank you for your consideration and I look forward to hearing from you soon.

Subject: RE: DOT - Mt. Murphy Road Repairs - MGDP

Hi Kim,

Thank you for your reply.

Before responding, it will help to familiarize yourself with the associated agenda for the RMAC meeting held in Ron Briggs office 7/16/09. It represents an unending merry-go-round with the BOS, DOT, Parks & Recreation, Environmental Management and Law Enforcement. The core issues were initially addressed during our 9/5/07 meeting in the Marshall Gold Discovery Park Museum with representatives from the offices of CA State Parks, Senator Cox and Assemblyman Gaines (attached).

Per my conversation with Tom Celio on Friday around 3:00 PM, he appears to comprehend the relevance of these core issues to the **11th Annual Statewide Eagle Forum** held at the Capitol this past weekend entitled **UN Agenda 21 – Part II “Big Green Lies and Liberty’s Demise.”** Sponsors of the conference included: Pacific Justice Institute, Long Beach Eagle Forum, Sonoma County EagleForum, East Bay Tea Party, North Bay Patriots, Bay Area Patriots, Redding Tea Party, Californians for Property Rights, Freedom Advocates.org, Americans for Protecting Property Rights, Environmental Perspectives, Inc.(EPI); Consumer Power Alliance; and RefuseSmartMeters.com.

Jim Mitrisin is coordinating a meeting with Terri Daly for related issues. I’ll be happy to provide the necessary info to bring you up to date.

Regards,

Melody Lane

Melody,

I apologize for not getting back to you sooner. I need to educate myself on the issues before I can respond to your requests. I appreciate the attachment you provided. I will provide you with a response by May 5, 2012. Unfortunately, I am working on various projects and attending meetings, so it will take me that long to provide a response.
