List all County boards, commissions or committees to which you are/were appointed. Please include dates of service.	I have served on various committees within the Marshall Medical system. I am currently a representative of the "Top Flyers" committee which required nomination by peers.
Summary of qualifications	I am currently a credentialed Substance Use Counselor and am currently in the position of a Substance Use Navigator through our local hospital system. Through this work, I have gained experience working closely with community partners through EDCOE, Infant Parent Center, EDSO, Probation and CPS. I have provided counseling services to community members for five years and additionally, currently up to date with Community Health Worker credential.
Affiliations with professional and/or community groups	Marshall Medical Center and Recovery In Action formally. Informally, I

work very closely with numerous agencies throughout the community including EDCOE, IPC, EDSO, CPS and EDC Probation.

Why do you seek appointment?

I am seeking to join this council in an effort to ensure we work together to reduce incidence of child abuse as the result of substance use. I bring with me a unique angle in that I actively provide both preventative education and active-use disorder treatment to individuals who may be at-risk of engaging in abuse. I am knowledgeable in the area of substance use (and cessation) during pregnancy as well as the pathways that currently exist in the community for early intervention.

Additional Information

I am credentialed as a Certified Alcohol and Drug Counselor II (CADC II), a credentialed Community Health Worker, and currently involve myself in various community activities including resource fairs, volunteer opportunities, and provide brief substance use education in all of my endeavors. Along with my education and experience in the field, I am a mother with history of a successful Child Dependency case in which early intervention prevented my own child from being impacted by potential abuse. I am incredibly grateful to have had the system work beautifully in our lives and would appreciate the opportunity to apply my gained knowledge to the prevention of future abuse.

If known, indicate the member of the Board of Supervisors who will receive a copy of this application
