Robin Smay
6641 Carvers Rd.
Coloma CA 95613

3/14/17

To the El Dorado County Planning Department,

My name is Robin Smay, and I am the neighbor immediately to the north of the business in Coloma known as Villa Florentina. This letter shares the documentation and data that I unfortunately felt the need to collect to document ongoing noncompliance with the terms of this business's special use permit. The data establish that throughout the entirety of the operating season, there were multiple permit violations at each event that prevented me from the reasonable use and enjoyment of my property. Due to ongoing and egregious violations, it is my request that events be reduced or eliminated, that amplified music no longer be allowable for the business, or at very least that absolute compliance with the originally proposed parameters of operation be enforced, with revocation resulting from any continued noncompliance, including any use of the unpermitted and unstudied lawn expansion.

As a special education administrator, I work long hours during the week, and live in Coloma to enjoy the quiet and relaxation usually possible there. My home is my greatest investment, and the neighboring business has not only compromised my ability to enjoy my home, but also my property value. I did not have any desire to take data every weekend during the Spring and Summer of 2016, and lost precious free time to do so, but felt this was the only avenue I had to protect my interests. I recognize the documentation attached may seem excessive, but I have never been a situation like this before and don't know how to best defend myself, nor what is required to establish "substantial evidence" of noncompliance. Between the cost of acoustical study and representation, an attorney to guide me through this process, and a permitted fence between my home and the unpermitted lawn expansion of Villa Florentina, I will have invested \$12,000. to protect my home and interests. I should not have to bear ongoing costs or further data collection efforts to protect my rights as a Coloma resident and property owner.

The initial charts attached show violations that occurred at the end of the event season, even after multiple contacts from neighbors, three letters from the planning department, and a letter from my attorney. They offer a clear graphic representation of violations like those that occurred throughout the season. Following are photos of the original site as studied and approved, and of the unapproved expansion of the staging site, doubling the staging space of the property. The remainder of the packet is chronological, and shows my personal attempts at working with the owner toward compliance, as well as the noncompliance that continued throughout the event season during all events held.

Thank you for considering this submission, and I am hopeful that the attached documentation provides a picture of my considerable efforts in solving the issues that are ongoing with this business.

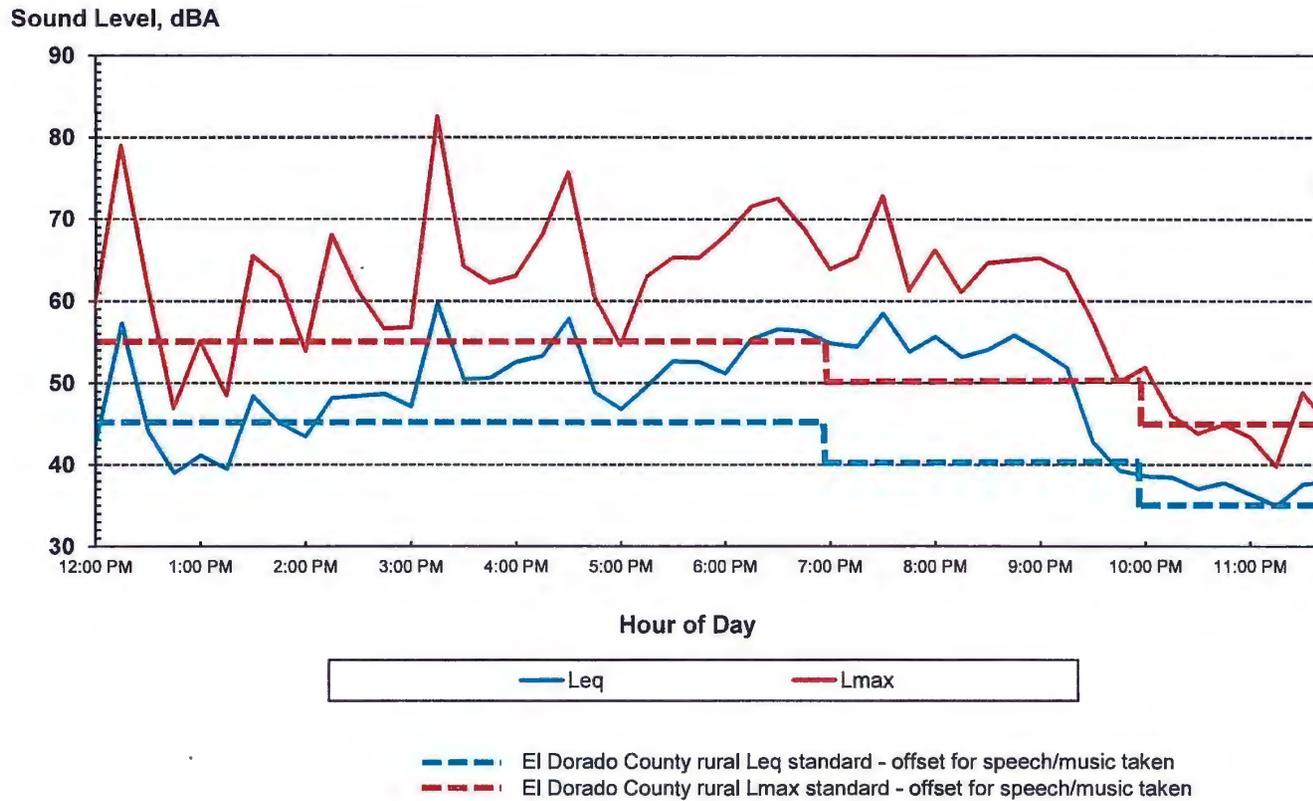

Sincerely,

Robin Smay

- P. 4-7 11/5/16 Bollard Acoustical sound study showing decibel levels up to 84.
- P. 8 11/5/16 Chart: Decibel logger (recommended by Bollard Acoustical) readings for comparison with Bollard findings. My samples, relative to Bollard's study, underestimate the degree of violation.
- P.9 10/29/16 Chart: Decibel logger (recommended by Bollard Acoustical) showing ongoing event noncompliance.
- P. 10-11 Photo and plot of originally proposed, studied, and approved site plan.
- P. 12 Google earth photo showing expansion of event site, doubling size of approved staging space.
- P.13 4/11/15 Email: Personal contact to point out operating parameters to the new owner
- P. 14 4/13/15 Email: Response from owner acknowledging violation and apologizing.
- P. 15-16 10/23-25/15 Emails: Friendly feedback regarding noise levels, another apology, and promise to improve.
- P. 17-18 4/26/16 Emails: Schedule of events including one scheduled outside permitted season, politely asked about date outside permitted season, was told it would be moved to comply with permit (it wasn't, and was held on 11/5/16).
- P. 19-24 5/7/16: Text request to move speakers to comply with permit. Response that he will seek permit revision rather than comply. Upon receiving this response, it became clear that direct communication was not going to improve compliance.
- P. 25 5/7/16 Violation log with decibel reading samples.
- P. 26 5/9/16: Email from owner stating to neighborhood he is approachable and responsive, despite his response to my text request on 5/7/16 refusing to comply with permit.
- P. 27 5/14/16: Violation log and decibel reading samples. Decibel max 75.3.
- P. 28-30 5/21/16: Violation log and decibel reading samples. Decibel max 88.2.
- P. 31-33 5/28/16: Violation log and decibel reading samples. Decibel max 78.5.
- P. 34 6/10/16: Email from owner acknowledging lack of monitoring and compliance (following first call from Rob Peters). Apology and promise to improve.
- P. 35-37 6/11/16: Violation log and decibel reading samples. Decibel max 89.2.
- P. 38-40 6/18/16: Violation log and decibel reading samples. Decibel max 99.0.
- P. 41 6/25/16: Bollard Acoustical monitored event. Paul Bollard email confirms samples showed multiple exceedences of county noise standards.
- P. 42-44 6/25/16: Decibel reading samples. Only a couple of pages of data included, but data for whole event available. Decibel max 76.81.
- P. 45-49 8/6/16: Violation log and decibel reading samples. Only a couple of pages of data included, but data for whole event available. Decibel max 85.24.
- * 8/19/16: First letter from Planning Department to Owner regarding violations was sent.
- P. 50-52 8/27/16: Violation log and decibel reading samples. Only a couple of pages of data included, but data for whole event available. Decibel max 91.04.
- P. 53-55 9/3/16: Violation log and decibel reading samples. Only a couple of pages of data included, but data for whole event available. Decibel max 88.41.
- P. 56-59 9/10/16: Violation log and decibel reading samples. Only a couple of pages of data included, but data for whole event available. Decibel max 80.03.
- P. 60 9/21/16: Violation log and decibel reading samples. Decibel max 60.

- P. 61-63 9/24/16: Violation log and decibel reading samples. Only a couple of pages of data included, but data for whole event available. Decibel max captured 77.73.
- P. 64-67 10/1/16: Violation log and decibel reading samples. Only a couple of pages of data included, but data for whole event available. Decibel max 79.18.
- P. 68-74 10/8/16: Violation log and decibel reading samples. Only a few of pages of data included, but data for whole event available. Decibel max 84.65.
- * 10/12/16: Second letter from Planning Department to Owner regarding violations was sent.
- P. 75-79 10/15/16: Violation log and decibel reading samples. Only a couple of pages of data included, but data for whole event available. Decibel max 82.07. Additionally, cars parked against permit per photo submitted. Drivers struggled to leave at the end of the night (one car took 15 minutes to dislodge from parking), and this was a clear fire and exit danger to patrons.
- P. 80 10/17/16: Letter from Craig Sandberg, my land use attorney, to owner requesting compliance.
- * 11/5/16: Third letter from Planning Department to Owner regarding violations was sent.
- P. 81 11/6/16: Letter from owner to neighborhood saying he will have a list of approved DJs moving forward (though none in the 2016 season complied). Stated he bought a noise meter and has been monitoring, which can't be possible based on my data and independent confirmation from Bollard Acoustical.
- P. 82-85 Attachments from online review that advertise the ability to use lawn terrace for both ceremonies and receptions (though never approved or studied), ability to play amplified music from the piazza (in violation of permit on sound equipment location), ability to play amplified music from Piazza after 9:30pm (in violation of permit on sound equipment location and time parameters), and promising a new spa expansion (at this point not approved).

Subject: Villa Florentina Wedding Venue Noise Complaint – Coloma, California

Dear Ms. Smay,

Pursuant to your request, Bollard Acoustical Consultants, Inc. (BAC) conducted noise compliance monitoring of the Villa Florentina Wedding Venue located at 6673 Carvers Road, adjacent to your property. The measurements were conducted from November 5-6, 2016, with the intent of identifying any noise exceedances relative to the El Dorado County noise standards during the event held at Villa Florentina on Saturday, November 5. The El Dorado County General Plan establishes the following noise standards for non-transportation noise sources affecting residential uses:

Table 1						
Noise Level Performance Standards for Noise Sensitive Land Uses						
Affected by Non-Transportation Sources						
(Table 6-2 of El Dorado County General Plan Noise Element)						
Noise Level Descriptor	Daytime 7 a.m. – 7 p.m.		Evening 7 p.m. – 10 p.m.		Night 10 p.m. – 7 a.m.	
	Community	Rural	Community	Rural	Community	Rural
Hourly L_{eq} , dB	55	50	50	45	45	40
Maximum Level, L_{max} dB	70	60	60	55	55	50
Notes:						
Each of the noise levels specified above shall be lowered by five dB for simple tone noises, noises consisting primarily of speech or music, or for recurring impulsive noises. These noise level standards do not apply to residential units established in conjunction with industrial or commercial uses (e.g., caretaker dwellings).						
The County can impose noise level standards which are up to 5 dB less than those specified above based upon determination of existing low ambient noise levels in the vicinity of the project site.						
In Community areas the exterior noise level standard shall be applied to the property line of the receiving property.						
In Rural Areas the exterior noise level standard shall be applied at a point 100' away from the residence. The above standards shall be measured only on property containing a noise sensitive land use as defined in Objective 6.5.1. This measurement standard may be amended to provide for measurement at the boundary of a recorded noise easement between all effected property owners and approved by the County.						

Ms. Robin Smay
November 30, 2016
Page 2

Because the project parcel and adjacent parcels are rural in nature, the rural noise standards shown in Table 1 would apply at a position 100 feet from the residence. In this case, the property line adjacent to the wedding venue is less than 100 feet from the residence, so measurements were conducted at the property line. In addition, because the noise source is event music and human voices, the noise standards shown in Table 1 are reduced a further 5 dB pursuant to the first footnote of the table.

Noise measurement equipment included a Larson Davis Laboratories (LDL) Model 831 precision integrating sound level meter, calibrated on-site with an LDL CAL200 calibrator to ensure the accuracy of the measurements. The meter was set to record audio files to allow for the identification of noise sources.

The results of the noise measurements are presented in Attachment A. Attachment A-1 shows the measured noise levels on Saturday, when the Villa Florentina event occurred, and Attachment A-2 shows ambient levels from the following day to provide a point of comparison. As indicated in Attachment A, the ambient noise levels measured on Sunday were typically lower than the El Dorado County rural noise standards even with the speech/music offset applied. Occasional L_{max} exceedances were recorded, and were identified to be caused by birds and other environmental sources during analysis of the audio files. The noise levels measured on Saturday exceeded both the L_{eq} and L_{max} standards for the duration of the event (approximately 2:15 PM to 9:45 PM). Exceedances during this time ranged up to +18 dB relative to the L_{eq} standard and +28 dB relative to the L_{max} standard, and were all confirmed to result from voices and music during analysis of the audio files.

This analysis concludes that the Villa Florentina Wedding Venue did not comply with the El Dorado County noise standards during the monitoring period. Please contact BAC at (916) 663-0500 or paulb@bacnoise.com with any questions.

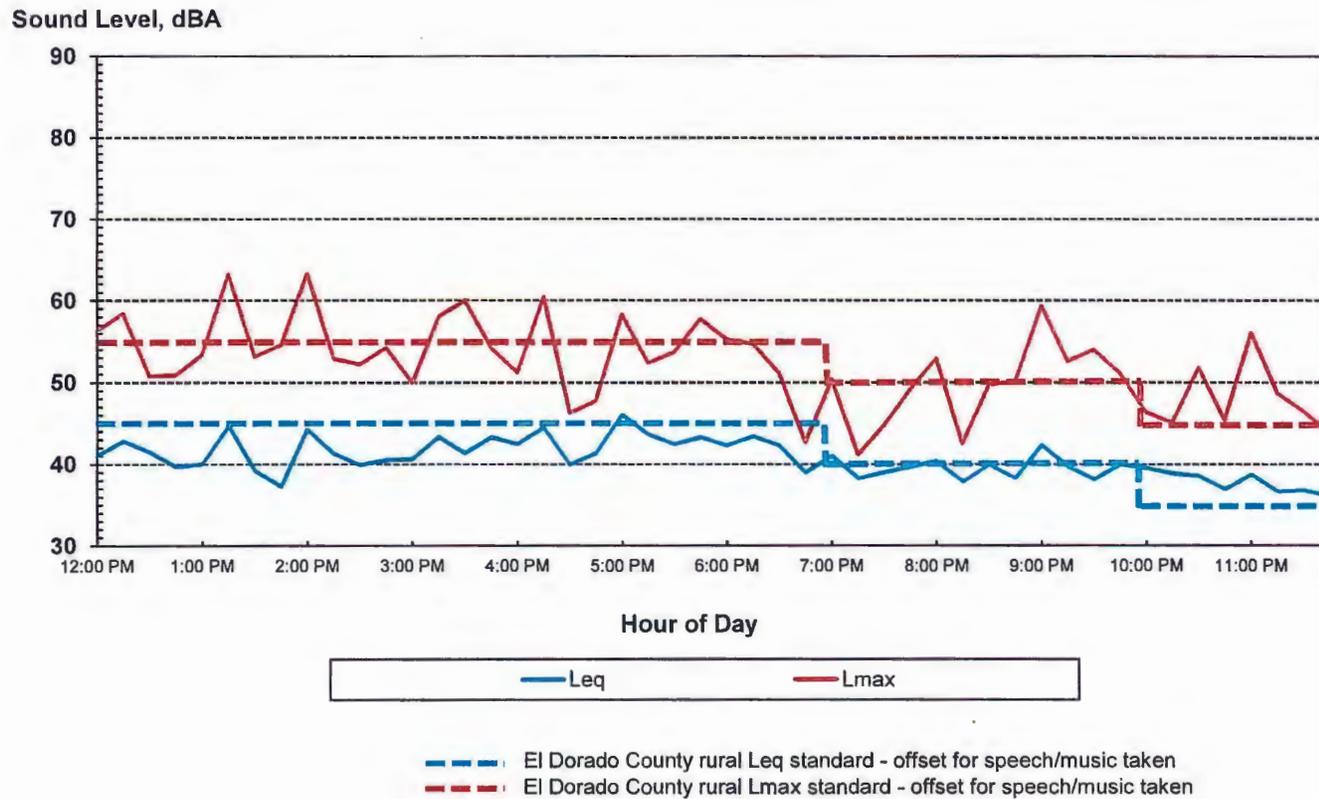

Sincerely,

Bollard Acoustical Consultants, Inc.

Sent as email on Villa Florentina website 4/11/2015 at 8:57.

Dear new owner,

We haven't had the opportunity to meet yet. I am one of your next door neighbors here on Carvers Rd., and I am sorry that my first contact is not simply a friendly introduction as I would prefer. I am sure that since this evening is your first wedding, you are still working out kinks and figuring out how to manage each event. I am not sure if you are aware of the mandated location of any amplified sound equipment per the permit for your location. Per the permit, and speakers and amplified music equipment are required to be within the covered/ surrounded patio area immediately in the middle of the home only, as was recommended per the sound study held prior to the issuing of your business permit. This is to shield and minimize the carrying of sound to surrounding properties (sound impact to my property was studied and found to be the greatest of all the surrounding homes). I see and hear that the sound equipment is set up out in the piazza area (outside the surrounded patio area) around the fountain this evening, allowing sound to carry much further in my direction than has been the case at any events conducted prior. I am not reporting or contacting anyone but yourself regarding the placement of the equipment this evening, as I am guessing you are probably just not aware of this requirement, it's reasons, and the effect that not abiding by this element creates here in the neighborhood. I am happy to speak with you any time if you have questions or concerns, and hope that you understand my email is intended only to make sure you are aware of future equipment placement. I hope you are enjoying your new property and your event has been successful. Again, I apologize for not having had the opportunity to meet you as a neighbor prior to having to contact you regarding this issue. Thank you so much for your time and attention!

Sincerely,
Robin Smay

Hi Robin,

Thank you for your e-mail. I've come by your home a few times to see if I can introduce myself and discuss your experience with Loren but have missed you each time. I plan to continue to use the property for events and as a B and B but also want to make sure we are being respectful to the neighbors. Please know that I am available if you have noise, traffic or other concerns. My personal cell phone is 530-391-2885 and this is coming from my personal e-mail. I would like to apologize about the direction of the speakers at our anniversary party Saturday. There was a misunderstanding with the DJ and was unable to reorient his location as our guest were filing in. I appreciate your patience as we are still figuring things out. Now that I have your email address I'll plan on sending out a notification prior to events to keep you informed.

I look forward to getting to know you and hope that we can have a positive experience being neighbors.

Adam (Anderson)

Adam,

Thanks so much for your response! I appreciate your attempts to make contact. You know, I think I must have seen you in the orchard one day about a month back, but at the time didn't know you'd bought the place.

I know it'll take time to work the details, and I completely understand working out the kinks. No harm; no foul. I really have no intention of creating acrimony; I just didn't know how to contact you, and wasn't yet sure if you were aware of all the permit minutia. In the past, the location of the music was a constant difficulty, and it really makes a huge difference. I'd be pleased to offer more illumination in person (I'm guessing you're an educated man fluent in subtext).

I'll keep an eye out for you and will make a point to introduce myself next time I see you out in the yard. I hope you're enjoying your space in the valley and look forward to meeting you.

Hi Neighbors,

Just a reminder, there will be a wedding and reception tomorrow for Clint and Madilyn (10/24). We have a signed contract from the DJ that he understands the noise ordinance. I think they are expecting a little over 100 people. Please contact me if you have concerns or challenges. On another note, we should be harvesting our olives in December and the general consensus is that we should have a lot of high quality olive oil from this years crop.

Adam,

Thanks for the notice on tonight's events. I know you're still dialing things in, and I just want you to get the feedback that the decibels from my porch were generally dancing in the mid to upper 50s, with spikes up to around 64. For a few shorter spikes the peaks have been in the 70s and 80s.

I really appreciated the volume at the most recent wedding event earlier in the month, at which decibels were regularly around maximum, but didn't exceed them.

Thanks for your time, and I really appreciate your invitation for feedback. Hope you have a good weekend.

Hi Robin,

We have a recommended dj's list. Ones that we have vetted and we have confidence will abide by the noise ordinance. This dj was brought in from the bay area and had not been here before. He did end promptly at 9:30 but he may have had a speaker turned in your direction which may explain why you heard it a little louder and Larry sent me a note saying he didn't hear it at all. Please accept my appology. I'll watch closer to keep the decible levels and speaker direction in line with the ordinance.

I hope you're doing well and thank you for the feedback. Maybe one of these days we'll get to visit in person. Until then, please reach out to me if you need anything or have concerns.

Thanks Adam! I truly do appreciate your response and consideration. I did hear that he ended exactly on time, which was great. You may be right about the direction of the speaker; it sounded like it may have been outside the enclosed patio or misdirected. That you are being responsive and open to feedback is marvelous and I'm sure things'll get dialed in. Thanks again Adam!

Adam,

Your permit allows events from April to October. Can you explain the November date? Was there some sort of change?

↓
told me it would be moved, then held it anyway & then is disappointed I've stopped communicating with him directly.

5/7/10

Hi Adam, just sent you an email regarding speaker set-up and location. Could you please take a look and follow up with folks as needed? I'd sure appreciate it...

Hi Robin,

I saw you leaving this morning and tried to catch you to say, "hi". I reviewed the policy with the DJ just a little bit ago. There is a speaker on the lawn for the ceremony. It is

for the ceremony. It is not connected to the DJ. I'm in the parking area if you want to come over and visit.

Adam

Adam, whether the speaker is connected to dj is irrelevant as I understand it. Sound amplifying equipment (i.e. Speakers) is not permitted on the lawn, and only in the designated area. That was the clarified bottom line when

designated area. That was the clarified bottom line when reviewed with the previous owner.

Ok, if it is going to really bother you I will tell the officiator and the bride and groom to just speak really loud? Would you like to come over and check it out?

Adam

I would prefer not to come over and check it out but appreciate

I would prefer not to come over and check it out, but appreciate the invitation. I've seen the set up before, which is why I'm familiar with how the permit speaks to the issue. During our one in-person visit, I just asked that the terms of the permit be followed, and that's all I'm hoping for now and in the future. That doesn't feel to me to be unreasonable or out of line at all.

I'm trying my best to keep everything compliant. I don't want to abuse or take advantage of my neighbors. Maybe I need to go back to the planning commission for a revision because I don't know how anyone can be offended by a wedding march and some vows amplified.

Adam

Fyi my phone is about to die. So I'll be

advantage of my neighbors. Maybe I need to go back to the planning commission for a revision because I don't know how anyone can be offended by a wedding march and some vows amplified.

Adam

Fyi my phone is about to die. So I'll be charging it. I'm in the parking lot if you need me.

Adam

5/7/2016 Villa Florentina Noise Violations

Requested that speaker placed on "Lawn Terrace" be removed to comply with permit. Response from owner was that this speaker would not be moved, that he would just appeal to planning commission to allow it moving forward. While I did not take pictures of my decibel meter during the ceremony, readings were in the 70s and 80s for ceremony music.

While owner assured me lawn speaker would not be used for DJ'ed music, it was. It was directly facing my property and located less than 50 feet from my front porch. When I recognized that there would be no effort to comply with permit parameters (at about 8:30pm), I called EDSO, who showed up at about 9:30, and did not check speaker locations or decibel levels.

Subject: weddings at villa florentina

Hi Neighbors,

Well Saturday was our first wedding of the season and despite the rain everyone seemed to be really happy. The bride Lauren (a local El Dorado girl) was amazing, the rain didn't dampen her spirit for a second, she seemed to be concerned with everyone else before herself and was just a delight to be around. Her father was a Sac City fireman that died when she was little and she made a touching tribute to him during the ceremony. It's really a privilege to be part of such a special occasion in a persons life. There are a lot of people involved in making the day special and coordinating it all is a real chore. Despite our best efforts to inform and train vendors and their staff on our policies, people still seem to do their own thing sometimes. I informed the DJ of the noise ordinance prior to the event and twice during the event, when 9:30 came around he was in the middle of a song and I told him he had to shut it down, he played another song to which I told him that it had to be the last song then he announced he would be playing the last song. So he play 2 1/2 songs past 9:30. I would like to apologize if it caused a problem for anyone. I was firm with the DJ but he was persistent in trying to squeeze a little more out of the night. The problem is that the DJ works for the family not for me, so he's thinking about making them happy first. Unfortunately, someone felt it necessary to call the Sheriff's office because the music went a little past 9:30pm. I have openly shared my contact information with as many neighbors as I can and have tried to be completely available if there were any concerns with an event. It's not necessary to burden the County Sheriffs office if something's bothering you. I am totally approachable and willing to do what I can if you have concerns. I met the sheriff at the gate when he showed up and he was totally cool, he could tell the music was already shut down and people were leaving. We chatted for a few moments and he wished us a good evening. If there is someone in the area that doesn't have my contact info please share it with them and invite them to contact me if they have challenges.

Best regards,

Adam Anderson
C. 530-391-2885 (fyi- I respond quickly to texts.)

Event Villa Florentina 5/21/2016

2:05pm: I arrived home from bike ride and music was being played from speakers that had been set up out around fountain, rather than permitted location. Speaker also set up at end of "lawn Terrace" closest to my property (about 30 feet from fence, photos taken). Ceremony music and officiation amplified by that speaker (decibels reached into 70s). Cocktail service set up on my end of the "Lawn Terrace" after ceremony (photos taken of cocktail service).

5:59pm amplified music and DJ during dinner, speakers out around fountain and not in permitted area. Speakers not directed way from my home.

Evening music (speakers still in fountain plaza area and not as permitted): Decibel readings consistently in 50s, 60s, 70s, with highs in 80s. Music was turned way down, but not off, at 9:38. Parents were here to witness event and readings from 3:45-9:40pm.

Decibel readings in chart below have also been photographed and date and timestamped.

Event Villa Florentina 5/28/2016

Speaker for ceremony set up at end of "Lawn Terrace" closest to my property. Ceremony officiation and some music amplified by that speaker (decibels reached into 70s).

witnesses:

For evening's music, speakers out around fountain and not in permitted area to minimize noise.

Greg & Pam Ungebach

Speakers not directed away from my home per requirements. Decibel readings consistently in 50s, 60s, 70s. Music ended at 9:38. Two witnesses came over to see decibel meter during intermittent readings and the time music stopped.

Decibel readings in chart below have also been photographed and date and timestamped.

Subject: VF noise

Hi Robin,

I want you to know that I'm working diligently to keep our events in line with our permit. Admittedly, I have done a poor job in policing the decibel levels and for that I would like to apologize. I tell the DJ's and they sign a contract to abide by the policy but obviously there has been abuse. I'm buying a meter so I can better monitor the decibel levels at events and plan to do a better job going forward. I hope you can have patience with us.

Having a pa in the afternoon on the ceremony lawn so guests can hear the vows to me is a grey area in the permit and I am working with the county to get it resolved. I hope that you can find it in yourself to be flexible on this issue as it has to be less annoying than listening to our tractor or Daniels rifle range. Ultimately, I will follow the policy and I hope that we can come to an agreement on this issue.

The events at VF are a high point in a person's life, I wish you'd take me up on the offer to come over during an event to meet the families and friends and hear the gratitude they express for being able to have their event at VF. There is always a lot of food, dessert and booze to be shared. Please don't become so entrenched against the Villa because of Loren or me that you miss the opportunity to allow it to enrich your life. There are so many opportunities surrounding the villa if we can work together to discover them. I hope that living next to us and the villa becomes a high point in your life as we bury the challenges of the past and move forward in a positive direction!

I will be out of town for this weekend's event and will not be able to directly monitor the event. Please text me or Patsy if noise levels get too loud or if you have any other concerns and we'll do our best to remedy them. I am working on some health and wellness retreat packages for the off season and would like to include mountain biking trips to the package, maybe that is something we can discuss if you're interested?

Adam

Acknowledges noncompliance to date.

Acknowledges not on property to monitor.

Violation (and progress) log 6/11/2016

Overall decibel levels throughout event were brought down from previous weeks. Some periods of compliance. However, there was continued location of speakers (even during dancing/ evening portion) in violation of permit, and continued decibel violations, though to a less degree than during the last two events.

Speaker tested on lawn about 1:52pm. Music on lawn tested as well for ceremony. Music being played from the lawn for the ceremony. Only 115 guests, so not as much patron noise as previous larger events.

Music and vows both amplified during ceremony. While volumes were reduced from, and length of ceremony was shorter than, other events this season, decibel maximums were still exceeded, particularly by music being played from unpermitted location. While recent communication from owner considers location of speaker on lawn a "gray area" in the permit (Bollard Acoustical study and permit are very clear and not at all gray re: location of sound equipment), the decibel allowances for commercial activity in a rural residential neighborhood are not at all "gray," and are violated by use of such a speaker on the lawn, particularly for music.

There was a period post ceremony (about 4:45-6:45) when decibels were much more moderated than at previous events. Based on quality of music sound, music was being played from the permitted location (dance floor) at this time, which significantly mitigated impact.

At about 6:45, music started to be played by speakers located outside the designated dance floor area (against permit parameters), out closer to the fountain. As when this has happened on other occasions, the music is directed into my backyard without the barrier the house creates when speakers are on the dancefloor. When speakers are so located, decibel readings are even higher in the back yard than they are on my porch. *Decibel violations markedly increased at this time.*

Shortly after 9:00pm, music volume was cut back, with no decibel violations after 9:05pm. Music stopped promptly at 9:30.

All decibel readings photographed with date and time stamps. Witnessed by friend Pete Tipshus.

2:40 Speaker on the lawn playing music before, during, and after ceremony. Patron noise on lawn louder than music for the most part. Some 60s, 70s, 80s.

Appeared to have gone over max for number of cars to be parked.

For reception, speakers were not located on the DJ floor as required. Sound coming from out by fountain. Reception tables and umbrellas staged on lawn area.

Music did not end until 9:40. Patron noise until 10:30.

Decibel readings taken using multiple devices, including hand held meter (readings photographed with date and time stamps), and Decibel 10th application in two locations, one taken on iPad from porch, and another on iPhone 6 from the middle of the backyard. Witness Laura Underhill here to confirm readings and source of noise.

Readings from handheld meter (some readings from porch, some from back yard):

Excel spreadsheets attached to email are from the decibel apps on iPhone and iPad. I have more samples, but just thought to include these few as a representative sample.

Mon, Jul 11, 2016 at 2:33 PM

Hi Robin,

Just wanted to let you know that professional curiosity got the best of me and I had my tech analyze the data from the wedding on June 25. There were multiple exceedances of the County noise standards, and we have audio recordings where you can plainly hear music and cheering that is over the limit.

41 There's no charge for this analysis unless you want us to write it up for you. Just thought you might want to know that, even on a relatively quiet wedding, they were clearly over the limit.

Paul

Villa Florentina wedding 8/6/16

4:45-5:15pm: Music being amplified on lawn area. For that period of time, hovered around 50 DbL. Decibel reading captured.

5:16: (wedding ceremony began?) music turned up. Decibel readings in 60s. Vows and verbal portion of the ceremony also amplified once again in violation of equipment location permit parameters.

Post ceremony, music turned up, hit decibels in 70s. Amplified music continued on the lawn well after ceremony with decibels in 50, 60s, 70s. Sound of patron conversation on the lawn, even when music isn't playing, continues to remain about 50DbLs.

7:00ish: Dj playing song before dinner .decibels in 60s and 70s, speakers for his narrative not placed per permit, but rather out in piazza/ eating area, faced back toward my property (not on sheltered dance floor pointing away).

7:08ish: dinner service began. Dinner generally in low to high 50s, again, live string music exceeding decibel limits.

At about 7:30 DJ and speeches. Again generally in 50s, 60s, hitting the occasional 70, with amplification of voices through speakers not placed through permit.

Between 7:30-8:30 string music (live) being played exceeding decibel limits. At 8:30, switched to DJed music within allowable limits and being played from the correct location.

Villa Florentina violation log 9.3.2016

2:20pm: When I got home from bike ride, speaker already set up on the lawn, music being amplified onto lawn staging area. Samples taken with readings in low 50s.

Daniel White, neighbor immediately behind Florentina to the East, drove down my driveway (he has easement), saw speaker and heard amplified music, and called to let me know he had witnessed it.

Music off at 2:52.

4:01 Music resumed from speakers located on lawn.

4:09 Amplified speech from lawn, with continuing amplified music from lawn speakers. Samples taken.

4:37 Amplified vows began. Samples taken.

5:49 DJ announcements, cheering, music into 70s. Samples taken.

7:00ish loud music, bouquet toss, etc.

Music readings taken intermittently. Generally readings in 50s and 60s. Samples taken.

9.10.2016 Villa Florentina Violation Log

4:30pm: Amplified music began from the lawn. Samples taken, with majority of readings in high 60s.

Vows did not sound amplified, but music was, with decibel limits exceeded and speakers not placed per allowable location.

5:15pm: Amplified music post ceremony (speakers outside permitted area and decibel violation). Samples taken, with decibels in 50, 60s, and hitting 70.

6:10pm: DJ announcements (speakers outside permitted area and decibel violation), samples taken with decibel readings into the 80s. Music during dinner exceeding allowable maximums, through speakers not placed per permit. Most DJ speech during dinner above 70 DbL.

DJed dance music for reception: frequent violations throughout. Samples taken with readings in high 60s to low 70s. Music ended at 9:36, and not at 9:30 as directed by permit.

Witnesses Pete and Sharon Tipshus were present at my home during the event. Pete had come to witness a prior event back in June or so, and noted the violations on this occasion were louder and more significant than at the prior wedding he witnessed.

9.21.16 Villa Florentina Violation Log

Hosting gathering for El Dorado Arts Council.

Speakers set up in plaza area amplifying live music. Decibel limits were exceeded. Samples taken.

Violation Log Villa Florentina 9.24.16

2:25pm: I came home from my bike ride and a speaker was already set up on the lawn at the end closest to my house amplifying music. Photo taken. The music was turned off after I rode up my driveway.

12:33: DJ testing talk volume 12:33. Decibels above limit, DJ talk speakers set up out in plaza near fountain, not per permit. Music amplification began from same location at 12:35.

4:00pm: DJ tested lawn speaker again, and amplified music began from lawn. End of ceremony music decibels in 60s, reaching above 70.

6:05 super loud DJ and music (above 70 DbL). Again at 6:09.

Samples of sound during dinner captured that chatter alone (without added music) has a decibel level around 50DbL

7:20pm, 7:33pm, 7:37pm: See sound samples. DJ very loud (60s and 70s). Toasts and cheering up to 70 DbL.

7:47pm: Dancing began, with DJ above 70 DbL.

8:02pm: Music in high 50s and low 60s.

8:15pm: Uptown Funk DbLs up to 60.

8:35pm: DJ and crowd screaming plus music reached up to 80 DbL.

Music until 9:30 in high 50s to 60, and occasionally above that. Music ended promptly at 9:30.

Villa Florentina Violation Log 10/15/16

1:44 Drone being flown over my property by a wedding guest/ photographer/ participant.

2:55 Samples taken, speakers out in plaza, not placed as allowable per permit.

3:05 Vows started, speaker in plaza, exceeded limits throughout ceremony.

3:52 Sample taken of just crowd noise with no music in reception area, decibels ranging 55-60.

4:28 Samples of music with speaker still in fountain area, decibels around 60.

4:30-45 first dance and toasts. Samples taken with decibels in 60s, 70s, and cheering into the low 80s. Multiple audio samples taken to confirm source of noise.

Cars parked in violation of permit. Appears that number of cars parked is well over allowed capacity. Pictures taken.

5:40-5:45 Speeches. Samples taken, with decibels in 60s and low 70s, with lots of cheering up around 80.

6:10 speeches. 60s and 70s. Samples taken.

6:33 Music sample taken, decibels around 60.

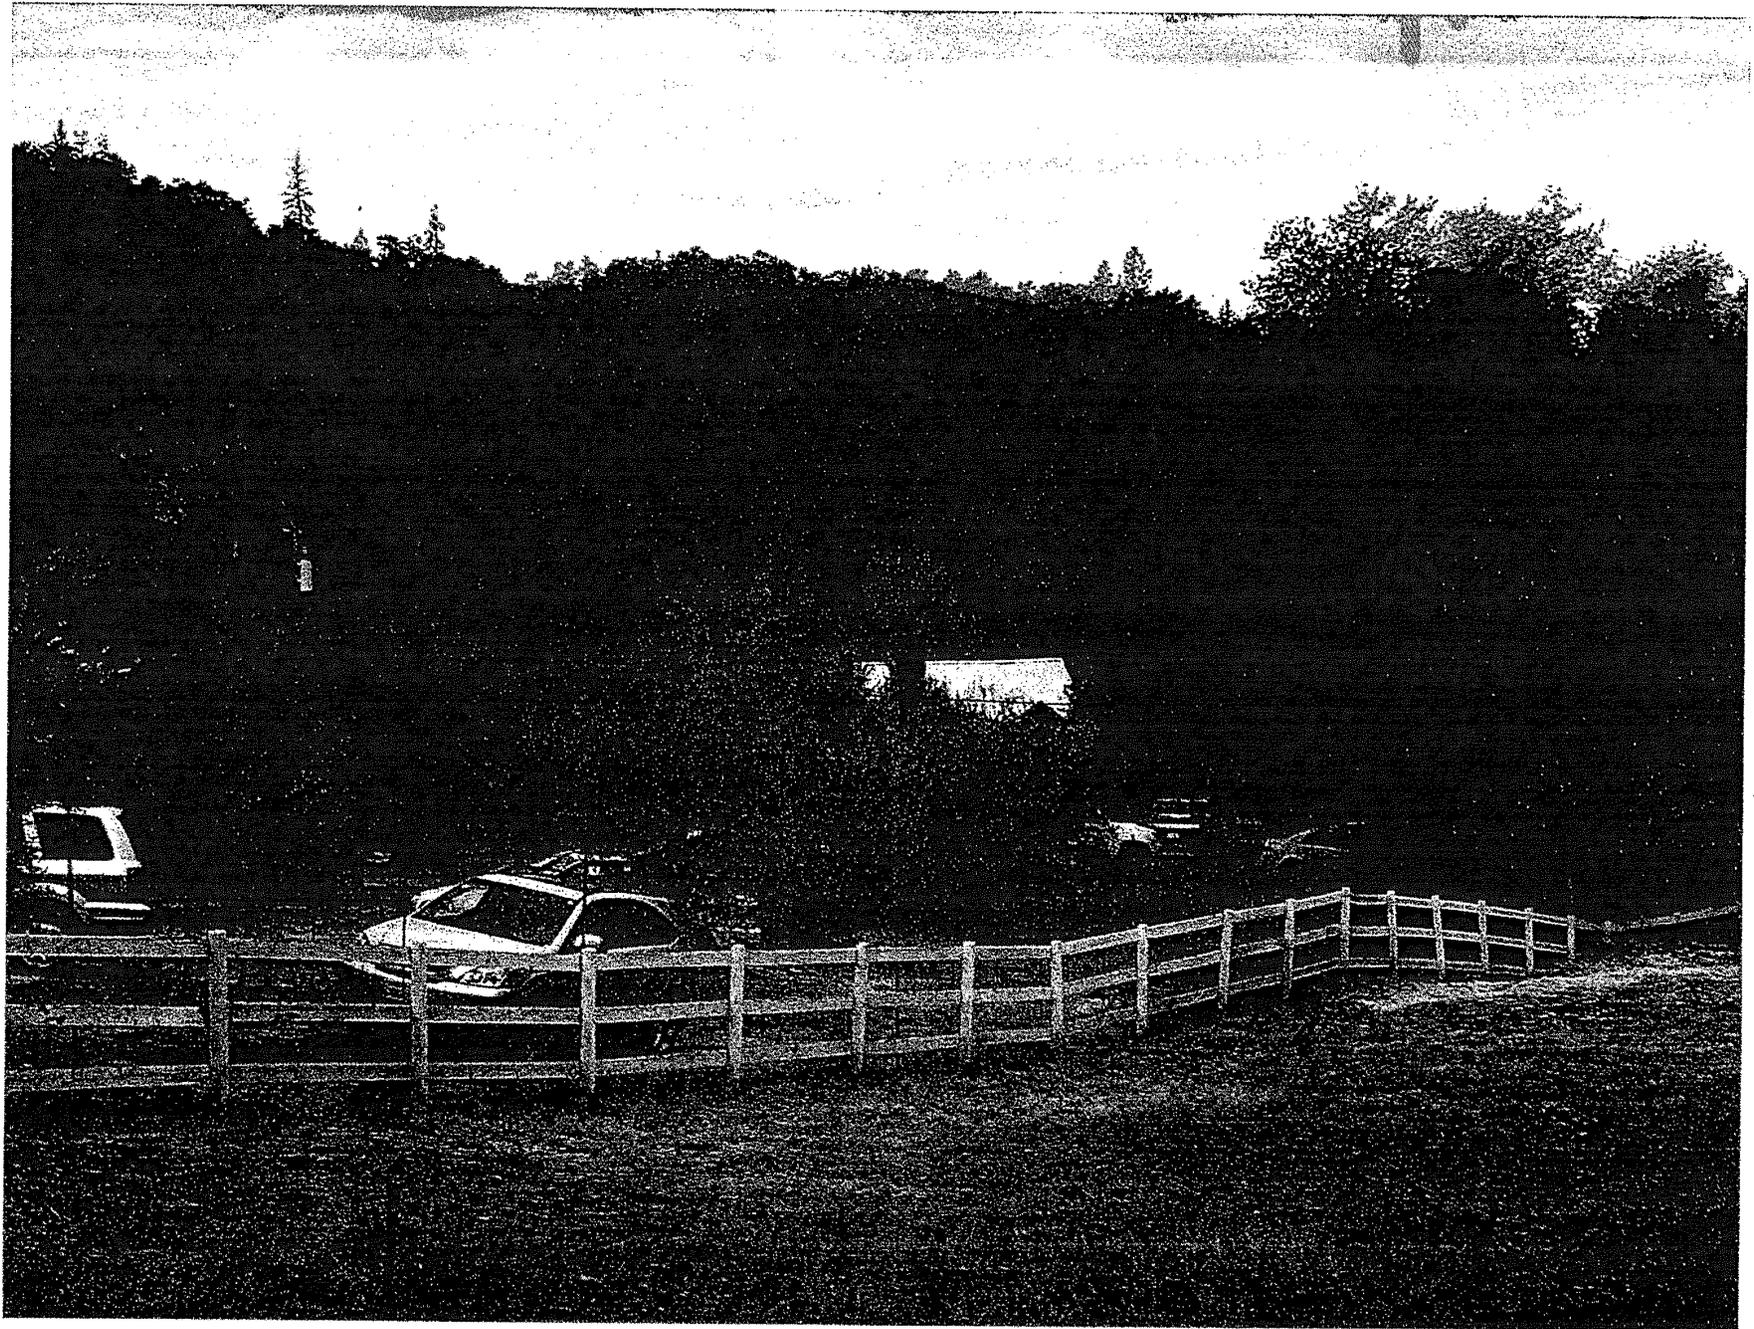

7:26 Music sample taken, with decibels ranging 60-70.

Music violations occurred for the remainder of the event with samples taken. Speakers throughout event placed in violation of permit. Decibels throughout event ranged from low 60s up to about 80. Audio samples taken during several points of evening to confirm source of noise.

Re: Use Permit Violations

Dear Mr. Anderson:

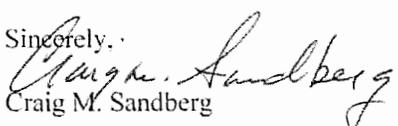

Robin Smay has contacted me seeking advice on her rights and remedies regarding your compliance with the conditions of the use permit for your operations at Villa Florentina. Based on my discussions with Robin, County staff and my own investigation, it is clear that your "special events" are not being conducted in accordance with the use permit. Accordingly, you are in violation of the use permit and, further, your conduct on the property constitutes an illegal nuisance, making it impossible for Robin to enjoy the use of her property during such special events. Unless you cease having special events, or bring your operation in compliance with the use permit conditions, you may be subject to a revocation of your use permit or an injunction issued by the court preventing events such as those you have been conducting.

Robin has made it clear to me that she does not wish to prevent your reasonable use of the property and that if you conducted your events within the physical parameters and sound mitigation as outlined in the use permit, she would withdraw any objections to your operation. I have spoken to County staff and am aware that they have begun enforcement proceedings under the County's authority to enforce the conditions of the use permit. It is our intention at this time to monitor the County's actions and participate in any hearings that may be conducted as part of an enforcement action and take independent legal action only if the County's process does not result in a satisfactory outcome.

Based on my review of the correspondence between Robin and yourself, it is clear that Robin has made every effort to resolve this situation without the involvement of the County or seeking other drastic remedies. She continues to be committed to maintaining a cordial relationship with you as a neighbor, but feels compelled at this time to protect her property rights and value.

Robin sincerely hopes that you will comply with the terms of your use permit as called for by the County's Development Services Division and get this unpleasantness behind you.

Sincerely,

Craig M. Sandberg

Dear Neighbors,

Just a note of thanks for putting up with us during the wedding season. It has been fun, exciting and most of all educational. We've meet a lot of interesting people with interesting ideas. We've had older couples, young couples, small ceremonies and large ones. Traditional and vintage style weddings to over the top Disney theme weddings with harp and cello playing Disney theme songs to Star wars theme with kids dresses as storm troopers holding the bride hostage only to be liberated by the groom. The one thing they all shared was love for each other and the love of family and friends that came together to support and celebrate with them. It's a special time and I thank each of you for also for your support.

Some of the things we've learned and changes we are making are;

- an approved list of DJ's that we know will comply with the noise ordinance and a stiff penalty written into the contract for violations. We don't have a lot of control over clapping and cheering but we've found that a good DJ/MC can do a lot to keep people in check. We've done a lot of wrestling with DJ's and apologize for those that have insisted on pushing the envelope. We've banned the non compliant DJ's and put those we know we can trust on our preferred list. I also bought a noise meter earlier in the season and routinely monitor the noise levels from different areas around the property.
- we are having a directional sign made that we plan to put at Carvers rd and Mt. Murphy during events that encourages people to drive slow. We open the gates early for guests and have instructed our parking attendants to move cars in off the road quickly to avoid back ups.
- we discourage or disallow buses, super stretch limos and photos at the bridge to avoid congestion.

These are just some of the things we are working on and we appreciate your feed back and input you've provided. 2017 is booking up fast and we already have bookings in 2018. A lot of people in our community benefit from these events including many local caterers and their staff, florists, DJ's, wedding planners, photographers, local hospitalities, cake and pastry chefs like Teal from Sierra Rising and I've even seen honey from Coloma gold. It's a real boon to many locals, a joy to our guests and hopefully not a problem to you, our neighbors.

Thanks again and as always please contact me with any questions or concerns.

Adam Anderson

When we got there, the wonderful hostess, Falsy, showed us around as she does for all couples looking to book the venue. She is friendly, professional, and makes you feel right at home. She gave us the grand tour and answered all of our questions. And after inspecting every detail of the place, I can tell you with confidence that this wedding venue is the cream of the crop.

For the Wedding

There's a grassy, pillar-lined area for the ceremony (if you choose to be married on-site), a carriage house for catering and guest restrooms, plus a giant cobblestone piazza in front of the villa for the reception area, with room for *plenty* of tables. They have speakers all around the piazza for playing music from an MP3 player, and there's also a DJ and dance area just above the piazza, in the courtyard in front of the house. If you want to set up activities at your reception outside of just dinner and dancing, there is also a bocce court for civilized games, along with a table and shaded seating. A built-in fire pit is

- Villa Florentina phone number. Also, if you stay the night you have internet access.
- **No catering, tents, or other rentals provided** through the Villa Florentina. However, they do have a great list of Preferred Vendors who have worked with the Florentina before, including caterers who can get you great deals on rentals if you book through them.
 - **DJ Music must be off at 9:30 p.m..** This isn't the Florentina's rule, it's El Dorado County's sound ordinance for the area. There are neighbors nearby, so you have to be considerate. **But you can still have music playing on the speakers in the Piazza after the DJ has to shut down.**
 - **Event venue closes at 10:00 p.m.** – that's when the wedding guests have to leave. This is also part of the county sound ordinance. However, take it from me – your guests have had a blast, but they are ready to go home. Weddings are fun, but it's a long day for everyone. Besides, after all that stress and subsequent partying, **YOU** are ready to have quiet time

desire a traditional church venue for your ceremony. If you prefer this option, your guests will have only a 2-3 minute drive from the churches to Villa Florentina.

Stone Fire Circle and Stone Benches

FYI, while I did get a free stay at VF, I didn't get paid for this post. I genuine loved it at the Villa Florentina! I can't wait to see more weddings booked there, because they will all be so magical.

I plan to come back with my husband soon. I might just wait until they put in their new spa so Blake and I can get a couple's massage! (Yep, you heard me right! They're putting in a spa!)

But then again... I don't know if I can wait that long.

To stay at the Villa Florentina as a bed and breakfast, check out their listings on Airbnb: Sunset Room, Balcony Room, Tuscan Villa Suite, and Florentina's Honeymoon Suite.

To inquire about using the Villa Florentina as a wedding or event venue, check out their website.
