Subject: special use permit s14-0009

To: planning@edcgov.us

Planning commission:

Please be advised that the neighborhood of skyline drive and crystal air in the country club estates subdivision of south lake tahoe is vehemently against this proposed tower and permit as we have been in the past. Many of us were in attendance a few years ago in front of the Tahoe regional planning agency when verizon also tried to "entrench" themselves in our backyards. For many health and obvious property devaluation reasons, we as united neighbors must vigorously oppose this blatant intrusion by another "big utility " company to intrude on our peace of mind as well as our neighborhood integrity.

Please check your records, we encouraged and persuaded the T.R.P.A. 6 or 7 years ago that this was most assuredly not in the interests of our neighbors in any way. As a long time tahoe resident (40 years) and a business man (30 year broker of real estate) I can assure you nothing good or positive will come out of this endeavor for the project for us as neighbors. There is not a logical reason why AT&T cannot find a more suitable spot to place their towers etc. that will not cause the disharmony of an individual neighborhood like this wil.

Please seriously consider my request as well as the other neighbors who have submitted letters and will show up for the hearing on the 11th of december.

Thank You.

Subject: Special Use Permit S14-009/AT&T Cell Tower Skyline Drive

To: "planning@edcgov.us" <planning@edcgov.us>

To whom it may concern,

I am a ten year resident of Skyline Drive. I am opposing the erection of a cell phone tower in my neighborhood. We already have one that has been in operation for seven years (which I also opposed) and I feel that adding another would be detrimental to our health. While studies of the adverse health effects of cell towers on humans are varied, it is worth noting that the governments of many other countries have disallowed cell phone towers in residential areas and schools. I feel it is sensible to avoid these areas and erect cell phone towers away from people as a precaution. I have two children and I do not want them exposed to the possible effects of one cell phone tower, much less two, on a daily basis. There are many other possible sites that are not in the immediate vicinity of people and I strongly feel that only these sites should be considered.

I sincerely hope that you will consider the opinions of our residents in this neighborhood. It is my belief that everyone, except the homeowner who stands to earn thousands of dollars a month from renting out his land, is strongly opposed to the cell tower. Thank you for your time.

Sincerely,

Louise Wells-King
Resident of Skyline Drive
