

El Dorado County Sheriff's OES

OFFICE OF EMERGENCY SERVICES

EVACUATION PRESENTATION – PERIMETER SOFTWARE

Perimeter is a Website for the Public

- Perimeter Platform was contracted to create and maintain a website for El Dorado County
- Access: perimetermap.com or the QR code
- Basic purpose:
 - Shows citizens if there is an evacuation that impacts them
 - Identified evacuation routes
- Your location on the map is shown as a blue dot
- Red and yellow colors show evacuation orders and warnings
- Green lines show evacuation routes
- One, simple, easy to access site for county-wide information during evacuations
- Not an emergency alerting platform

Perimeter Zones

County is divided up into multiple zones

Learn the name of the zone you live in

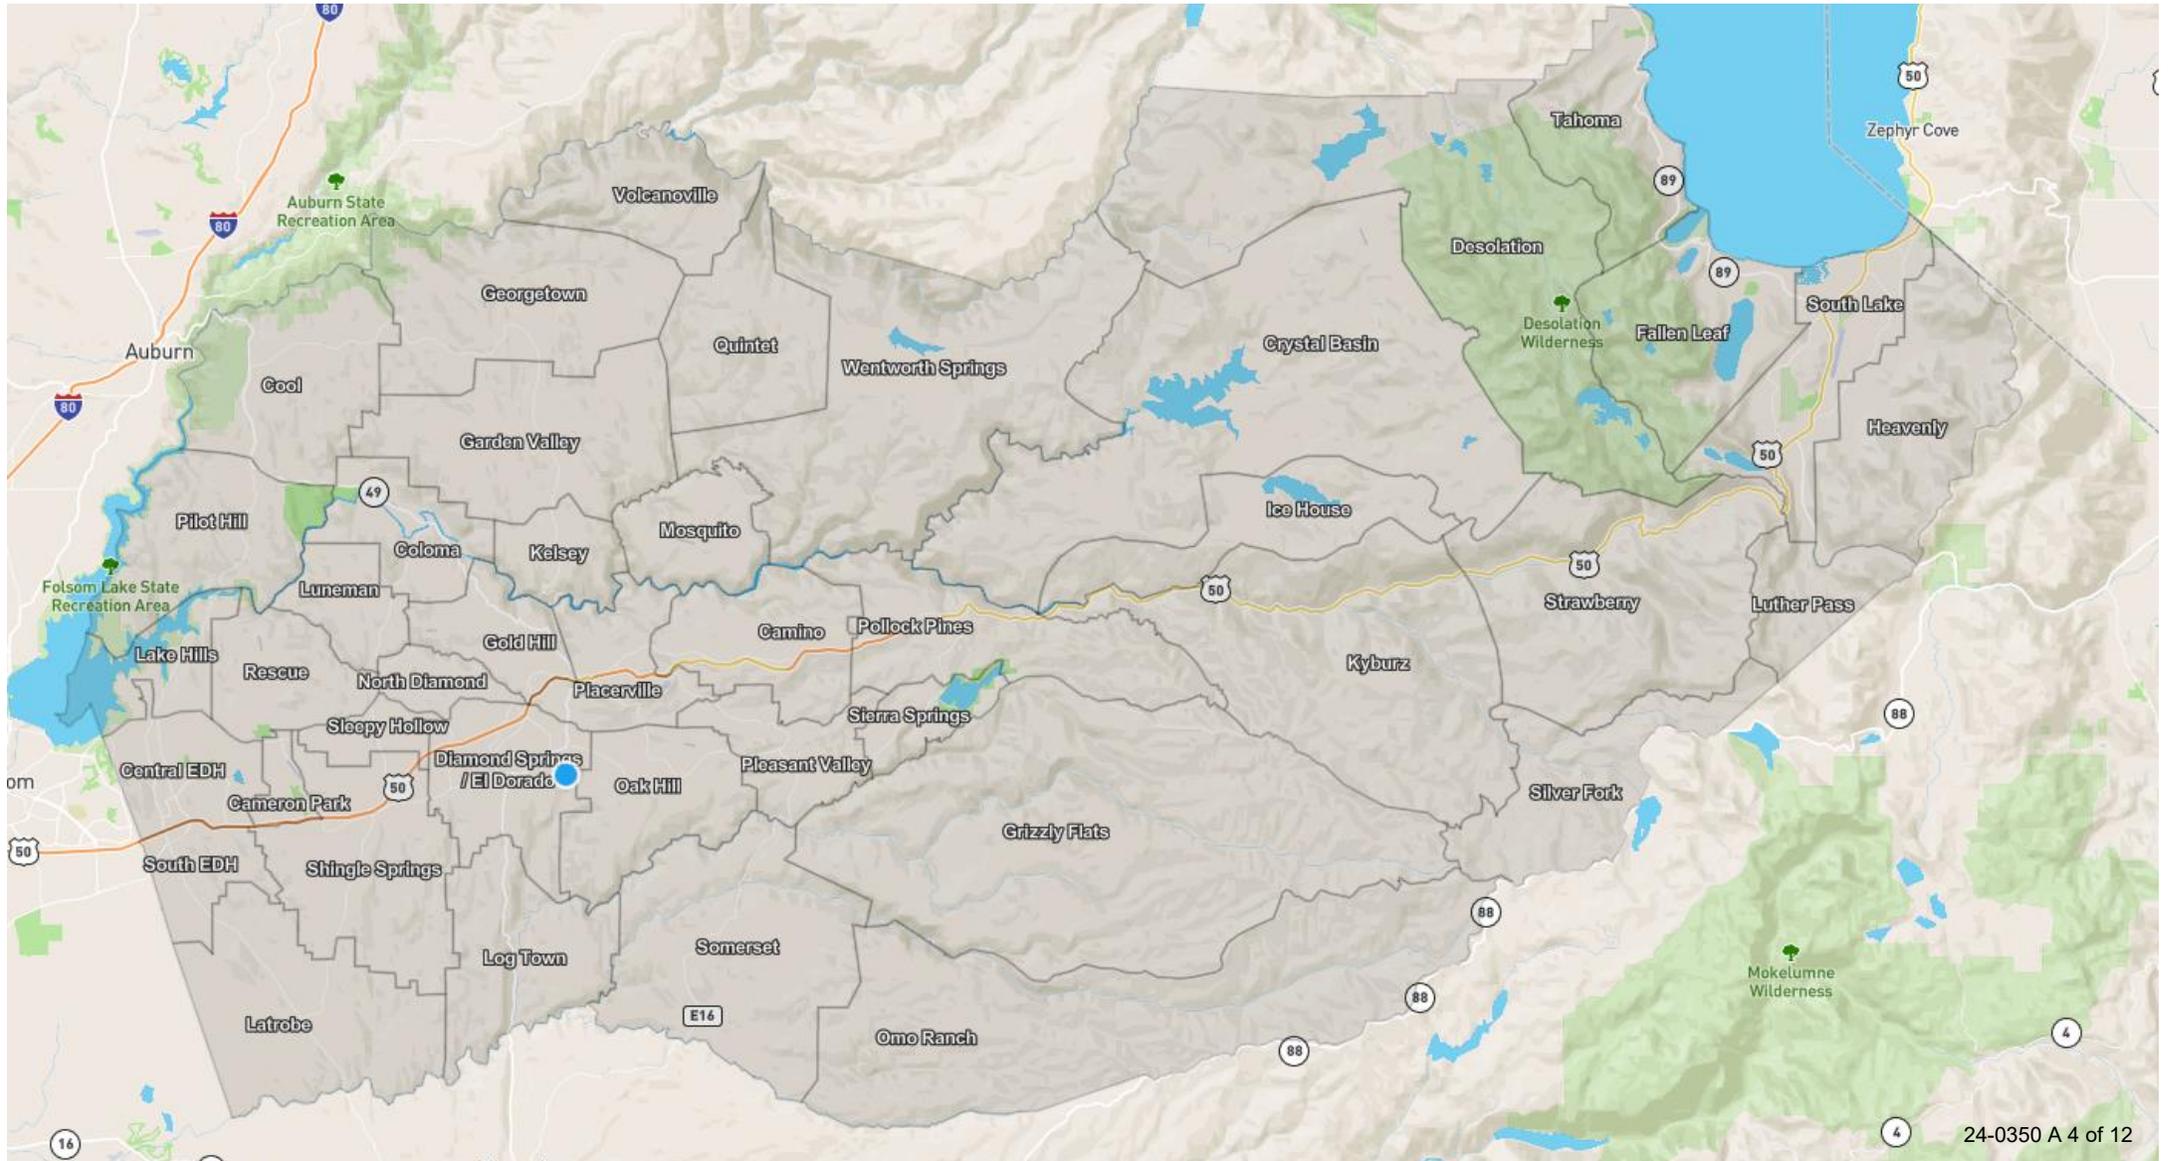

When we send out an evacuation alert, we will use the name of the impacted zone(s)

If you hear your zone is under an evacuation.... open perimetermap.com and see if you are affected by the evacuation

Perimeter Evacuation Zones

Evacuation Basics

- Primary method of conducting evacuations = Door to Door. Secondary = Rave alert & Perimeter
 - During disasters there might not be power or cell service
- **Evacuation Warning** – Gives people who need more time to evacuate (elderly, disabled, large animals) more time to do so and it decreases the traffic on roads
- **Evacuation Order** – You must leave now, immediate risk to life
- Don't hesitate to leave if you feel that you need to evacuate, even if no direction has been given

Perimeter Example

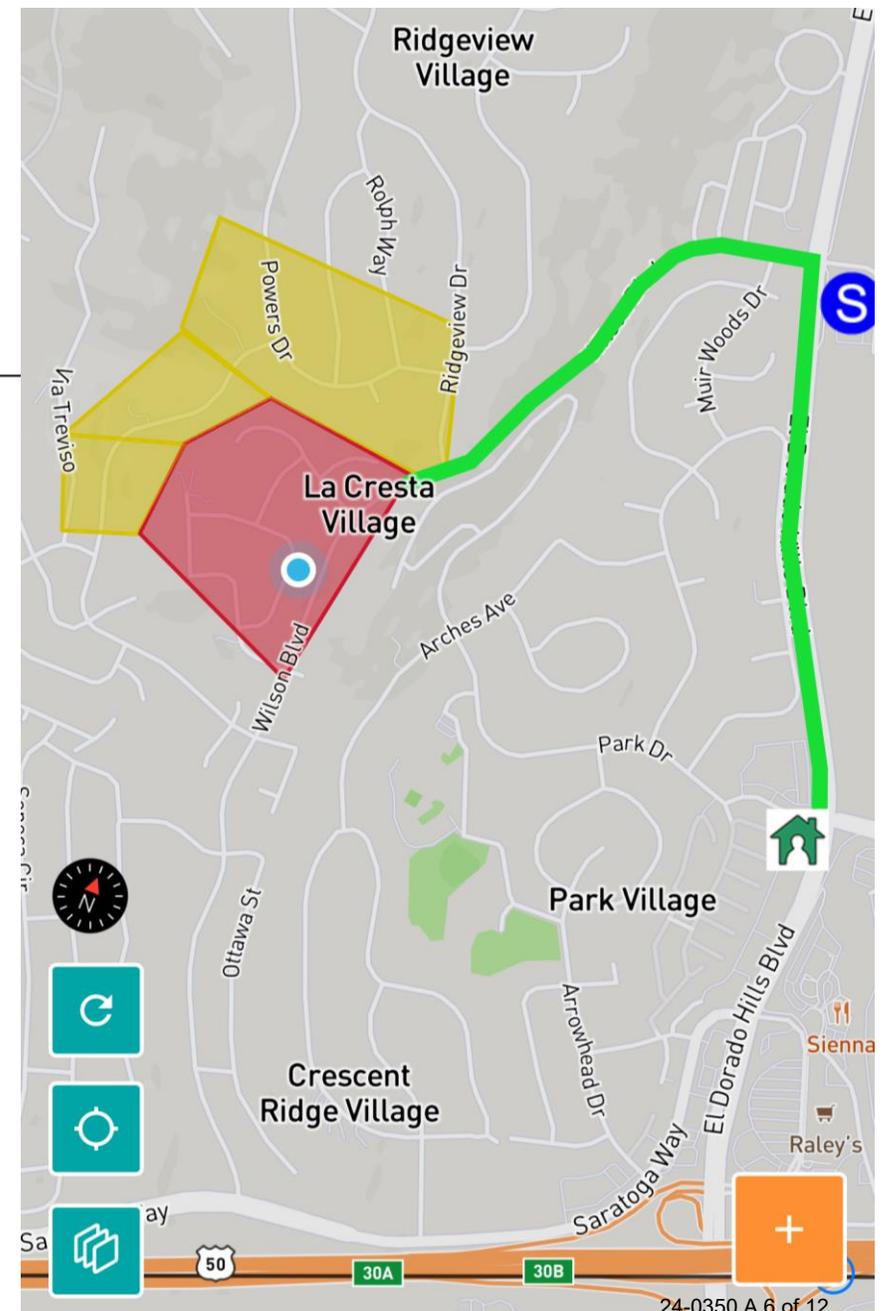

Red = Evacuation order zone

Blue Dot = My location on the map

Yellow = Evacuation warning zone

Green Lines = Evacuation Route

Green House Icon = Evacuation Shelter

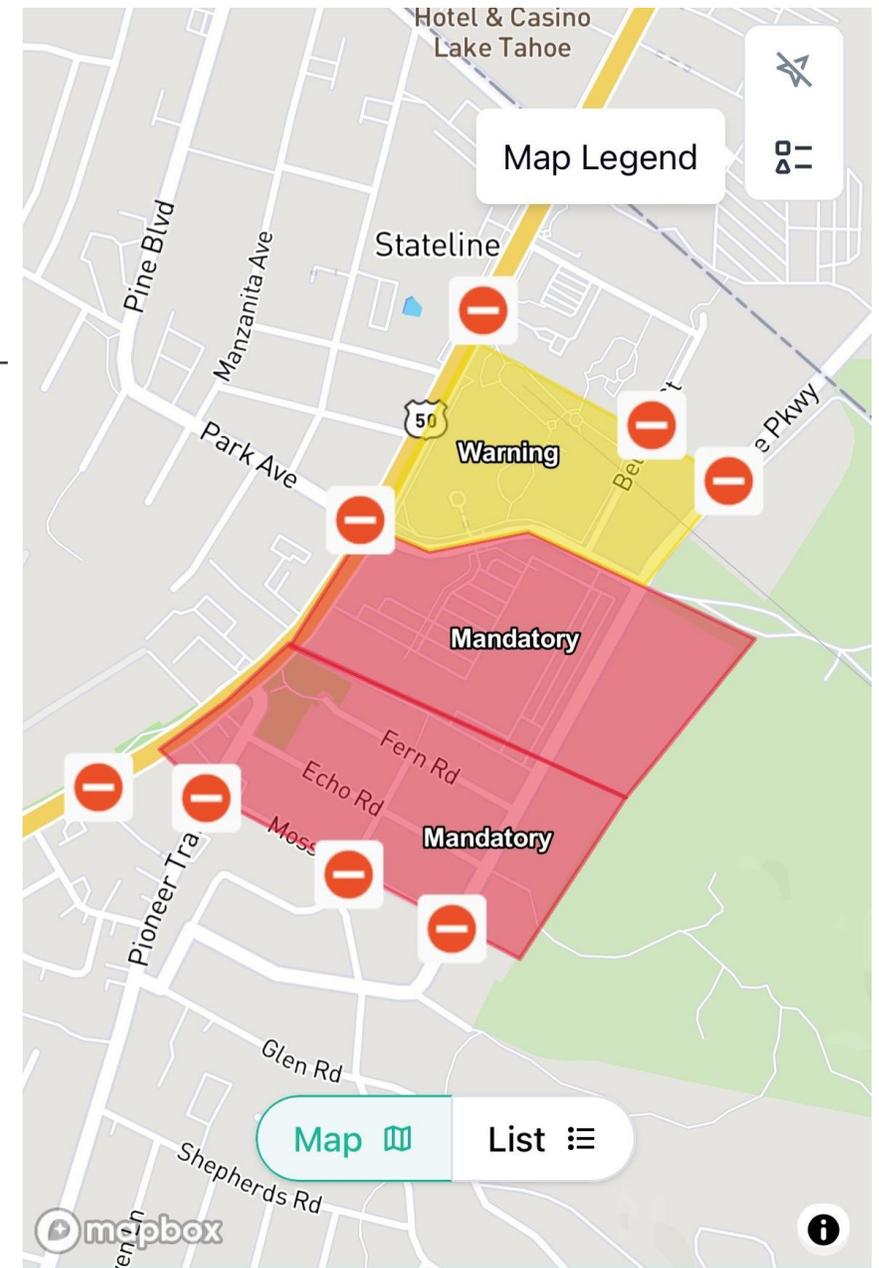

Perimeter Example

Red = Evacuation order zone

Yellow = Evacuation warning zone

Red Circle with a line through it =
Road closure
