Additional Scope of Services

Village of Lime Rock Valley Specific Plan EIR

Consultant shall perform the additional work outlined in this augmentation to the Scope of Services of the Agreement for the preparation of the Village of Lime Rock Valley Specific Plan (LRVSP) Environmental Impact Report (EIR). The specific Scope and Tasks affected are described in detail below.

Task 4 and 5. Administrative and Public Draft EIR

Air Quality (AQ)/Green House Gas (GHG)

AQ and GHG regulations, guidance, and models have been revised and updated over the extended timeframe that the LRVSP has been on hold. Based on discussions with the applicant and County, Consultant has remodeled AQ and GHG emissions to reflect current conditions and assumptions.

Consultant completed revisions to the regulatory settings and thresholds during the period from April to October 2019.

The following tasks are needed to finish updating the AQ and GHG chapters for the Public Draft EIR:

1. Finalization of the GHG mitigation, including quantification of potential emissions reductions;
2. Updates to the AQ and GHG chapters to incorporate the finalized mitigation;
3. Coordination with the applicant and County regarding the mitigated analysis; and
4. Completion of the alternatives analysis and cumulative impact assessment.

Amended Exhibit D-1, Amended Cost Estimate reflects the cost of updating the technical analysis (work completed between April and October 2019) and the budget required for completion of the draft and final EIR.

Per discussions with the applicant and County, the Friant Ranch decision will be addressed qualitatively. Accordingly, this scope of work does not include any quantitative photochemical modeling. If air district guidance or public/agency comments received on the Public Draft EIR indicate the need to perform a quantitative analysis in response to Friant Ranch, a scope and budget augment will be submitted to reflect the additional work.

Update EIR Consistent with Current Appendix G Checklist and Current Conditions

Because this project has been on hold for several years, it is necessary to revise analysis and update references throughout the document. This task shall include checking planning documents, figures related to population and services, and regulations including the 2018 California Environmental Quality Act (CEQA) Guidelines and threshold amendments and updating as necessary. Consultant assumes that no document reorganization will be necessary. This task also includes Consultant editing revisions for consistency, addressing County and applicant comments, and preparing the public draft EIR document for circulation.

Task 9. Prepare Notice of Determination

Consultant hours have increased based upon experience with other planning projects in El Dorado County.
