

EL DORADO COUNTY CALIFORNIA
Chief Administrative Office

January 22, 2008

Memo To: Board of Supervisors
From: Laura S. Gill, Chief Administrative Officer
Subject: Request for Continuance
Status Report on Negotiations with Granite Grado Ventures

At its December 11 meeting (Item #50), the Board of Supervisors directed staff to negotiate with Granite Grado Ventures for reimbursement of costs associated with environmental review, traffic studies, and design to support the construction of the Diamond Springs Parkway (formerly the Missouri Flat Road/Pleasant Valley Road connector). At that time, I told the Board that staff would return with a status report on the progress of those negotiations on January 29, 2008.

Since that time, the Department of Transportation has completed its update of the five-year Capital Improvement Program, which directly impacts the timeline for the Diamond Springs Parkway. DOT will present that update on January 29. Consequently, I request that the status report on negotiations be continued until the Board's February 5 meeting.

I remain available to answer any questions you may have concerning this request.
