RE: REMOVING TRAIN TRACKS

Gentlemen:

I was very DISAPPOINTED to hear that you're intending to remove the railroad tracks from a proposed rail line which would run from Folsom to this area. Since I first heard of a possible train coming into this area I looked forward to an historical excursion train coming from Folsom. I saw the fun of taking the train and making a day of it. It would have been wonderful trip bringing added interest to the area. Please, please reconsider and help bring something which would have been fun, historical, and a benefit to the County.

Sincerely,

Jan Day

We like to hike the way it is -
Keep the Pads in place as they
are. There's plenty of room
for trails too - Keep the options
for our future open!

Dear Board of Supervisors,

Our entire Family has lived in El Dorado County since 1964, mostly in District 3, but some of us live in other Districts.

We ALL agree with the Mountain Democrat Editorial, page 4, dated April 18, 2011 that the train tracks should NOT be destroyed.

We have good memories of the trains that ran through parts of El Dorado County. We ALL would love to see historic trains run through El Dorado County again and have been reading with interest about the possibilities of historic trains returning to El Dorado County. We wish the beautiful old train Engine would still be located between Hwy 50 and Main Street in Placerville where the old caboase is now. Now there is discussion of removing the old caboase to another location where it will not be seen.

There is room for historical trains as well as Hikers, Bikers, and Horse Back Riders to share instead of getting rid of the Railroad tracks and the possibility of historical trains.
