Subject Proposed Detour for Bass Lake Road improvements

Helen: I am writing to you to ask you to support the DOT recommended detour that has been proposed for use during the road work improvements scheduled for Bass Lake Road. As much as any detour will be an inconvenience, I am very concerned at the alternative proposal - with the volume of traffic now using Bass Lake Road, the intersection of Country Club Road and Terra De Dios Drive will be a huge bottleneck. I am also concerned at the stretch of Country Club Road that runs parallel to Hwy 50, where there is no barrier to stop cars going over the side of the road down the embankment onto Hwy 50. With this volume of traffic (Country Club + Bass Lake Road), the possibility of such an incident will increase significantly. Driver frustration with traffic delays will just exacerbate the situation.

Regards,

Stuart Colvin
