3-7-17 BOS Consent Item #8, File #16-0296

This item is regarding the RCU lawsuit on the General Plan and Zoning Ordinance overhauls. I have a question about process that I would like explained for the public.

What if 3 of the 5 Supervisors who walk into the next Closed Session regarding this lawsuit say that they realize that the process was flawed and that they do not want to further waste taxpayer money on this lawsuit. Is there a way to stop wasting resources on this lawsuit and actually work out the issues that were listed in the petition?
