Subject: Concerns of School Reopening
To: <bosone@edcgov.us>

Dear Mr. Hidahl,

I am a teacher and a parent in El Dorado Hills. I am writing to express my concerns about the current plans to reopen schools.

The current plan in my district (to reopen 5 days) does not try in even the slightest to socially distance students from one another nor teachers from students. From the beginning of the pandemic, it has been broadcast that socially distancing can help reduce the spread of Covid-19, yet now our district is planning to ignore this essential strategy as we enter the classrooms. I feel that socially distancing in addition to wearing masks is essential if we are expected to return to the classroom.

I am also concerned that we are not adequately prepared as a school system to deal with potential infections. For example, if a family member of a student or teacher feels they may be exposed to Covid, how are family members expected to respond to that? Will teachers have to take all their sick leave as they wait for test results? Will a Covid test warrant a family quarantine?

I am concerned that reopening schools without more caution will end up in the same situation as the MLB...having to postpone what we began due to increases in Covid numbers.

Everyone wants to be back to normal. Of course parents want the free childcare of public schools, but please prioritize the safety and health of the teachers, students, and their families during this time.

I hope you will consider my concerns as you go into tomorrow's board meeting.

Thank you.

Sincerely,
Bonnie Hampton

Hello Supervisor Hidahl,

I understand the Board of Supervisors has some influence over whether to open schools this fall. Apparently, Dr. Nancy Williams owns the ultimate decision, but my family wants to give you our thoughts on this important call. Closing schools to in-person learning would be a big mistake for a number of reasons:

1. COVID is not a death sentence. It's essentially the flu in terms of how it impacts healthy people. As you likely know, the effect on young people is even more benign. Unless we plan to shut down school every flu season going forward - there

is no rationale to do it now.

2. The costs of not going to school far outweigh the risks of opening school. The societal costs include increased suicide (at record highs currently), depression, loneliness, etc. Kids need to be in school to see their friends and grow in their ability to interact with each other and actively exchange ideas. Zoom doesn't allow this.
3. Europe has been in school for over a month with minimal health impact! Look it up. Europe is proving my point in real time.
4. Without in-class instruction, the education gap will grow, perhaps irreversibly, between the poor and the middle and upper classes. The poorest are suffering with school closed more than the well-off. Additionally, the poor single-parent homes cannot get back to work full time until their children are back in school full time - further damaging them economically.
5. Student-athletes will be cheated of their seasons - especially the seniors. They'll be denied their final year of competing or attempting to qualify for college-level teams. Note that last year's juniors will essentially miss two years of sports. It's unfair to cancel athletics when many are automatically socially distanced (e.g. baseball, swimming, tennis, etc.). What a terrible way to complete their high school careers.

Last, in-person instruction should be the default position for the reasons above. The onus should be on Dr. Williams to demonstrate why our kids should not attend school on site. Further, El Dorado County is a large county. Schools such as Oak Ridge and Ponderosa should not be shut down because of outbreaks near Lake Tahoe. If for some reason, the county surpasses the state's watch list threshold due to cases in the eastern part of the county, we should seek and receive a special exemption.

Thank for your time. Please let me know if you have any questions.

Subject: Returning students to school
To: <edc.cob@edcgov.us>, Fuson Serena <sfuson@eduhd.k12.ca.us>

Attention School Board,

I am writing this memo in regards to my child who attends Ponderosa High School. I am requesting that school be allowed to reopen and distance learning from home be brought to a minimum or not at all. The loss of education from last year and this year combined will be detrimental to his learning and affect him overall with his total education and the rest of his life. As all parents are aware, structure is the key to learning environment. We as a society have established this structure and now with at home learning are degrading this foundation. I observed my son's grade drop and his drive to complete school dwindle over the course of last semester. I understand there are certain risks related to COVID-19 and the data does not support the infection rate of younger healthier students. There are concerns related to school having liability related to COVID-19 and infecting students, I believe a simple wavier could be the solution for all parents to sign to return to school. I wanted to express my concern related to going back to school and am hoping that moving forward the School Board will

Please ensure the entirety of this correspondence is entered into the public record.

The unreliability of government data with regard to this scam-demic has been the topic on several radio talk shows, but never reported in the MSM. Numerous medical professionals have testified that masks are not only ineffective, they've proven to be detrimental. At present COVID testing requires that you sign up in advance, but many people have testified standing in line for 2 hours only to drop out and go home *without getting tested*. Shortly thereafter they receive a phone call that they *tested positive for a test they never received!* Even people who died in auto crashes are listed as COVID on their death certificates.

I'd like to share my experience last Friday when I arrived for an appointment with Roseville Kaiser radiology. As I entered the medical offices there were no hand washing stations, nor was anyone taking temperatures at door. Upon asking directions to radiology, I was directed across the street to the hospital. Again, no hand wash stations and nobody taking temperatures as people flowed into the facility. As I made my way to the second floor radiology, I was surprised to see how many staff had pulled their masks down beneath their nose in order to breathe properly. Kaiser Hospital News has also distributed a press release about the fraud unfolding throughout the nation in order to obtain COVID funding.

On June 3rd Dr. Williams stated in a press release that *"businesses may reopen as long as they have implemented a safety plan which reflects those (state) guidelines. I cannot stress enough, however, that if a business reopens before the State-issued guidelines have been posted, it is doing so in violation of the State's Stay At Home order."*

On July 6th I submitted a CPRA regarding Coloma-Lotus campgrounds and their compliance with COVID safety plans. I also requested if those plans do not exist, please so state immediately. Either the documents exist, or they do not exist, and if you intend to withhold that information, please **provide a signed notification citing the specific legal authorities on whom you rely**. As you know, the law makes no exception for extensions due to COVID-19.

Of particular concern is the fact that the Coloma Resort has been packed like sardines and overflowing since Memorial Day weekend. The Coloma Resort operates the Children's Discovery School in conjunction with State Parks where kids come to learn about Gold Rush history. Needless to say, nobody in the gathering crowds have been wearing masks. There are multiple public safety issues besides COVID, including yet another fireworks incident, egress problems on the Mt. Murphy bridge, and lack of code and law enforcement.

That July 3rd CPRA was due July 17th, but as you heard during Open Forum this morning, there has been nary a peep from Dr. Williams, Lori Parlin, Tiffany Schmid, CA State Parks, or the Sheriff's office as required by law and pursuant to your Constitutional oaths of office.

It's high time for authentic government transparency and accountability.

Subject: RE: Public Records Request :: P002709-070620

A response to this CPRA was due no later than 7/17/20, but thus far nothing has been emailed to me as initially requested on July 4, 2020.

If the requested documents do not exist, or you intend to withhold them, *please so state immediately*. **The agency must justify the withholding of any record** by demonstrating that the record is exempt or that the public interest in confidentiality outweighs the public interest in disclosure. (§6255) **If you determine that some but not all of the information is exempt from disclosure and that you intend to withhold it, I ask that you provide a signed notification citing the specific legal authorities on whom you rely.**

Of particular concern is Deputy Toney's report Case File EG20-5423 which was also to be sent to Planning Director Tiffany Schmid, along with all other complaints, pursuant to the River Management Plan as specifically outlined below:

A copy of this report should also be filed with Planning and Development Director Tiffany Schmid and to Supervisor Lori Parlin to ensure appropriate follow up as per the RMP:

I also request EDC and CSP email me copies of the signed and dated safety plans for the Argonaut Café and the Coloma Resort as per the above directive issued by Dr. Nancy Williams. If those plans do not exist, please so state. To avoid unnecessary delays or costs of duplication, electronic copies are acceptable and may be emailed directly to melody.lane@reagan.com in pdf format. **Access is always free.** Fees for "inspection" or "processing" are prohibited. (§ 6253)

It is further requested that your determination be made within **10 days, or sooner**, as stipulated within the California Public Records Act, Government Code 6253(c). ***Note these time periods may not be used solely to delay access to the records. (§ 6253(d)) The law makes no provision for extensions due to Covid-19.**

The County of El Dorado is dedicated and responsive to our community. Your request has been received and is being processed. Your request was given the reference number P002709-070620 for tracking purposes.

Records Requested: Therefore, pursuant to California Public Records Act (Government Code Section 6250 et seq.) I request the following: Since Sheriff D'Agostini has threatened me for the exercise of my First Amendment rights and unlawfully deprived me the right to email EDSO staff, Deputy Toney advised me to email this request to the appropriate staff in order to obtain a copy of Case File 20-5423. His report should be emailed to me immediately upon the submission by Deputy Toney. A copy of this report should also be filed with Planning and Development Director Tiffany Schmid and to Supervisor Lori Parlin to ensure appropriate follow up as per the RMP: Note Section 2.4.2 "During weekend days, on-river staff will provide patrol and respond to safety, trespass, and noise issues. Boat counts and coordination with the Sheriff related to trespass and illegal parking incidents will be conducted by on-shore staff." Section 2.5 states: "The Sheriff's Department will remain the lead agency for river emergency response. The Sheriff's Department will continue its river regulation and law enforcement functions, and coordinate with the El Dorado County Fire Protection District and RSC in all river rescue planning and response functions." Section 4.8.1: "Observed or reported violations of Quiet Zone regulations or County noise standards will be reported to the County Code Enforcement Officer or the Sheriff's Department, as appropriate, within 2 working days of the occurrence." Section 4.8.2: "More than two noise exceedance citations per year issued to SUP holders may result in a formal hearing considering the noise exceedances and the possible imposition of fines and other disciplinary measures on violators." Section 4.8.3: "More than two noise exceedance citations in two consecutive years may result in a formal recommendation for limitation or revocation of an SUP to the County Code Enforcement Officer and Planning Director. I also request EDC and CSP email me copies of the signed and dated safety plans for the Argonaut Café and the Coloma Resort as per the above directive issued by Dr. Nancy Williams. If those plans do not exist, please so state. To avoid unnecessary delays or costs of duplication, electronic copies are acceptable and may be emailed directly to melody.lane@reagan.com in pdf format. Access is always free. Fees for "inspection" or "processing" are prohibited. (§ 6253) It is further requested that your determination be made within 10 days, or sooner, as stipulated within the California Public Records Act, Government Code 6253(c). *Note these time periods may not be used solely to delay access to the records. (§ 6253(d)) The law makes no provision for extensions due to Covid-19.

Your request will be forwarded to the relevant department(s) to locate the information you seek and to determine the volume and any costs associated with satisfying your request. You will be contacted about the availability and/or provided with copies of the records in question.

You can monitor the progress of your request at the link below and you'll receive an email when your request has been completed.

Thank You,

County of El Dorado

Please ensure the entirety of this correspondence is entered into the public record:

In the past Lori Parlin and Larry Weitzman have accompanied me to meetings with county counsel concerning the county's systematic lack of response to Public Record Act Requests. This just goes to prove how last week's 3.5 hour Special Joint BOS-Planning Commission meeting was just another dog-n-pony show, a total waste of time and taxpayer resources. In regard to CPRA 2709 and 2645, my original CPRA was edited by the Clerk to the Board, very likely under the direction of County Counsel, and in so doing key elements were eliminated from my requests for public records. Such Bureaucratic Shenanigans CANNOT be tolerated.

Of particular concern is Deputy Toney's report Case File EG20-5423 which was also to be sent to Planning Director Tiffany Schmid, along with all other complaints, pursuant to the River Management Plan. Responses to the aforementioned CPRAs were due respectively June 9th and July 17th.

Apparently EDC public officials have no intention of operating lawfully with transparency and accountability. It does not bode well that Lori Parlin has been particularly unresponsive to constituent concerns about public safety in the Coloma-Lotus region. I've specifically requested if the requested documents do not exist, or you intend to withhold them, *please so state immediately*. **The agency must justify the withholding of any record** by demonstrating that the record is exempt or that the public interest in confidentiality outweighs the public interest in disclosure. (§6255) **If you determine that some but not all of the information is exempt from disclosure and that you intend to withhold it, I ask that you provide a signed notification citing the specific legal authorities on whom you rely.** It was further requested that your determination be made within **10 days, or sooner**, as stipulated within the California Public Records Act, Government Code 6253(c).

***Note these time periods may not be used solely to delay access to the records. (§ 6253(d)) The law makes no provision for extensions due to Covid-19.**

So what's the problem? Pursuant to the Brown Act Section § 54954 . 2 (a) , you are required to respond publicly to this inquiry by law.

Lori Parlin has an obligation to respond to her constituents. Lori? (TOTAL SILENCE)

Your silence is your acquiescence that you have no intention of abiding by the law.

There still has been no response to this CPRA initially submitted on July 4, 2020 at 8:06 PM which was to be **emailed directly to me** no later than July 17th pursuant to Government Code Section 6250 et seq. That certainly doesn't demonstrate your commitment to "Good Governance."

Lori Parlin: Since this is pertinent to District #4, you have an obligation to constituents to follow up on this ASAP. We'd like to know what's the hang-up? Also note the latest developments at the Coloma Resort affecting the public safety of local residents:

Subject: RE: Public Records Request :: P002709-070620

A response to this CPRA was due no later than 7/17/20, but thus far nothing has been emailed to me as initially requested on July 4, 2020.

If the requested documents do not exist, or you intend to withhold them, *please so state immediately*. **The agency must justify the withholding of any record** by demonstrating that the record is exempt or that the public interest in confidentiality outweighs the public interest in disclosure. (§6255) **If you determine that some but not all of the information is exempt from disclosure and that you intend to withhold it, I ask that you provide a signed notification citing the specific legal authorities on whom you rely.**

Of particular concern is Deputy Toney's report Case File EG20-5423 which was also to be sent to Planning Director Tiffany Schmid, along with all other complaints, pursuant to the River Management Plan as specifically outlined below:

A copy of this report should also be filed with Planning and Development Director Tiffany Schmid and to Supervisor Lori Parlin to ensure appropriate follow up as per the RMP:

I also request EDC and CSP email me copies of the signed and dated safety plans for the Argonaut Café and the Coloma Resort as per the above directive issued by Dr. Nancy Williams. If those plans do not exist, please so state. To avoid unnecessary delays or costs of duplication, electronic copies are acceptable and may be emailed directly to melody.lane@reagan.com in pdf format. **Access is always free.** Fees for "inspection" or "processing" are prohibited. (§ 6253)

It is further requested that your determination be made within **10 days, or sooner**, as stipulated within the California Public Records Act, Government Code 6253(c). ***Note these time periods may not be used solely to delay access to the records. (§ 6253(d)) The law makes no provision for extensions due to Covid-19.**

The County of El Dorado is dedicated and responsive to our community. Your request has been received and is being processed. Your request was given the reference number P002709-070620 for tracking purposes.

Records Requested: Therefore, pursuant to California Public Records Act (Government Code Section 6250 et seq.) I request the following: Since Sheriff D'Agostini has threatened me for the exercise of my First Amendment rights and unlawfully deprived me the right to email EDSO staff, Deputy Toney advised me to email this request to the appropriate staff in order to obtain a copy of Case File 20-5423. His report should be emailed to me immediately upon the submission by Deputy Toney. A copy of this report should also be filed with Planning and Development Director Tiffany Schmid and to Supervisor Lori Parlin to ensure appropriate follow up as per the RMP: Note Section 2.4.2 "During weekend days, on-river staff will provide patrol and respond to safety, trespass, and noise issues. Boat counts and coordination with the Sheriff related to trespass and illegal parking incidents will be conducted by on-shore staff." Section 2.5 states: "The Sheriff's Department will remain the lead agency for river emergency response. The Sheriff's Department will continue its river regulation and law enforcement functions, and coordinate with the El Dorado County Fire Protection District and RSC in all river rescue planning and response functions." Section 4.8.1: "Observed or reported violations of Quiet Zone regulations or County noise standards will be reported to the County Code Enforcement Officer or the Sheriff's Department, as appropriate, within 2 working days of the occurrence." Section 4.8.2: "More than two noise exceedance citations per year issued to SUP holders may result in a formal hearing considering the noise exceedances and the possible imposition of fines and other disciplinary measures on violators." Section 4.8.3: "More than two noise exceedance citations in two consecutive years may result in a formal recommendation for limitation or revocation of an SUP to the County Code Enforcement Officer and Planning Director. I also request EDC and CSP email me copies of the signed and dated safety plans for the Argonaut Café and the Coloma Resort as per the above directive issued by Dr. Nancy Williams. If those plans do not exist, please so state. To avoid unnecessary delays or costs of duplication, electronic copies are acceptable and may be emailed directly to melody.lane@reagan.com in pdf format. Access is always free. Fees for "inspection" or "processing" are prohibited. (§ 6253) It is further requested that your determination be made within 10 days, or sooner, as stipulated within the California Public Records Act, Government Code 6253(c). *Note these time periods may not be used solely to delay access to the records. (§ 6253(d)) The law makes no provision for extensions due to Covid-19.

Your request will be forwarded to the relevant department(s) to locate the information you seek and to determine the volume and any costs associated with satisfying your request. You will be contacted about the availability and/or provided with copies of the records in question.

You can monitor the progress of your request at the link below and you'll receive an email when your request has been completed.

Thank You,

County of El Dorado

Greetings,

Ever since April 2020 when some Americans belatedly began to realize that the COVID-19 pandemic would likely hit our nation **hard**, one of the biggest problems hasn't been too little "information" about it, but too much -- coming from such counterproductive human factors as:

> overt claptrap, including various kinds of the usual (or ideologically-driven) "denialism" (see <https://en.wikipedia.org/wiki/Denialism>);

> seemingly plausible speculation that has little or no basis in known science, ongoing scientific research, or valid systematically-recorded clinical observations;

> a widespread overreliance by people, including too-many scientists, on unverified, often-improperly validated mathematical or computer models when trying to characterize highly-complex biological phenomena like infectious-virus pandemics and immune-system reactions (see https://en.wikipedia.org/wiki/All_models_are_wrong);

> jumping to premature conclusions by certain scientists, clinicians, and certain government-agency politically-appointed administrators (e.g., the U.S. FDA and CDC) that lead to even more uncertainty and confusion among people who are not familiar with rigorous scientific methods and meticulous statistical analysis;

> the almost-constant search for sensationalism, coupled to routine oversimplification, on the part of too-many news-media outlets, to attract public attention or a more popular followership.

A sensible question to ask in the face of such uncertainty is on what

one person, or agency, might an intelligent, objective person rely to obtain credible, forthright, timely information and insights on how to interpret concerns about the COVID-19 pandemic on such issues as on "Reopening Schools" -- a topic that is now being much discussed nationwide, as well as in California?

After over 3 months of searching for an answer to this question, my strongest recommendation, to date, for "best single source" on the COVID-19 pandemic points (unreservedly) to Dr, Michael Osterholm, the 2001 founder and highly energetic, matter-of-fact director of the highly-acclaimed Center for Infectious Disease Research and Policy (CIDRAP) at the University of Minnesota. Known for his honesty and simple humanity, Dr. Osterholm, who is an internationally-renowned epidemiologist with a long and highly-practical background in both the scientific and public-policy sides of infectious diseases in relation to public health, has a refreshingly straightforward way of explaining the complexities of science as they pertain to infectious diseases and the different potential ways of dealing with them, without sounding either equivocal or opaque, as is the case with many top experts.

To listen to what Dr. Osterholm recently said (on 7/22/2020) about "Reopening Schools" in the face of the ongoing COVID-19 situation, go to "Osterholm Update: COVID-19 Episode 17: Reopening Schools ..." at: <https://www.cidrap.umn.edu/covid-19/podcasts-webinars/episode-17>.

Also, see:

<https://www.cidrap.umn.edu/about-us/cidrap-staff/michael-t-osterholm-phd-mph>

<https://www.cidrap.umn.edu/>

<https://www.cidrap.umn.edu/covid-19/podcasts-webinars>

I'll likely have more information on Dr. Michael Osterholm and CDRAP in future communications, as well as other reliable sources of information on COVID-19. Dr. Osterholm and CDRAP, are the most reliable, pertinent and useful to laypersons not expert in a biomedical science or in understanding detailed statistical analysis of the type used by epidemiologists -- in my opinion.

Best regards.

To: EDC COB <edc.cob@edcgov.us>

I see that I evidently made a key boarding error or the phone it an auto correct that changed my intended wording .

It should have been : "the majority of people do not die " .

It came out as "in due " rather than "not die"

I also sent an additional email to Brian, putting forth some of my arguments for re-opening the schools.

Hopefully all will be included with the comments on the pertinent topic.

Thank you for your time, work and dedication to the betterment of the county.

Carol Mueller

My grandchildren are at Schnell School and at the middle school in Placerville so we have a vested interest in the upcoming school year.

We live in Tucson Arizona most of the year but have a home here. I think this idea put forth by an Arizona school district is worth considering.

The teachers will be going to their classrooms each day for a set amount of time. If they have children that need to be taken care of their children will be able to go with them. The teachers will teach from their individual classrooms while their students are at home on zoom, etc. This would be done so that the teachers can get the tech support that they need and the internet connections, etc would be provided by the school district. They would have their materials available to them as needed in the classroom and it would help guarantee that the students are actually being taught by their teachers for a specific amount of time each day. It would insure that both the students and the teachers are in a safe environment.

We have one granddaughter and grandson whose education went pretty well at the end of last semester. We have another whose teacher got on zoom one time and the topic she discussed with the kids had absolutely nothing to do with their education. She was a younger teacher who had apparently no knowledge of the internet or was unwilling to learn or did not have the resources at her disposal.

I hope you will add the above suggestions to your meeting. I did not find out about the meeting until 4 pm today so did not meet the time frame, but feel it is something you should all consider anyway.

Thank you.

Donna Sisley

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is crucial for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It highlights the need for consistent data collection procedures and the use of advanced analytical techniques to derive meaningful insights from the data.

3. The third part of the document focuses on the role of technology in data management and analysis. It discusses how modern software solutions can streamline data collection, storage, and processing, thereby improving efficiency and accuracy.

4. The fourth part of the document addresses the challenges associated with data management, such as data quality, security, and privacy. It provides strategies to mitigate these risks and ensure that the data remains reliable and secure throughout its lifecycle.

5. The fifth part of the document concludes by summarizing the key findings and recommendations. It stresses the importance of a data-driven approach in decision-making and the need for continuous monitoring and improvement of data management practices.
