The community of Pollock Pines needs the support of the county in moving forward with the Forebay Park plans. We are a low income area and one of the only towns in El Dorado County that does not have a play area for our children outside of schools or private churches. CEDAPP has completed many fundraisers for this project & our community, including Snowline LL support the additional play area, in the location near the baseball field we primarily care for. Besides supporting activities during the baseball season, the park would support the community as a whole helping increase revenue and giving tourist a place to enjoy within our town.

Please support the funding and allocate available funds through the state for this development project. Our community supports many seasonal travelers & this would help the businesses of our community as well.

Thank you for your consideration & time.

Becky Gutherz  
Snowline President

Dear Members of the Board of Supervisors:

With regards to Agenda Item 21-1517, I would like to express the support of American River Conservancy (ARC) to pursue grant funding from the State of California Natural Resources Agency's Regional Park Program to improve recreational facilities at Chili Bar Park. As a management partner at this site, ARC is willing to provide a letter of support and can provide some capacity to assist with proposal development. To this end, we strongly encourage County staff to contact ARC staff as soon as possible.

Sincerely,

Elena
