The CAL-Card is a payment mechanism, not a procurement approach and, therefore, does not relieve departments from adhering to all procurement laws, regulations, policies, procedures, and best practices, including those discussed in the State Contracting Manual (SCM) Volume 1 and Volume 2. This includes but is not limited to the application of all sales and use tax laws, rules and policies as applicable to the purchase.

C. State Financial Marketplace

The State reserves the right to select the form of payment for all procurements, be it either an outright purchase with payment rendered directly by the State, or a financing/lease-purchase or operating lease via the State Financial Marketplace (GS \$Mart and/or Lease \$Mart). If payment is via the financial marketplace, the Supplier will invoice the State and the State will approve the invoice and the selected Lender/Lessor for all product listed on the State's procurement document will pay the supplier on behalf of the State.

TIG Take Back Program

TIG partners with Clover Technologies Group Inc. the leading provider of vertically integrated closed loop environmental solutions. Clover with its zero to landfill policy recycles 100% of the returned products received into their warehouse. Multi-Functional Copiers that cannot be refurbished will be completely disassembled, separated into end of life parts and refurbished parts. The refurbished able parts are then sent through industrial strength cleaners and then to the remanufacturing process to have a completed product ready for resell. The end of life items are sorted by material type and recycled to raw materials for future use.

Our recycling program is reliant upon end users returning products from all OEM's, Clover pays for the freight to encourage the Agencies to help in keeping our country environmentally sound. Once old Multi-Functional Copiers are received in their 315 Weakley street Calexico, CA recycling address they are inspected to determine what parts are available to be refurbished and/or processed for end of life. Again, the end of life items are sorted by material type and recycled to raw materials for future use, nothing goes to the landfill. In California this program is in compliance with Universal waste rule at the end of their useful life.

Any ordering Agency can direct trade-in questions or request any info from TIG's State Team
