During our December 4, 2012 meeting I promised to forward a chronology of all previous board direction and actions concerning the Trails/Trains coridor. Brenda has been diligently working the last couple days to pull it together and I'd like to think sometime in next couple days she will put things together. The girth of documents and many different Legistar numbers make this a large task.

Being a student of the trails / trains issue I am convinced our staff, much less the board, will not be in a position to do anything different than our previous actions. In short, I believe once each of you have an opportunity to digest our past actions it'll be clear that much work is to be done internally before any resolution to any entity is considered.

Therefore, under separate cover I will submit to Clerk of Board a request to continue the December 18, 2012 Trails/Trains items "off calendar".
