Reasons why I believe we need five mental health board members in South Lake Tahoe:

We have our own city police dept.

We have our own El Dorado County Sheriffs Department and jail.

We have our own Mental Health Dept.

We have a high volume of transients that need services.

Our population varies with every season and difficult to manage services.

We have our own court and behavioral court system.

We have our own judges, prosecutors and public defenders.

We have our own hospital.

If we are to review the areas mentioned above there is more than enough work for five commissioners let alone four.

Please consider approving five seats for the Mental Health Commission in South Lake Tahoe.

Thank you for your consideration.
