ARTICLE I

Scope of Services: El Dorado County's MHSA Plan addresses specific goals for priority populations. The services provided under MHSA are consumer and family driven, recovery-oriented, assessable, culturally competent, and they offer integrated service experiences for consumer and their families.

Prevention and Early Intervention (PEI) services are designed to be of short-term duration, usually six-months or less, and are intended to prevent serious mental illness/emotional disturbance by promoting mental health, reducing mental health risk factors, and by intervening to address mental health problems in the early stages of the illness. Some individuals may require services for a longer period of time. Individuals in need of indefinite services for services in excess of one (1) year, adults with a severe mental illness as defined by Welfare and Institutions Code Section 5600.3(b), and children with severe emotional disturbance as defined by Welfare and Institutions Code Section 5600.3(a) must be referred by Contractor to the County of El Dorado Health and Human Services Agency, Behavioral Health Division (HHS/BHD) for assessment.

The PIP is an evidence-based practice that offers short-term, individual, non-directive play with a trained school aide for kindergarten through third-grade students who are at risk of developing emotional problems. The screening team determines those children who are at risk of developing emotional problems based on indications of difficulties experienced with adjustments in school. Students are selected for program participation through a selection process that includes completion of standardized assessments and input from the school-based mental health professionals and teachers. Parental consent is required for student participation. Parents/guardians and teaching staff are encouraged to be involved in the program to build alliances to promote students' mental health and social and emotional development.

The short-term goals of the program are to provide services in a school-based setting to enhance access to mental health services, build protective factors by facilitating successful school adjustment, and target violence prevention as a function of skills training. The long-term goals of the program are to decrease school adjustment difficulties at an early age and build protective factors to foster youth resilience and mental health. Contractor will comply with the PEI regulations, effective July 1, 2018, or as may be replaced or amended hereafter. Said regulations are available at www.edcgov.us¹, Health and Human Services, Contractor Resources, incorporated by reference as if incorporated herein.

- A. Services: Contractor agrees to furnish services in support of the HHS/BHD PIP, funded through the Prevention Program of the Fiscal Year (FY) 2017-18 through FY 2019-20 MHSA Three-Year Program and Expenditure Program and the subsequent MHSA Annual Updates for FY 2018-19 and FY 2019-20. Contractor will provide services in accordance with the PIP model.
 1. Serve students in kindergarten through third grade in public school districts experiencing mild to moderate school adjustment difficulties. Supervised and trained child aides provide weekly non-directive play sessions with the selected students.
