

CalRecycle Calculators

Advisory! The per capita disposal rate is a jurisdiction-specific index and cannot be compared between jurisdictions. The per capita disposal rate is used as one of several "factors" in determining a jurisdiction's compliance with the intent of AB 939, and allows the California Department of Resources Recycling and Recovery (CalRecycle) and jurisdictions to set their primary focus on successful implementation of diversion programs. Meeting the disposal rate targets is not necessarily an indication of compliance.

Disposal Rate Calculator

Instructions

- Select jurisdiction name and report year.
- Enter your Disposal Reduction Credits in the spaces provided.
- Both your population-based and industry employment-based annual per capita disposal rates will automatically be calculated and displayed in the results section at the bottom of the sheet, along with your 50% equivalent per capita disposal target for population and industry employment. Your population-based rate will be highlighted below to improve readability. If you have any questions about your population-based and/or industry employment-based targets, please contact your LAMD representative.
- For a more thorough explanation of the new measurement system, go to Goal Measurement: 2007 and Later.

Please note:

- Changes to any reporting-year amounts must correspond to the **same** reporting-year used in this disposal rate calculation.
- Any changes to the default numbers are in italic with yellow background.
- Default numbers for the previous calendar year begin to populate in late spring, update concurrently with the Recycling and Disposal Reporting System (RDRS) until on or about June 15th with the release of the Electronic Annual Report (EAR), then lock to match the default EAR data after that date.
- The first five fields of the calculator display tons for different types of disposal as assigned in RDRS. While users cannot edit these fields, they can adjust the Reporting Year Disposal Amount (tons) total and other fields to calculate a per capita disposal rate.

Jurisdiction Name:

Report Year:

El Dorado-Unincorporated (2023)

1 Landfill Disposal (tons):	114,367.75
2 Transformation (tons):	0.00
3 Engineered Municipal Solid Waste (EMSW) Conversion	0.00

Countywide, Regionwide, and Statewide Jurisdiction Diversion / Disposal Progress Report

This report provides both summary and detailed information on biennial review status, Jurisdiction Review status, diversion rates, disposal rates, and waste diversion program implementation for all California jurisdictions. Users can group jurisdictions by county, by specific geographic regions, or by the entire state. Users can further customize reports by selecting criteria such as report year, diversion rate range, disposal rate achievement, and/or biennial review or Jurisdiction Review status.

- Biennial/Jurisdiction Review status definitions
- Step by step instructions to use report
- Goal Measurement: 2007 and Later

GFE - Good Faith Effort

Step 1: Select a Report Year

Step 2: Select a Geographic Criteria for Filtering the Report

California County Geographical Area

County Select *

Step 3: Select Disposal Rate Achievement or Jurisdiction Review Status

Disposal Rate Achievement Jurisdiction Review Status

Disposal Rate Achievement

Advisory! The per capita disposal rate is a jurisdiction-specific index and cannot be compared between jurisdictions. The per capita disposal rate is used as one of several "factors" in determining a jurisdiction's compliance with the intent of AB 939, and allows the California Department of Resources Recycling and Recovery (CalRecycle) and jurisdictions to set their primary focus on successful implementation of diversion programs. Meeting the disposal rate targets is not necessarily an indication of compliance.

Please Note! This online database contains some disposal rates calculated with data as submitted by the jurisdiction. This data is subject to change during the formal Jurisdiction Review process or when a jurisdiction submits updated information. Specifically, the Annual Report Review Status "Staff Reviewed" means the jurisdiction has submitted their Annual Report and Local Assistance and Market Development Staff have reviewed the data as submitted. However, these reports have not been formally presented to, or approved by CalRecycle. The Per Resident and Per Employee Disposal rate targets listed below are the most current targets as calculated by CalRecycle staff.

Jurisdiction	# of Programs Implemented	Annual Report Review Status	Rev... Years	Jurisdiction Review Status	Compliance Status	Staff Reviewed Tons	Pop (PTO)
El Dorado-Unincorporated	46	Staff Reviewed		Awaiting Review		114,271.39	5.3
Placerville	45	Staff Reviewed		Awaiting Review		14,366.51	6.9
South Lake Tahoe	40	Staff Reviewed		Awaiting Review		21,614.85	9.4
