SUBJECT: Addendum No. 1
Silver Fork Road at South Fork American River Bridge Rehabilitation
Contract No. PW 16-31152, Project No. 77124, P&C No. 298-C1799

Submit proposals for this work with the understanding and full consideration of this Addendum. The revisions declared in this Addendum are essential parts of the Contract.

ITEM NO.	LOCATION, PAGE OR DRAWING NO	DESCRIPTION OF CHANGE
1.01	Special Provisions Appendix B – Federal Wage Rates	Bidders are instructed to delete pages AB-1 through AB-53 of Appendix B – Federal Wage Rates from the Table of Contents and Special Provisions
1.02	Draft Agreement Exhibit E – Federal Wage Rates	Bidders are instructed to add the attached pages C-37 through C-79 of Exhibit E – Federal Wage Rates to the draft agreement. Exhibit E will be added to the final agreement that will be sent to the Contractor for signatures.
1.03	Section 9-1.16C	Bidders are instructed to add the following to the end of the item list of Section 9-1.16C of the Special Provisions: 13. Relocate Existing Steel Girders (if Contractor elects to supply new steel girders in lieu of reusing existing steel girders)
1.04	Section 11-3.02A	Bidders are instructed to add the following to the end of the item list of Section 11-3.02A of the Special Provisions: 4. Any welding on new steel girders
1.05	Section 55-1.01C(1)	Bidders are instructed to add the following to the end of Section 55-1.01C(1) of the Standard Specifications: Contractor may elect to use new steel girders in lieu of

		<p>reusing the existing steel girders. Only new steel girders may be substituted and no other new girder types, such as precast concrete girders, are allowed. If new steel girders are elected to be used they may be replaced with the exact same size welded-plate girders or standard rolled girders with equal or higher structural and fatigue capacity, for both shear and flexure, as well as equal or higher section modulus and torsional constant, such that there is no decrease in structural performance. The number of girders, girder locations, and approximate girder height shown in the Project Plans must be used. Girders with a designated height greater than 36 inches, or welded-plate girders with a nominal height greater than the existing girders, are not permitted. The new steel girders must have similar web and flange dimensions, and weigh approximately the same, as the existing girders. The Contractor will be responsible for designing any changes to the cross-frame systems needed to accommodate the new steel girders, as well as maintaining girder stability during construction. The Contractor must ensure finish grade dimensions and bridge size is maintained as shown in the Project Plans. Minor adjustments needed to maintain the finished product shown in the Plans may be required. All proposed details, plan changes, and new steel girders must be submitted for and are subject to Engineer review and approval. Allow 20 days for Engineer review.</p> <p>Based on preliminary analysis, a comparable standard steel girder may be a W36x194. In addition to the requirements and considerations discussed herein, approval of the new steel girder submittal is contingent on the following items:</p> <ol style="list-style-type: none"> 1. Include any design modifications required to the structure to accommodate the new steel girders. Design modifications must comply with the Project design criteria listed on the "General Notes" sheet of the Project Plans. 2. Include any changes to connections to the new steel girders and verify that the changes comply with the Project design criteria. 3. Confirm the new steel girders are stable during erection for all construction loads, including overhang bracket loading for the deck overhang pour. 4. Revise camber as needed for the selected new steel

		<p>girders.</p> <p>If Contractor elects to use new steel girders and off haul existing steel girders, attention is directed to Section 14-11.08 of the Project Special Provisions regarding the existing paint surface of the steel girder to ensure proper handling and disposal. If the existing steel girders are not reused, they shall become the property of the Contractor and must be removed from the Project site in compliance with the Contract Documents.</p>
1.06	Section 55-1.03C(1)	<p>Bidders are instructed to add the following as the second sentence in the first paragraph of Section 55-1.03C(1) of the Special Provisions:</p> <p>If the Contractor elects to use new steel girders, submit an erection plan for lifting the new steel girders.</p>
1.07	Section 55-1.04B	<p>Bidders are instructed to add the following to the end of Section 55-1.04B of the Special Provisions:</p> <p>If Contractor elects to use new steel girders, no additional compensation will be made for the new steel girders or any additional work associated with the use of new steel girders. The cost of the new steel girders and any work associated with the use of new steel girders shall be included in the lump sum payment for "Relocate Existing Steel Girders" in the Bid Item List. No additional compensation will be made for adjustments necessary to accommodate the new steel girders and maintain the finished product shown in the Plans, including any incidental changes required in the Plans and specifications. No additional compensation will be made for removing and disposing of the existing steel girders in conformance with the Project Specifications.</p>
1.08	Section 59-2.04	<p>Bidders are instructed to add the following to the end of Section 59-2.04 of the Special Provisions:</p> <p>If Contractor elects to use new steel girders, the girders may be factory painted and no additional payment will be made beyond "Clean and Paint Structural Steel" in the Bid Item List for cleaning and painting the girders.</p>

FEDERAL PREVAILING WAGE RATES

General Decision Number: CA180009 01/12/2018 CA9

Superseded General Decision Number: CA20170009

State: California

Construction Types: Building, Heavy (Heavy and Dredging) and Highway

Counties: Alpine, Amador, Butte, Colusa, El Dorado, Glenn, Lassen, Marin, Modoc, Napa, Nevada, Placer, Plumas, Sacramento, Shasta, Sierra, Siskiyou, Solano, Sonoma, Sutter, Tehama, Trinity, Yolo and Yuba Counties in California.

BUILDING CONSTRUCTION PROJECTS (excluding Amador County only); DREDGING CONSTRUCTION PROJECTS (does not include hopper dredge work); HEAVY CONSTRUCTION PROJECTS (does not include water well drilling); AND HIGHWAY CONSTRUCTION PROJECTS

Note: Under Executive Order (EO) 13658, an hourly minimum wage of \$10.35 for calendar year 2018 applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.35 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in calendar year 2018. The EO minimum wage rate will be adjusted annually. Please note that this EO applies to the above-mentioned types of contracts entered into by the federal government that are subject to the Davis-Bacon Act itself, but it does not apply to contracts subject only to the Davis-Bacon Related Acts, including those set forth at 29 CFR 5.1(a)(2)-(60). Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which

these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage

payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
