Dear Supervisors,

Please pull Items #5, 6, and 8 on the 3-11-14 BOS agenda for discussion. I have received many phone calls and emails about these agenda items. The concern is that by increasing the contract amounts with the applicant you are giving the impression that you support these projects. I would like for you to make it perfectly clear to the applicant that they are taking a huge risk by spending more money to move forward with high-density residential projects that are opposed by many community organizations while we are in a drought. The public would also like clarity to know that only applicant money is being spent and not taxpayer dollars.

Thank you,

Lori Parlin

Dear Board of Supervisors,

I am concerned that consideration is currently being given to these projects dispute unanswered questions about the future of water availability to meet current needs and the negative impact on traffic congestion on highway 50 and roads that feed the highway. I am definitely in favor of keeping El Dorado County rural east of El Dorado Hills

Thank you,
