

Please Deny the Waste Connections (EDDS) rate increase request!

Some simple reasons why:

1. Waste Cons. still owes us rate payers a refund of the bogus fuel sur-charge that you (Bos) repealed last year. (2006-2009)
2. You as supervisor have a responsibility to the rate payers in this the worst recession since the 1930s.
3. Waste Cons. is not conducting business with the county in good-faith. As I have learned that they are attempting to derail the great (Detail) progress that us residents, RIPP, Inc. and your Solid waste committees have made in regard to the Solid Waste Management Plan. SWMP.  
Please be aware and don't let that happen.

Respectfully,

Michael C Mueller, RCDD, DecA

Diamond Springs Resident & RIPP, Inc. member
