

Dear Board of Supervisors,

I am opposed to the proposed apartment complex in Town Center. I live within 1 mile of Town Center and am now impacted negatively with the traffic congestion.

The Town Center was designed to be a retail center, not an urban center for commuters. You would be serving the community better if you spent some effort working on ways to bring into the center new businesses that would fulfill the needs of the people who now live here. We bleed thousands if not millions of dollars every year to Folsom as there are no stores in the center that cater the everyday needs. One can wonder why the Outlet Stores center in Folsom is jam pact with customers every day of the week. Maybe you should look to their retail format. You need to give business an incentive to want to bring their business to Town Center.

Bottom line you Board of Supervisors were voted into your possession by the people of the County. We are your bosses you work for us, not big dollar outside developers.

I've enclosed a petition signed by all but two of my neighbors who feel as I do that the town Center Apartment complex is not only going to make the traffic worse but also it does not serve the community in the capacity that it was designed for, i.e. a retail center serving the residents of El Dorado Hills with the kind of stores that will keep our sales tax money in the county where is needed.

Thank you for your consideration,
