

**The El Dorado County Health and Human Services Agency
Public Health Division**

**would like to invite you to be part of the dialogue for creating
a healthier community!**

- WHAT:** We'd like to know what you think are the most important health issues in this county; what resources already exist that can help and what else is needed; and your ideas for improving people's health.
- HOW:** We will be meeting with community members and various groups (such as clubs, churches, family resource centers, and preschools) to ask for your opinion. Later, you will be able to see the report on the community's views.
- WHEN:** Community meetings are expected to be held July – September, 2015 in various locations in El Dorado County. In addition, a survey will be widely available later this summer that also invites your opinion. Watch for announcements of both!
- WHO:** Everyone who lives in El Dorado County – seniors, young parents, teens, business people, teachers, neighbors – is invited to participate.
