Once again the minutes does not reflect what happened and is on tape
Bre requests a private session after refusing to answer Commissioner William's question
The tape shows that I was muted and was not at all confrontational
Say what you will but it's on tape
A judge will see this that the planning staff are covering up what really was the agenda.
You are digging a deeper hole with your lies and dishonesty
Joe King

I object to the minutes once more as they do not state the Brown Act issues plus no mention is done where Bre refuses to answer Commissioner William's question regarding what names were on the original background check submission by Embarc
I hereby reject and challenge the authenticity of the minutes as written now and will use the taped version of what actually happened to expose the cover up in Court
I will add this to my Brown Act Violation submission
I categorically state I DO NOT Accept the minutes as set out currently
Please amend correctly and stop lying and doctoring the truth and engaging in a cover up

I want to note some strange postings by officials in Eldorado County regarding communicating with the department and appeals etc

I hope I have misinterpreted them as if I have not, then it's disturbing.

One relates to communications received outside of normal business hours 9:00am to 5:00pm. I submit that any emails received outside of business hours should be responded to the next business day and not disregarded as that would be a dereliction of duty. A letter in transit by mail overnight and received after hours would be read during the next business hours.

Also email is accepted as legal correspondence thru out California and all complaints received by email are as valid as if written by hand and mailed by post.

Any attempt by the County to circumvent valid complaints by underhand and devious methods will not work in any legal environment and will simply be added to the already long list of violations perpetrated against us residents of Meyers.

This practice of the County of simply making up new rules as they go along is not legally sound once the intent is examined as it will be inevitably.

I hope I am wrong about the intentions of the vague publications issued in the last 24 hours, but in the event of these being drafted for the purpose of misleading residents of Meyers as to avenues open to them, I hereby give notice of my non acceptance of any illegal maneuvers and my right to communicate to channels normally used up to the present date.

Thank you
Joe King

To: Cannabisinfo <cannabisinfo@edcgov.us>, Sue Novasel <bosfive@edcgov.us>

Following the Cannabis appeals hearing, I requested under the Freedom of information act that the County post and make available to the public the full video of the days hearings.

After 8 days the County did this, thank you.

I have preserved a record of the hearing and I understand others have too.

However since the proposed minutes of the hearing have glaring omissions and are entirely inadequate, I don't accept that they reflect what actually took place.

In the interest of public transparency I request that the County maintain the public posting of the link to the entire hearing for a min of 12 months or until all legal proceedings or complaints have been settled, which ever is the greater period of time.

Members of the public, interested parties, should be able to look up the link to the full video during this period.

Any attempt by the County to remove the posting during this period will be taken as an attempt to limit transparency and to reduce public access to an ongoing legal mater.

I expect your co operation.

Thank you
Joe King
