RE: Meeting w/ residents and Amador Disposal Service.

Dear members of our Board of Supervisors,

I am a disabled, senior, living alone and thankfully, independent. My income to sustain a modest retirement is less than \$900 month. And, because I am confined to a power wheel chair, I must take my light weight refuse can up a block long driveway, to the refuse pickup spot, balanced on my feet.

Both of these personal challenges make the business needs of Amador Disposal Service, a serious burden.

I do have a circular drive if they retrieve the heavy receptacles at my house location. And, in the same civic care (deduction of fees) shown by phone and power companies, maybe a disabled, elder could have the disposal charge adjusted.

Please add my voice to others who will identify their difficult situation.

Thank you,

Rev. Jaclyn Koehnke
