Dear Board of Supervisors,

El Dorado County is known for its natural beauty. That is what brings people here to live and to visit. Do not update our Sign Ordinance to bring urban signage to El Dorado County. Stand up for the quality of life that we enjoy and do not approve digital signs in the Sign Ordinance. Stand up for our scenic viewsheds and do not approve 60' tall signs along Highway 50.

Tell staff that they should listen to public requests for clarification of proposed policies. Creating a simple matrix to clarify the differences between the existing ordinance and the proposed ordinance could have alleviated much of the public's confusion and concerns about transparency of the process.

Thank you,
Sabrina Harbison

Dear Board of Supervisors,

El Dorado County is known for its natural beauty. People live in and visit the County to get away from urban areas and enjoy our precious natural scenic resources. Signs can have a great impact on scenic quality; they can be designed to fit in with and reflect the natural background of an area and avoid scenic degradation, or they can cause deterioration of the scenic quality and create an urbanized look that detracts from the character and beauty of our unique communities. For these reasons, sign ordinances require careful consideration and public input.

Therefore, I urge you not to update our County's Sign Ordinances in a manner that will bring urban signage to El Dorado County. Please protect the quality of life that we enjoy, and which draws visitors to our area, by rejecting ordinances that would allow digital signs anywhere in the County, and 60' tall signs along Highway 50.

Also, please instruct staff to address public requests for clarification of proposed policies. For example, creating a simple matrix to clarify the differences between the existing ordinance and the proposed ordinance could have alleviated much of the public's confusion and concerns about transparency of the process.

Thank you,
Jennifer Quashnick

Dear Board of Supervisors,

I cannot believe that the our county would approve this sign ordinance. We currently have a sign ordinance that is not enforced .

I have repeatedly reported developer signs that litter both sides of Latrobe across from Town Center , sign the cover the CVS property on White Rock and Signs along the strip mall on White Rock . These signs are put up on a Saturday and taken down on a Sunday to avoid the law. I have even sent pictures of these sings.

El Dorado County is known for its natural beauty. That is what brings people here to live and to visit.

Do not update our Sign Ordinance to bring urban signage to El Dorado County. Stand up for the quality of life that we enjoy and do not approve digital signs in the Sign Ordinance. Stand up for our scenic view sheds and do not approve 60' tall signs along Highway 50.

Tell staff that they should listen to public requests for clarification of proposed policies. Creating a simple matrix to clarify the differences between the existing ordinance and the proposed ordinance could have alleviated much of the public's confusion and concerns about transparency of the process.

Thank you,

John Raslear

Re: Sign Ordinance Update, File #13-0086

Dear El Dorado County Board of Supervisors,

El Dorado County is renowned for its natural beauty and rural atmosphere. That is what brings people here to live and to visit. Please do not approve a Sign Ordinance update that will bring urban signage to El Dorado County. Please stand up for the quality of life that we enjoy and do not approve digital signs in the Sign Ordinance.

Highway 50 is the backbone of El Dorado County. Stand up for its scenic viewsheds and do not approve 60' tall signs along Highway 50 or anywhere else.

Please instruct county staff that they need to listen and constructively respond to public requests for clarification of proposed policies. Creating and publishing a simple matrix to clarify the differences between the existing ordinance and the proposed ordinance will alleviate much of the public's confusion and concerns about transparency of the process.

Please DO NOT approve a sign ordinance that will turn our home into a replica of Sacramento and other urbanized areas that have ugly glaring roadside signage. We neither want or need it.

Sincerely,

Jon Jakowatz

El Dorado Hills

Dear Board of Supervisors,

Do not update our Sign Ordinance to bring urban signage to El Dorado County. Stand up for the quality of life that we enjoy. NO digital signs in the Sign Ordinance. Stand up for our scenic views. NO 60' tall signs along Highway 50.

Why won't your staff listen to public requests for clarification of proposed policies? Clarification of the differences between the existing ordinance and the proposed ordinance could have alleviated confusion and concerns about transparency of the process. Obfuscation does not make for a good ordinance.

Remember, YOU work for EDC residents, not the other way around!
