**Optional:** Click here to import last year's data. This is best used when the workbook is new and empty. You will be prompted to pick an old workbook to import from. If a project is no longer has any reportable activity, you may delete the project by selecting a cell in the row and typing ctrl + d.

[Click here to download APR Instructions](#)

Click here to add rows to a table. If you add too many rows, you may select a cell in the row you wish to remove and type ctrl + d.

**Optional:** This runs a macro which checks to ensure all required fields are filled out. The macro will create two files saved in the same directory this APR file is saved in. One file will be a copy of the APR with highlighted cells which require information. The other file will be list of the problematic cells, along with a description of the nature of the error.

**Optional:** Save before running. This copies data on Table A2, and creates another workbook with the table split across 4 tabs, each of which can fit onto a single page for easier printing. Running this macro will remove the comments on the column headers, which contain the instructions. Do not save the APR file after running in order to preserve comments once it is reopened.

**Optional:** This macro identifies dates entered that occurred outside of the reporting year. RHNA credit is only given for building permits issued during the reporting year.

# ANNUAL ELEMENT PROGRESS REPORT

## Housing Element Implementation

<b>Jurisdiction</b>	El Dorado County - Unincorporated		
<b>Reporting Year</b>	2023	(Jan. 1 - Dec. 31)	
<b>Table D</b>			
<b>Program Implementation Status pursuant to GC Section 65583</b>			
<b>Housing Programs Progress Report</b>			
Describe progress of all programs including local efforts to remove governmental constraints to the maintenance, improvement, and development of housing as identified in the housing element.			
<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>
<b>Name of Program</b>	<b>Objective</b>	<b>Timeframe in H.E</b>	<b>Status of Program Implementation</b>
Measure HO-1	As part of each Specific Plan or other community plan update that requires a General Plan land use designation amendment, the County will annually review and revise land use patterns, existing densities, the location of job centers, and the availability of services to identify additional areas within the plan or project area that may be suitable for higher-density residential development to ensure that a sufficient supply of residentially designated land is available to achieve the County's housing objectives. [Policies HO-1.1 and HO-1.2]	Annually review and revise, and ongoing, as projects come forward	Completed and Ongoing.

<p>Measure HO-2</p>	<p>Annually review available and adequate sites suitable for the development of affordable housing, with highest priority given to development of housing for extremely low-, very low-, and low-income households. Working with other public agencies, develop a work program that identifies the geographic areas where affordable housing development could best be accommodated without the need to construct additional infrastructure (e.g., water lines, sewer connections, additional or expanded roadways) that could add substantial costs to affordable housing developments [Policies HO-1.1 and HO-1.2]</p>	<p>Annually monitor</p>	<p>Completed and Ongoing. On May 10, 2022, County staff received notice from the California Department of Housing and Community Development (HCD) with their findings that certify the El Dorado County adopted 2021-2029 Housing Element of the General Plan is in full compliance with State Housing Element Law (Article 10.6 of the Gov. Code). As part of the housing element update process, an analysis of vacant land and redevelopment opportunities for affordable housing were identified.</p>
<p>Measure HO-3</p>	<p>Annually review and update the Capital Improvement Programs (CIP) under the County's control that contain strategies for extending services and facilities to areas that are designated for residential development, but do not currently have access to public facilities, so that the County's housing goals, policies, and implementation measures are effectively applied. [Policies HO-1.5 and HO-1.26]</p>	<p>Annually review and update CIP</p>	<p>Completed and Ongoing.</p>

Measure HO-4	<p>Establish an interdepartmental working group to ensure cooperation between departments for implementation of County projects, including the County's Transportation Plan, the County's Housing Element, and any other County plan. Agencies include, but are not limited to, El Dorado Transit Authority, El Dorado County Transportation Commission, Chief Administrative Officer, Board of Supervisors, Planning and Building Department. [Policy HO-1.5, HO-1.17, HO-1.26]</p>	One year with annual coordination	The County established an interdepartmental and interagency working group to develop and coordinate the short- and long-term Transportation Plan as a part of the Major Five-Year Capital Improvement Program (CIP) update in 2020.
--------------	--	-----------------------------------	---

<p>Measure HO-5</p>	<p>Develop and adopt an incentive-based policy or policies that will encourage, assist, and annually monitor the development of housing that is affordable to extremely low-, very low-, low-, and moderate-income households. The incentive-based policy shall incorporate and expand upon existing affordable housing incentives prescribed by state law and shall incorporate the affordable housing provisions from the Design and Improvement Standards Manual (Measure HO-10), Residential Development Processing Procedures (Measure HO-13); and Infill Incentives Ordinance (Measure HO-14). Actions will include forming a committee to explore fee reduction and mitigation options with state and local agencies, including water purveyors and school districts for special needs and affordable housing developments. The policy or policies shall also consider partnerships with nonprofit housing organizations whose mission it is to expand and preserve permanently affordable rental and ownership housing for low and moderate-income housing such as community land trusts. <p>Measure HO-33</p>	<p>The County shall update the Traffic Impact Fee (TIF) Program analysis to analyze anticipated lower trip generation and traffic benefits of a variety of housing types, including mixed-use and accessory dwelling units, to determine if a reduction of impact fees can be accomplished.
