RE: CAO Update

● **HOME Program Audit:** On March 24th, a HOME Investment Partnerships Program Representative met with our staff for a close-out monitoring review of the Sunset Lane Apartments project, one of the County's affordable housing projects. At the exit interview, it was determined that there were no concerns or findings for the County to address.

● **Electric Vehicle Charging Infrastructure Grant:** The Air Quality Management District (AQMD) received notice on a grant application to the California Energy Commission. AQMD applied for \$60,450 to fund ten electric vehicle charging stations in Placerville and South Lake Tahoe. We received a notice of proposed awards that our grant proposal has been recommended for funding. Funding is contingent upon approval at a publicly noticed Energy Commission Business Meeting.
