Good Afternoon Julie,

I just received a phone call from a Ms. Sarah Heinzl who is the administrator to the Richard Miller Estate adjacent to the Shinn Ranch project site. Her public comment is as follows: "This project presents a fire safety issue given only one road in and out. The project would also affect the rural atmosphere by overdevelopment of the area. It would be better to pursue a less intensive residential development in favor of an open space preservation purchase from an entity such as the American River Conservancy."

Kind regards,
