THE ANNUAL CONSUMER PRICE INDEX (CPI) ADJUSTMENT FOR  
CALENDAR YEAR 2022 TO THE ADOPTED PARK IMPACT FEE**

The District approved the Nexus Study on June 14, 2018; and

**WHEREAS**, the Park Impact Fee amounts were set by District Resolution 2018-19 followed by El Dorado County Resolution 135-2018; and

This resolution shall be effective immediately upon approval, and shall remain in effect until modified, terminated, or rescinded by subsequent resolution of the District. **RESOLUTION NO. 069-2022**

OF THE BOARD OF SUPERVISORS OF THE COUNTY OF EL DORADO

RESOLUTION INCREASING DEVELOPMENT IMPACT FEES

ON BEHALF OF

EL DORADO HILLS COMMUNITY SERVICES DISTRICT

**WHEREAS**, AB 1600 was passed and codified in California Government Code Sections 66000-66025 (“Mitigation Fee Act”) allowing the establishment of a development impact fee as a condition of approval where the purpose and use of the fee are identified and a reasonable relationship to the development project can be demonstrated; and

**WHEREAS**, the County of El Dorado has adopted Ordinance No. 5057, codified in Chapter 13, Section 20 of the El Dorado County Code authorizing the establishment of a development impact fee collected on behalf of a special district upon the issuance of all building permits for development within the special district in order to fund the construction or purchase of public facilities and equipment necessary to mitigate the impacts of such development on the district’s ability to provide public services; and

**WHEREAS**, the Board of Supervisors has previously established fees within the boundaries of the El Dorado Hills Community Services District (“District”), for the purpose of funding the construction or purchase of parks and recreation facilities and equipment necessary to mitigate the impacts of new development on the District’s ability to provide parks and recreation services within the District, and the previously-established fees are documented by Resolution 135-2018 adopted July 17, 2018; and

**WHEREAS**, such fees were based on a Fee Nexus Study and Report (“Report”) detailing the legal and policy basis for increasing the development impact mitigation fee within the District; and

**WHEREAS**, on July 9, 2020, the District adopted Resolution No. 2020-16, adopting an increase to the fees by 3.3%, based on the change in the Consumer Price Index for calendar year 2019, and requesting the Board of Supervisors adopt the 3.3% increase to the established impact fees as proposed therein; and

**WHEREAS**, on November 10, 2020, the Board of Supervisors adopted the requested 3.3% increase by Resolution No. 166-2020; and

**WHEREAS**, on February 11, 2021, the District adopted Resolution No. 2021-02, adopting an increase to the fees of 2.0%, based on the change in the Consumer Price Index for calendar year 2020, and requesting the Board of Supervisors adopt the 2.0% increase to the established impact fees as proposed therein; and

**WHEREAS**, on April 6, 2021, the Board of Supervisors adopted the requested 2.0% increase by Resolution No. 022-2021; and

**WHEREAS**, on February 10, 2022, the District adopted Resolution No. 2022-05, adopting an increase to the fees of 4.2%, based on the change in the Consumer Price Index for calendar year 2021, and requesting the Board of Supervisors adopt the 4.2% increase to the established impact fees as proposed therein; and

**WHEREAS**, notice of this hearing was published in the *Mountain Democrat* on April 29, 2022 and May 6, 2022 in accordance with Section 66018 of the Mitigation Fee Act; and

**NOW, THEREFORE, BE IT RESOLVED**, pursuant to Government Code Section 66001, the Board of Supervisors has reviewed the proposed fee increase and makes the following findings:

- A. The purpose of these fees is to finance public facilities and equipment to mitigate the impact of new development on parks and recreation services within the District.
- B. As found in Resolution No. 135-2018, the fees collected pursuant to this Resolution shall be used to finance the facilities and equipment as described and identified in the Report, provided that any expenditure will be reimbursed only if the District submits adequate supporting information to show that there is a reasonable relationship between the use of the fee and the type of development project for which the fee was imposed, including the percentage of the development project funded from the fee, and a reasonable relationship between the need for the public facility and the type of development for which the fee was imposed.
- C. Upon consideration of the Report and testimony received at the July 17, 2018 hearing, the Board approved the Report in Resolution No. 135-2018, incorporating such therein by reference, and further found that new development within the boundaries of the District will generate an additional need for parks and recreation equipment and facilities and will contribute to the degradation of current services within the area.
- D. As found in Resolution No. 135-2018, the facts and evidence presented in the fee nexus study established a reasonable relationship between the need for the improvements and the impact of the development for which the fee is charged, and a corresponding relationship between the fee's use and the type of development for which the fee is charged, as these reasonable relationships are described in more detail in the Report.
- E. As found in Resolution No. 135-2018, the cost estimates set forth in the Report are reasonable cost estimates for constructing these facilities or acquiring the equipment needed and the fees expected to be generated by new development will not exceed the total of these costs, and the Board further finds that these costs increase relative to the increased costs of construction and equipment due to inflation.
- F. As stated in the Report, the fee is subject to adjustment by the percentage change in the Consumer Price Index and that utilization of the inflationary index for one calendar year produces a fee that maintains a reasonable relationship between the need for the public facility and the type of development for which the fee was imposed while accounting for increased costs of construction and equipment due to inflation.

Whereas, the El Dorado County Board of Supervisors' May 22, 2018 Meeting Minutes request the El Dorado Hills Community Services District to revise its development impact fee resolution to "allow very low, low and moderate housing units to fall under the same category as multi-family housing units;" and to "Exempt second dwellings and mobile homes from these fees;" and

Whereas, Park Impact Fees have been revised accordingly in this Resolution; and

Whereas, the District reaffirms its commitment to the continued pursuit to solutions to the affordable housing crisis in California, as expressed in the District's Resolution 2007-16; and

Whereas, the Nexus Study identifies the purpose of the Park Impact Fees and the use to which the Fees will be put, and a copy of the Nexus Study is attached hereto as Exhibit "A" to this resolution, and incorporated herein by this reference.

Now, therefore, the District, after review of the Nexus Study, hereby finds, declares, and resolves as follows:

1. The District, using its independent judgment, has reviewed, approves and recommends the El Dorado County Board of Supervisors adopt the Park Impact Fee and Nexus Study as attached hereto and incorporated herein as Exhibit "A."

2. A reasonable relationship exists between the need for District public facilities and the type of development project on which the Park Impact Fees are imposed as indicated by the Nexus Study. Park Impact Fees collected from each new development will generate revenue which is necessary to offset development's impacts to the District's facilities.

3. A reasonable relationship exists between the use of Park Impact Fees and the type of development project on which the fees are imposed as indicated by the Park Impact Fee Justification Study. Park Impact Fees collected will be used for the acquisition, installation, and construction of the public facilities identified in the Nexus Study.

4. A reasonable relationship exists between the amount of the Park Impact Fees and the cost of the public facilities attributable to the development on which the Fees are imposed as indicated by the Nexus Study. The method of allocation of the respective Fees to a particular development project bears a fair relationship, and is roughly proportional to, the development project's burden on, and benefits from, public facilities to be funded by the Park Impact Fees.

5. The adoption of this resolution is statutorily exempt, pursuant to Public Resources Code Section 21080(b)(8) and the California Environmental Quality Act ("CEQA") and the CEQA Guidelines under Section 15273(a).

6. The Park Impact Fees collected shall be placed in an individual interest bearing account, or multiple accounts, established for the purpose of tracking the fee revenue and expenses separately.

7. The Park Impact Fees shall be solely used for (i) the purposes described in the Nexus Study; (ii) reimbursing the District for a development project's fair share of those public facilities identified in the Nexus Study and constructed by the District; or (iii) reimbursing developers who construct public facilities identified in the Nexus Study.

8. The following definitions shall apply in implementing the Fees and the terms of this resolution:

(a) "Building permit" means the permit issued or required for the construction or improvement of additional square footage for any structure pursuant to and as defined by the

updated annually.

(i) "Accessory dwelling unit" means an attached or a detached residential dwelling unit which provides complete independent living facilities for one or more persons. It shall include permanent provisions for living, sleeping, eating, cooking, and sanitation on the same parcel as the single-family dwelling is situated, as established in Government Code section 65852.2, as may be amended from time to time.

(j) "Manufactured home" means residential structures that are constructed in a factory and which, since June 15, 1976, have been regulated by the federal Manufactured Home Construction and Safety Standards Act of 1974 under the administration of the U.S. Department of Housing and Urban Development (HUD).

9. Schedule of Fees. Effective on and after the date fixed by the Land Use Authority, Park Impact Fees shall be imposed according to the following schedule(s) unless otherwise amended by resolution of the Land Use Authority.

**Table 1**  
**Park Impact Fee – El Dorado Hills Community Services District**

<b>Land Use Type</b>	<b>Total Fee</b>
Single Family Residential	\$11,718 per Unit
Multi-Family Residential (Includes Very Low, Low, and Moderate Income Homes, as defined in 8.H. herein)	\$7,734 per Unit
Age-Restricted	\$6,848 per Unit
Mobilehome Park Homes	Exempt
Accessory Dwelling Units	Exempt

- A. Park Impact Fees shall be charged on applicable new buildings.
- B. Park Impact Fees shall be calculated on the expansion of an existing non-residential building based on the applicable fee amount per 1,000 square foot described in this Section multiplied by the new enclosed square footage of building.
- C. Park Impact Fees shall be calculated at the time of issuance of the building permit of a building that is triggering their collection and shall be collected prior to the final inspection of said building permit.
- D. Park Impact Fees shall be calculated based on the building's use, with a best fit into one of the applicable land use type fee categories identified in the Park Impact Fee Justification Study and in instances where a unique use is presented, the Board of Supervisors will determine, in its sole discretion, which land use category is most appropriate.

E. Park Impact Fees collected on Single Family and Multi-Family Residential property shall be based on the applicable amount per unit described in this Section.

F. Park Impact Fees collected on the reuse of an existing building shall be calculated based upon the current land use category less any previous Park Impact Fee paid to the District. The land owner shall be required to provide evidence of prior payment of the Park Impact Fee.

G. Park Impact Fees for affordable housing units shall be assessed Park Impact Fees at the same level as Multi-Family Residential projects, even where that development would qualify as a Single Family Residential development, subject to the higher Impact Fee.

H. Accessory dwelling units and manufactured home developments shall be exempted from the Park Impact Fees.

10. Administration.

a) *Administrative Fee.* The District shall be responsible for administration of the Park Impact Fee, including the calculation and collection of the fees, tracking of deposits, and preparation of required reports.

- b) *Annual Adjustment.* An annual adjustment to account for cost escalations shall be applied to all Park Impact Fees in this Chapter in the manner and time specified herein:
1. Prior to the end of each fiscal year, the District shall report to the El Dorado County Clerk his or her finding on the annual escalation of construction costs for the prior twelve (12) months through May and the Park Impact Fees shall be adjusted accordingly.
  2. The basis for this annual adjustment shall be the percentage increase in the Engineering News Record (ENR)'s Construction Cost Index (CCI) to reflect changes in construction costs. The escalation shall be based on the change in the ENR CCI for the 12-month period ending in October of the prior year.
  3. The District shall post the annual adjustment in fees as specified in this section.

11. Credits and reimbursements.

(a) Park Impact Fee credits and reimbursements will be available to developers who fund construction of eligible Facilities. The District shall determine which Facilities will be eligible for developers to construct. Facilities must meet District standards for acquisition projects in order to be eligible for Park Impact Fee credits or reimbursements. Developers will be responsible for complying with all applicable laws, codes, and regulations relating to contracting and construction procedures for publicly funded public works projects.

(b) Developers will be eligible for Park Impact Fee credits up to one (100%) percent of the Park Impact Fees. Fee credits/reimbursements will be available for the Facility cost up to the lesser of (1) the cost shown in the Nexus Study and (2) actual construction cost of the eligible

Facilities. Park Impact Fee credits/reimbursements will be adjusted annually in the same manner as the Park Impact Fees. Once fee credits have been determined, they will be used at the time the respective fees would be due. The District, in its sole discretion, shall be responsible for determining the fee credit amount.

(c) Once all criteria are met, Park Impact Fee credits may be taken against fees when payable. To obtain fee credits, the Facilities must meet all District standards and criteria. The District maintains the flexibility to allocate fee credits in a manner it chooses.

(d) Reimbursements will be due to developers who finance Facilities in excess of their fair share of the cost of these Facilities. In such a case, developers would first obtain Park Impact Fee credits up to their fair share cost requirement for a Facility and then await reimbursement from Park Impact Fee revenue collections from other fee payers. Reimbursement priority will be determined on a first-in and first-out basis. When funds are available, and no high priority projects need to be financed, reimbursements will be paid to the first (1st) developer waiting for reimbursement. Once that developer is paid in full, the next developer awaiting reimbursement will start to be repaid in full. To obtain reimbursements, developers must enter into a reimbursement agreement with the District. Reimbursements will be paid only after the District's acceptance of the Facilities. Reimbursements are an obligation payable only from the Park Impact Fee program funds and not an obligation of the District's general fund.

12. Upon an update of the County of El Dorado's Housing Element, the District reserves the right to seek a reevaluation of the Nexus Study and Park Impact Fees.

13. This resolution shall be effective immediately upon approval, and shall remain in effect until modified, terminated, or rescinded by subsequent resolution of the District. Upon adoption by the County of El Dorado, the Fees approved herein shall supersede and replace the Park Impact Fee amounts previously adopted by the County of El Dorado upon the recommendation of the District, including but not limited to Park Impact Fees as referenced in Resolution No. 2015-18 and Resolution No. 2007-15, respectively.

- A. The purpose of these fees is to finance public facilities and equipment to mitigate the impact new of development on parks and recreation services within the District.
- B. The fees collected pursuant to this Resolution shall be used to finance the facilities and equipment as described and identified in the Report, provided that any expenditure will be reimbursed only if the District submits adequate supporting information to show that there is a reasonable relationship between the use of the fee and the type of development project for which the fee was imposed, including the percentage of the development project funded from the fee, and a reasonable relationship between the need for the public facility and the type of development for which the fee was imposed.

- C. Upon consideration of the Report and testimony received at this hearing, the Board approves the Report, incorporating such herein by reference, and further finds that new development within the boundaries of the District will generate an additional need for parks and recreation equipment and facilities and will contribute to the degradation of current services within the area.
- D. The facts and evidence presented in the study establish a reasonable relationship between the need for the public facilities and equipment and the impact of the development for which the fee is charged, and a corresponding relationship between the fee's use and the type of development for which the fee is charged, as these reasonable relationships are described in more detail in the Report.
- E. The cost estimates set forth in the Report are reasonable cost estimates for constructing these facilities or acquiring the equipment needed and the fees expected to be generated by new development will not exceed the total of these costs.
