Re: 1240 Pine Valley Rd – VHR# 2160  
1845 Susquehana Dr – VHR#1870

To Whom It May Concern,

I am formally requesting appeals of the decisions rendered on December 27, 2017 by the Law Office of William Wright. There were 2 VHR appeals made by Lake Tahoe Accommodations:

1240 Pine Valley Rd – VHR Permit # 2160 – Investigation #17-120

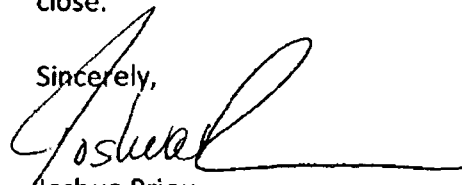

We cannot agree to the decision made stating that Lake Tahoe Accommodations did not use best efforts as required by the ordinance. Mr. Wright's comments stating that LTA made no efforts in monitoring the residence and checking on the guests once they were situated was absurd, in no way could a drive by helped this situation unless LTA was fortunate enough to happen to drive by at the same moment when the Sherriff's Department was called and by luck, caught them making noise

1845 Susquehana Dr – VHR Permit #1870 – Investigation #171-141

We cannot agree to the decision made stating that Lake Tahoe Accommodations did not use best efforts as required by the ordinance. Once again, Mr. Wright's comments were highly speculative. Stating that LTA should install a timer or other device so that the hot tub would be inoperable is once again absurd. First, there is no such timer that he is mentioning, physically shutting the tub down would be the only option. The extreme cold we endure in Tahoe could cause the tub to freeze, destroys mechanics, etc. if the entire tub was shut down. There is no such device to render only the jets inoperable.

Please accept my appeal request and please schedule the appeal as quickly as possible, these 2 situations happened in June and July of 2017 and it is time for these investigations to finally come to a close.

Sincerely,

  
Joshua Priou  
Director of Product Development  
Lake Tahoe Accommodations
